Remaking The Balkans:

Remaking the Balkans Christopher Cviic, 1995 A comprehensive analysis of the political and security implications for southeastern Europe indeed for the whole of Europe resulting from the collapse of communism This second edition has been significantly revised to include an assessment of the consequences of the disintegration of Yugoslavia and the ensuing war in Bosnia

Making and Remaking the Balkans Robert Clegg Austin, 2019-04-08 With more than 25 years since the collapse of communism the end of the wars and billions of dollars in aid the Balkans are still characterized by corruption state capture and decidedly unmodern states that are often either weak or authoritarian Taking the contemporary Balkans as a starting point Making and Remaking the Balkans studies the region's history combined with observations based on more than twenty years of field experience Primarily concerned with current issues in the Balkans since 1989 this book explains why the region has endured such a prolonged and fraught transition to democracy and eventual membership in the European Union The young and educated have largely left Governmental crisis and economic stagnation is the norm and much needed regional cooperation has been suppressed by renewed nationalism Wars on corruption have proved to be largely rhetorical Making and Remaking the Balkans offers a systematic study of the issues the entire region faces as it struggles to complete the European integration process at a time when the European Union faces bigger problems elsewhere

Local Agency and Peacebuilding S. Kappler, 2014-01-30 Investigating local responses to EU peacebuilding this book develops a relational and spatial concept of agency helping to understand the processes in which peacebuilding actors engage and interact with one another The focus on cultural actors reveals the contested nature of local agency and its potential to challenge institutional policies

Reconstructing the Balkans Derek R. Hall, Darrick Danta, 1996-10-21 The past few years have seen the re emergence of the Balkans as the cockpit of Europe The break up of Yugoslavia the regional conflict between ethnic groups the creation of new states like Slovenia and the transformation of existing ones like Albania have made the area of prime importance in geopolitical terms once again Reconstructing the Balkans looks at the complex and rapidly changing human geography of the Balkans and considers the cultural social and political geographies of the region and its neighbours It provides both an examination of the history of the Balkans emphasising ethnicity and nationality issues and an evaluation of the historical and geographical roots of contemporary Balkan disputes from a range of national viewpoints Written by acknowledged experts in the field the book assesses some of the geographical consequences of the region's conflicts and analyses the post socialist restructuring reconstruction and reconfiguration regionwide and country by country It also gives projections of likely regional development trends This is a unique book as it represents diverse viewpoints from a wide range of ethnic national and disciplinary approaches It draws upon expertise from the USA the UK and everyone concerned with the Balkan regions making it essential reading for analysts and consultants in banks funding agencies and government departments It will also be of interest to advanced students of European Studies Geography International Relations Politics
