Relocating Middle Powers Andrew Fenton Cooper, Richard A. Higgott, Kim Richard Nossal, 1993 The fall of the Berlin Wall and the disintegration of the Soviet Union were only two of the many events that profoundly altered the international political system in the late 1980s and early 1990s In a world no longer dominated by Cold War tensions nation states have had to rethink their international roles and focus on economic rather than military concerns This book examines how two middle powers Australia and Canada are grappling with the difficult process of relocating themselves in the rapidly changing international economy The authors argue that the concept of middle power has continuing relevance in contemporary international relations theory and they present a number of case studies to illustrate the changing nature of middle power behaviour

Awkward Powers: Escaping Traditional Great and Middle Power Theory Gabriele Abbondanza, Thomas Stow Wilkins, 2021-10-04 This book introduces the editors new concept of Awkward Powers By undertaking a critical re examination of the state of International Relations theorising on the changing nature of the global power hierarchy it draws attention to a number of countries that fit awkwardly into existing but outdated categories such as great power and middle power It argues that conceptual categories pertaining to the apex of the international hierarchy have become increasingly unsatisfactory and that new approaches focusing on such Awkward Powers can both rectify shortcomings on power theorising whilst shining a much needed theoretical spotlight on significant but understudied states The book s contributors examine a broad range of empirical case studies including both established and

rising powers across a global scale to illustrate our conceptual claims Through such a novel process we argue that a better appreciation of the de facto international power hierarchy in the 21st century can be achieved **Rethinking Middle**

Powers in the Asian Century Tanguy Struye de Swielande,Dorothee Vandamme,David Walton,Thomas Wilkins,2018-09-27

The term middle power is conceptually fragile Some scholars have even argued for abandoning it This book argues that the concept needs to be analysed more profoundly and that new analytical tools need to be developed to better understand the phenomenon The traditional approach based on Western states is insufficient and has become increasingly irrelevant in a transformed global environment Instead of drawing from a single theory of international relations the contributors have chosen to build upon a wide range of theories in a deliberate demonstration of analytic eclecticism A pluralistic approach provides stronger explanations while remaining analytically and intellectually rigorous Many of the theory contributions are reconsidering how the largely Western bases of such theorising need revising in light of the emerging middle powers many of which are in Asia Presenting a strong argument for studying middle powers this book explores both the theory and empirical applications of the concept by rethinking the definition and characteristics of middle powers using a range of case studies It examines changes in the study of middle powers over the last decade proposing to look at the concept of middle powers in a coherent and inclusive manner Finally it aims to further the discussion on the evolution of the international system and provides sound conclusions about the theoretical usefulness and empirical evolution of middle powers today **The**

Middle Powers in Asia Pacific Multilateralism Sarah Teo, 2022-11-25 Drawing on insights from differentiation theory this book examines the participation of middle powers in multilateralism. Taking Australia, Indonesia and South Korea as examples the book examines these countries' roles in regional organizations and particularly during the creation of the Asia Pacific Economic Cooperation (APEC) and East Asia Summit. Through its analysis the book argues that middle powers pursue dilution of major power stratificatory forces as well as functionally differentiated roles for themselves in multilateral diplomacy. The book sets out a valuable new framework to explain and understand the behaviour of middle powers in multilateralism.

Middle Power Statecraft Jonathan H. Ping, 2017-11-30 Jonathan Ping's volume establishes a unifying theory for the concept of middle power. MP (Middle Powers) are states which have an innate form of statecraft and perceived power as a result of their size. The book presents hybridization theory as a basis for analysis, policy development and prediction of MP statecraft and perceived power. A prerequisite to the founding of hybridization theory is the new statistical method of definition which identifies sixteen MPs of Asia and the Pacific. The volume takes a comparative focus on Indonesia and Malaysia to inform and test hybridization theory as well as to provide a historical analysis of Southeast Asia from a statecraft and perceived power perspective. It offers researchers and scholars of international relations and international political economy a theory that can be applied to the practical study of all middle sized states while middle sized states can apply the same theory to enhance their own ability to re create their state.

South Korea's Grand Strategy Ramon Pacheco Pardo, 2023-10-10 Since the end of the Cold War, South Korea has taken on a greater role in global affairs. Possibility and Limit of Liberal Middle Power Policies Kohei Imai, 2017-12-13 This book is a comprehensive analysis of Turkish foreign policy through the concept of middle power. The author explores why and how Turkey has constructed middle power identity based on liberal foreign policies in order to illuminate the change in post Cold War Turkish state identity in relation to foreign policy behaviors. The author further explores state identity and how changes of circumstances norms state self perception and the perceptions of others effects that identity. This is done first through a policy analysis of Turgut Zal Necmettin Erbakan and Ismail Cem and second through an examination of AKP's foreign policy experiences and ideas especially in relation to Ahmet Davutoglu. The Foreign Policy and Intervention Behavior of Africa's Middle Powers

Olumuyiwa Babatunde Amao, 2023-12-21 Based on a meta theoretical approach and insights derived from analytic eclecticism as a comparative instrument Olumuyiwa Babatunde Amao assesses Nigeria and South Africa's foreign policy and intervention behavior in Africa with a special focus on the conflict episodes in Sierra Leone 1991 1998 and the Democratic Republic of Congo DRC 1997 2005. The Foreign Policy and Intervention Behavior of Africa's Middle Powers: An Analytic Eclecticism Approach explores the relative merits of structural realism and social constructivism in explaining Nigeria and South Africa's motives and intervention behavior and why more than one theoretical perspective is required to sufficiently analyze the complexity of their intervention decisions and behavior. It demonstrates the overlapping nexus between conflict intervention structural constraints relative power pursuit and the dynamics of regional complexes. Amao demonstrates how Nigeria and South Africa's relative power positions identities as African actors de colonization and anti apartheid struggles and the existing values and bonds that their contiguous states share play a crucial role in their intervention behavior. Using Sierra Leone and the DRC as case studies this book illustrates the advantage of applying a multi perspective eclectic approach to foreign policy analysis and provides an alternative to the theoretical turf wars that are all too prevalent in the discipline of international relations. **Security Strategies of Middle Powers in the Asia Pacific** Ralf Emmers, Sarah Teo, 2018-02-05

Security Strategies of Middle Powers in the Asia Pacific examines what drives the different regional security strategies of four middle powers in the Asia Pacific: Australia, Indonesia, South Korea and Malaysia. Drawing on the extant middle power literature the authors argue that the regional security strategies of middle powers could take two forms: namely functional or normative. A functional strategy means that the middle power targets its resources to address a specific problem that it has a high level of interest in while a normative strategy refers to a focus on promoting general behavioural standards and confidence building at the multilateral level. This book argues that whether a middle power ultimately employs a more functional or normative regional security strategy depends on its resource availability and strategic environment.
