Decolonial Ecology Malcom Ferdinand,2021-11-11 The world is in the midst of a storm that has shaped the history of modernity along a double fracture on the one hand an environmental fracture driven by a technocratic and capitalist civilization that led to the ongoing devastation of the Earth's ecosystems and its human and non human communities and on the other a colonial fracture instilled by Western colonization and imperialism that resulted in racial slavery and the domination of indigenous peoples and women in particular In this important new book Malcom Ferdinand challenges this double fracture thinking from the Caribbean world Here the slave ship reveals the inequalities that continue during the storm some are shackled inside the hold and even thrown overboard at the first gusts of wind Drawing on empirical and theoretical work in the Caribbean Ferdinand conceptualizes a decolonial ecology that holds protecting the environment together with the political struggles against post colonial domination structural racism and misogynistic practices Facing the storm this book is an invitation to build a world ship where humans and non humans can live together on a bridge of justice and shape a common world It will be of great interest to students and scholars in environmental humanities and Latin American and Caribbean studies as well as anyone interested in ecology slavery and decolonization

Feeling the Future at Christian End-Time Performances Jill C. Stevenson,2022-02-01 The End is always near The Apocalypse has sparked imaginations for millennia while in more recent times highly publicized predictions have thrust End Time theology briefly into the spotlight In the 21st century fictional depictions of various apocalyptic scenarios are found in an endless stream of films TV shows and novels while real world media coverage of global issues including climate change and the migrant crisis often features an apocalyptic tone *Feeling the Future at Christian End Time Performances* explores this prevalent human desire to envision the End by analyzing how various live End Time performances allow people to live in and through future time The book s main focus is contemporary Christian End Time performances and how they theatrically construct encounters with future time not just images or ideas of a future but viscerally and immediately real experiences of future time Author Jill Stevenson s examples are Hell Houses and Judgement Houses Rapture House a similarly styled walk through drama in North Carolina Hell s Gates an outdoor reality drama in Dawsonville Georgia Ark Encounter a full size recreation of Noah s Ark and Tribulation Trail an immersive thirteen scene drama ministry based on the Book of Revelation The book s coda considers similarities between these Christian performances and secular survivalist prepper events especially with respect to constructions of and language about time In doing so the author situates these performances within a larger tradition that challenges traditional secular sacred distinctions and illuminates how the End Times has been employed in our current social and political moment

World Religions and Cults Volume 1 Bodie Hodge,Roger Patterson,2015-08-13 Religions in today s culture seem to be multiplying Have you ever wondered why certain religions believe and practice what they do Or how they view the Bible This volume delves into these and other engaging questions such as How can a Christian witness to people in these religions Do these other religions believe in creation and a Creator How do we deal with these religions from a biblical authority perspective Many religions and cults discussed in this first volume openly affirm that the Bible is true but then something gets in their way And there is a common factor every time man s fallible opinions In one way or another the Bible gets demoted reinterpreted or completely ignored Man s ideas are

used to throw the Bible's clear teaching out the window while false teachings are promoted This book is a must for laymen church leaders teachers and students to understand the trends in our culture and around the world where certain religions dominate helping you discern truth and guard your faith When you understand a religion's origins and teachings you are in a better position to know how to proclaim the gospel of Jesus Christ as you take the good news to those in false religions

Noah's Arkive Jeffrey J. Cohen, Julian Yates, 2023-06-13 A timely rethinking of the archetypal story of Noah the great flood and who was left behind as the waters rose Most people know the story of Noah from a children's bible or a play set with a colorful ship bearded Noah pairs of animals and an uncomplicated vision of survival Noah's ark however will forever be haunted by what it leaves to the rising waters so that the world can begin again In *Noah's Arkive* Jeffrey J. Cohen and Julian Yates examine the long history of imagining endurance against climate catastrophe as well as alternative ways of creating refuge They trace how the elements of the flood narrative were elaborated in medieval and early modern art text and music and now shape writing and thinking during the current age of anthropogenic climate change Arguing that the biblical ark may well be the worst possible exemplar of human behavior the chapters draw on a range of sources from the Epic of Gilgamesh and Ovid's tale of Deucalion and Pyrrha to speculative fiction climate fiction and stories and art dwelling with environmental catastrophe *Noah's Arkive* uncovers the startling afterlife of the Genesis narrative written from the perspective of Noah's wife and family the animals on the ark and those excluded and so left behind to die This book of recovered stories speaks eloquently to the ethical and political burdens of living through the Anthropocene Following a climate change narrative across the millennia *Noah's Arkive* surveys the long history of dwelling with the consequences of choosing only a few to survive in order to start the world over It is an intriguing meditation on how the story of the ark can frame how we think about environmental catastrophe and refuge conservation and exclusion offering hope for a better future by heeding what we know from the past

A Flood of Evidence Ken Ham, Bodie Hodge, 2016-09-21 There are hosts of books and resources on the Flood and Noah's ark in the creation movement But there has been a glaring problem in this area for 50 years There isn't one basic laymen book on the Flood and ark to give answers to those questions asked all the time Most books are too shallow too specific or too technical for the average Christian to read or get much from Most people in pews could use a book like this to give them the basic answers they need about the Flood and the ark then they will be prepared to go into further technical books or specific books from there Answers the top questions Answers in Genesis receives about the Flood Addresses issues in a way that should be easy to read and yet still gives the reader some meat to chew on The perfect starter book for those interested in learning more or for believers wanting share the truth with non-believers Most people in the pews could use a book like this to give them the basic answers they need about the Flood and Noah's Ark After reading it they will be prepared to go into further technical or specific books from there

The First Revelations of God to Man, Considered in a Series of Sermons, on the First Chapters of Genesis Rev. William

Edward Evans,1849 Church and Home ,1967 *Customs Bulletin and Decisions* ,1997 *Spectrality and Survivance*

Marija Grech,2022-05-16 The notion of the Anthropocene is founded on the premise that traces of human activity on the earth will remain legible in the geological strata for millions of years to come showing evidence of an anthropogenic signature inscribed in the rock by the human species Spectrality and Survivance shows how embedded in this understanding of the Anthropocene is a speculative and specular gesture that transforms the notion of the future into an anthropocentric reflection of the present prohibiting any true engagement with the possibility of a non anthropocentric and post anthropocenic world In this volume Marija Grech develops an alternative conceptual paradigm from which to think the Anthropocene beyond any limited notion of human language human thought human systems of meaning or even a human world Grech considers how the geological trace of the Anthropocene might be said to survive outside of the possibility of any human readership and how the very survival of the human in and beyond the Anthropocene might necessitate such thought

The Congregationalist and Christian World ,1902 *Ready to Return* Britt Beemer,Ken Ham,Jeff Kinley,2015-09-01
Having grown up in church an alarming percentage of people have now traded in the timeless beliefs of Scripture for a more comfortable postmodern faith or secular worldview They have waded so deep into the culture that the current has swept them away with the pluralism of biblical compromise and secular indoctrination Ready to Return explores Why this is happening and more importantly what can be done about it to help bring back a godly generation New persuasive research that clearly reveals shocking details about views on the Church and faith by people in their 20s known as millennials Conclusive evidence we cannot ignore showing a lack of effective biblical apologetics in homes and churches compromise with secular beliefs secular education and failures on the part of previous generations contributes greatly to this dilemma Within these pages is more than just a clinical diagnosis of the Church s current condition and how we got here It s a simple and powerful call to return to the Church s fundamental mission to reach the world If we are to bring back this lost generation we need a proven strategy and willingness to present truth a biblical battle plan and spiritual soldiers **A**
