## **New Greenland:**

**Phasing Out the Colonial Status of Greenland, 1945-54** Jens Elo Rytter, 2010 With the Constitution of 1953 the colonial status of Greenland came to an end and Greenlanders were granted equal rights as citizens within the Danish realm. In 1954 this new arrangement was supported by the UN General Assembly. The decision to change Greenland's status was conditioned both by internal and external circumstances. In the UN context Danes increasingly felt the strain of being a colonial power and they feared the possibility of future UN interference in Greenlandic affairs. **Greenland's Stolen**

**Indigenous Children** Helene Thiesen, 2022-11-10 In this book author Helene Thiesen recounts her experience of being removed from her family in Greenland as a young Inuk child to be re-educated in Denmark and an orphanage in Greenland. The practice of forcible assimilation of Indigenous children into colonial societies through education has echoes in North America and Australasia and the painful legacy of these practices remains under-acknowledged. In this poignant book Helene recounts in detail the process of being taken from her family in 1951, aged seven, along with twenty-one other children in the attempt to re-make them into model Danish citizens in a social experiment led by the Danish government and Save the Children Denmark. When the children returned to Greenland a year and a half later they were sent to live in a Danish Red Cross orphanage where they were forbidden to speak their native languages and were compelled to adopt Danish language, culture, and customs. With a detailed introductory analysis from Dr Stephen James Minton who also provides the translation, Helene's account serves as a compelling and powerful testimony of a devastating colonial experiment. Richly illustrated with forty photos to help to situate the reader, this book provides an invaluable case study for researchers and students in the fields of Indigenous Studies, Critical Pedagogy, and Education, Psychology, European History, and Cultural Studies.

Colonialism in Greenland Søren Rud, 2017-08-08 This book explores how the Danish authorities governed the colonized population in Greenland in the nineteenth and twentieth centuries. Two competing narratives of colonialism dominate in Greenland as well as in Denmark. One narrative portrays the Danish colonial project as ruthless and brutal extraction of a vulnerable Indigenous people; the other narrative emphasizes almost exclusively the benevolent aspects of Danish rule in Greenland. Rather than siding with one of these narratives, this book investigates actual practices of colonial governance in Greenland with an outlook to the extensive international scholarship on colonialism and post-colonialism. The chapters address the intimate connections between the establishment of an ethnographic discourse and the colonial techniques of governance in Greenland. Thereby, the book provides important nuances to the understanding of the historical relationship between Denmark and Greenland and links this historical trajectory to the present negotiations of Greenlandic identity.

*Governing the North American Arctic* Dawn Alexandra Berry,Nigel Bowles,Halbert Jones,2016-04-08 Though it has been home for centuries to indigenous peoples who have mastered its conditions the Arctic has historically proven to be a difficult region for governments to administer Extreme temperatures vast distances and widely dispersed patterns of settlement have made it impossible for bureaucracies based in far off capitals to erect and maintain the kind of infrastructure and institutions

that they have built elsewhere As climate change transforms the polar regions this book seeks to explore how the challenges of governance are developing and being met in Alaska the Canadian Far North and Greenland while also drawing upon lessons from the region s past Though the experience of each of these jurisdictions is unique their place within democratic federal systems and the prominence within each of them of issues relating to the rights of indigenous peoples situates them as part of an identifiably North American Arctic Today as this volume shows their institutions are evolving to address contemporary issues of security environmental protection indigenous rights and economic development
