the relationship between franchises and the cosplayers they inspire and the technology that helps bring the details of costumes to life *Reframing Photography* Rebekah Modrak, Bill Anthes, 2011 In an accessible yet complex way Rebekah Modrak and Bill Anthes explore photographic theory history and technique to bring photographic education up to date with contemporary photographic practice **Re-enchanting Nationalisms** Brad West, 2015-04-13 This book provides original insight into the way we now engage and remember national history Drawing on fieldwork and analysis of international case studies on state commemoration memorialization recreational and tourism and times of disaster and crisis the author demonstrates that not only does the nation frequently retain a strong cultural relevance in our global world but that the emergence of new forms of ritual and remembrance means that in many instances we are seeing the re enchantment of nationalism Drawing upon and developing an empirically informed cultural sociology the author charts the distinctive qualities of these new national rites and how they feed into and advance particular cosmopolitan and orthodox national politics Because social science has so often wrongly assumed the end of nationalism the insights of this of the book about the possibilities and limitations of contemporary nationalism demand serious consideration by academics and also by policy makers and the general public **Bloody Promenade** Stephen Cushman, 1999-10-29 On 5 and 6 May 1864 the Union and Confederate armies met near an unfinished railroad in central Virginia with Lee outmanned and outgunned hoping to force Grant to fight in the woods The name of the battle Wilderness suggests the horror of combat at close quarters and an inability to see the whole field of engagement even from a distance Indeed the battle is remembered for its brutality and ultimate futility for Lee even with 26 000 casualties on both sides the Wilderness only briefly stemmed Grant's advance Stephen Cushman lives fifty miles south of this battlefield A poet and professor of American literature he wrote *Bloody Promenade* to confront the fractured legacy of a battle that haunts him through its very proximity to his everyday life Cushman's personal narrative is not another history of the battle If this book is a history of anything he writes it's the history of verbal and visual images of a single particularly awful moment in the American Civil War Reflecting on that moment can begin in the present with the latest film or reenactment but it leads Cushman back to materials from the past Writing in an informal first person style he traces his own fascination with the conflict to a single book a pictorial history he read as a boy His abiding interest and poetic sensibility yield a fresh perspective on the war's continuing grip on Americans how it pervades our lives through films and songs novels such as *The Red Badge of Courage* *The Killer Angels* and *Cold Mountain* Whitman's poetry and Winslow Homer's painting or the pull of the abstract idea of the triumph of freedom With maps and a brief discussion of the Battle of the Wilderness for those not familiar with the landscape and actors *Bloody Promenade* provides a personal tour of one of the most savage engagements of the Civil War then offers a lively discussion of its aftermath **American Military History** Daniel K. World War II Historical Reenactment in Poland Kamila Baraniecka-Olszewska, 2021-10-21 This book explores the consequences of the latest political shifts in Central Eastern Europe the rise of right wing parties and among other things politics becoming more invested in history These phenomena coincide and overlap with the democratisation of history by turning the past into a hot topic persistently present in the public sphere and often evoking strong emotions Ethnographic research conducted in 2012 2016 focusing on how World War II reenactors experience the past serves as the basis to analyse the ways in which the group uses the widespread often institutionalised interest in history to on the one hand become involved in debates on World War II and the remembrance

thereof and on the other to authentically experience this past The volume therefore analyses how physical the process of creating and experiencing grassroots visions of the past is and how these visions interact with the public discourse about the past Reenactors ability to marry the often contradictory orders of historical truth authenticity and representation is explored Moreover Baraniecka Olszewska analyses how the reenactors overcome various obstacles on their way towards authentic experiences performing history through their bodies
