Cross-Currents Jean L. Manore, 2006-01-01 Most activities in our lives involve electricity Yet how often do we recall that even the simple act of turning on a light is supported by a long history of debates over group vs individual rights environmental impact political agendas and technological innovations Using the image of cross currents as the organizing metaphor this book details the many and often turbulent interactions and interconnections that occurred among the various people and events during the building of the northeastern Ontario hydroelectric system Special focus is on Native and non Native interests southern business and political elites northern natural resources and the interactions between technology and the environment Manore concentrates on the co operation that existed among the various interest groups during periods of expansion and amalgamation In today s environment of limited energy resources respect for the rights of First Nations and ecological concerns this book is a reminder that co operation rather than conquest is a more realistic approach to development

The Last Wilderness Peter Browning,1989 North of the sixtieth parallel east of Great Slave Lake and west of Hudson Bay is a vast sweep of pure unspoiled land It is the least accessible region in North America a wilderness that has been seen by

few and traversed by fewer still and is inhabited by no one There is only the land carved and molded by the glaciers scoured boulders ridges and low hills of white sand the sparkling waters of myriad lakes In 1964 Peter Browning and John Blunt went by canoe from northern Saskatchewan to the village of Snowdrift on Great Slave Lake They started in early June and traveled 600 miles on lakes and rivers and across agonizing portages through a land devoid of other people They saw no one else for 74 days During their long journey they suffered storms hordes of insects exhausting labor and hunger They were rewarded by being totally independent amidst the beauty and serenity of the last great wilderness in North America Included in this modern odyssey are 59 striking photographs of the virgin lakes and forests and tundra of the Northwest Territories back cover
