Religions And The Status Of Women Hc 1990:

The Cambridge Companion to Judaism and Law Christine Hayes, 2017-02-17 The Cambridge Companion to Judaism and Law explores the Jewish conception of law as an essential component of the divine human relationship from biblical to modern times as well as resistance to this conceptualization. It also traces the political, social, intellectual, and cultural circumstances that spawned competing Jewish approaches to its own divine law and the non-divine law of others, including that of the modern secular state of Israel. Part I focuses on the emergence and development of law as an essential element of religious expression in biblical Israel and classical Judaism through the medieval period. Part II considers the ramifications for the law arising from political emancipation and the invention of Judaism as a religion in the modern period. Finally, Part III traces the historical and ideological processes leading to the current configuration of religion and state in modern Israel, analysing specific conflicts between religious law and state law. *Theory of Women in Religions* Catherine

Wessinger, 2020-12-01 An introduction to the study of women in diverse religious cultures. While women have made gains in equality over the past two centuries, equality for women in many religious traditions remains contested throughout the world. In the Roman Catholic Church and the Church of Jesus Christ of Latter-day Saints, women are not ordained as priests. In areas of Pakistan and Afghanistan under Taliban occupation, girls and women students and their teachers risk their lives to go to school. And in Sri Lanka, fully ordained Buddhist nuns are denied the government identity cards that recognize them as citizens. Is it possible to create families, societies, and religions in which women and men are equal? And if so, what are the factors that promote equality? *Theory of Women in Religions* offers an economic model to shed light on the forces that have impacted the respective statuses of women and men from the earliest developmental stages of society through the present day. Catherine Wessinger integrates data and theories from anthropology, archaeology, sociology, history, gender studies, and psychology into a concise history of religions, introduction to the complex relationship between gender and religion. She argues that socio-economic factors that support specific gender roles in conjunction with religious norms and ideals have created a gendered division of labor that both directly and indirectly reinforces gender inequality. Yet she also highlights how as the socio-economic situation is changing, religion is being utilized to support the transition toward women's equality, noting the ways in which many religious representations of gender change over time. **Religious Fundamentalisms and the**

Human Rights of Women C. Howland, 1999-09-03 Dialogue on the conflict between religious fundamentalism and women's rights is often stymied by an all-or-nothing approach. Fundamentalists claim of absolute religious freedom, while some feminists dismiss religion entirely as being so imbued with patriarchy as to be eternally opposed to women's rights. This ignores though the experiences of religious women who suffer under fundamentalism and fight to resist it, perceiving themselves to be at once religious and feminist. In *Religious Fundamentalisms and the Human Rights of Women*, Howland provides a forum for these different scholars, both religious and nonreligious, to meet and seek common ground in their fight.

Religious Law Fareda Banda,Lisa Fishbayn Joffe,2016-02-12 The three Abrahamic faiths have dominated religious conversations for millennia but the relations between state and religion are in a constant state of flux This relationship may be configured in a number of ways Religious norms may be enforced by the state as part of a regime of personal law or conversely religious norms may be formally relegated to the private sphere but can be brought into the legal realm through the private acts of individuals Enhanced recognition of religious tribunals or religious doctrines by civil courts may create a hybrid of these two models One of the major issues in the reconciliation of changing civic ideals with religious tenets is gender equality and this is an ongoing challenge in both domestic and international affairs Examining this conflict within the context of a range of issues including marriage and divorce violence against women and children and women s political participation this collection brings together a discussion of the Abrahamic religions to examine the role of religion in the struggle for women s equality around the world The book encompasses both theory and practical examples of how law can be

used to negotiate between claims for gender equality and the right to religion. It engages with international and regional human rights norms and also national considerations within countries. This book will be of great relevance to scholars and policy makers with an interest in law and religion, gender studies and human rights law. *Judicial Power and National Politics, Second Edition* Patricia J. Woods, 2017-02-21. In *Judicial Power and National Politics, Second Edition* Patricia J. Woods returns to an issue that has only grown in relevance since the first edition's publication in 2008: the religious/secular conflict in Israel. The first edition focused on the role that courts and justices play in deeply charged political battles. In the last quarter of the twentieth century, social groups turned to the judicial arm of the state in an effort to force the state to change its laws and policies on religious personal status law or family law. Through an extensive case study of the interactions of the women's movement with the High Court of Justice, Woods argues that the most important determining factor explaining when and how national courts enter into the world of divisive politics is found in the intellectual or judicial communities with whom justices live, work, and think about the law. The interaction among members of this community over time culminates in new legal norms. This second edition takes into account what has happened in the past decade with public debate over religion and the state moving away from the court and into the realm of popular politics on the Knesset floor, in the media, in shopping malls, and on the streets. Included for the first time is the dataset for the author's national survey of women's movement volunteers.

Muslim Societies and the Challenge of Secularization: An Interdisciplinary Approach

Gabriele Marranci, 2010-09-08. Scholars from various disciplines worked together to present the first interdisciplinary book to address the issue of Islam, secularism, and globalization. The book has a clear structure which represents its interdisciplinary approach: the first section addresses the philosophical and historical discussion about Islam and secularism; the second section discusses the topic from an ethnographical and social anthropological viewpoint; and the final section addresses Islam, secularism, and globalization from a political viewpoint. This unique collection not only offers innovative research and new material; it also provides empirical examples and theoretical debates and could therefore also be used as a textbook for courses on Islam, globalization, anthropology, politics, sociology, and law.

Religion and Women Arvind Sharma, 1994-01-01. This book discusses the position of women in the Native American, African, Shinto, Jain, Zoroastrian, Sikh, and Bahá'í faiths for the first time in a single volume and evolves a conceptual framework within which their positions could be comprehensively considered. The contributing scholars provide an enlarged database for a more thorough discussion of the questions pertaining to women and religion in general and simultaneously advance the theoretical frontiers in women's studies. *Religion and Women* belongs to a trilogy about women and world religions edited by Arvind Sharma, the first and third volumes being respectively *Women in World Religions* and *Today's Woman in World Religions*.
