Narratives of Nation-Building in Korea Sheila Miyoshi Jager, 2016-07-08 This book offers new insight on how key historical texts and events in Korea's history have contributed to the formation of the nation's collective consciousness The work is woven around the unifying premise that particular narrative texts events that extend back to the premodern period have remained important albeit transformed over the modern period and into the contemporary period The author explores the relationship between gender and nationalism by showing how key narrative topics such as tales of virtuous womanhood have been employed transformed and re deployed to make sense of particular national events Connecting these narratives and historic events to contemporary Korean society Jager reveals how these sites or reference points were also successfully re deployed in the context of the division of Korea and the construction of Korea's modern consciousness

Routledge Handbook of Modern Korean History Michael J Seth, 2016-01-29 Beginning in the mid nineteenth century when Korea became entangled in the world of modern imperialism and the old social economic and political order began to change this handbook brings together cutting edge scholarship on major themes in Korean History Contributions by experts in the field cover the Late Choson and Colonial periods Korea's partition and the diverging paths of North and South Korea Topics covered include The division of Korea Religion Competing imperialisms Economic change War and rebellions Nationalism Gender North Korea Under Kim Jong Il Global Korea The Handbook provides a stimulating introduction to the most important themes within the subject area and is

an invaluable reference work for any student and researcher of Korean History **Voices from the Korean War** Richard Peters, Xiaobing Li, 2014-04-23 In three days the number of so called volunteers reached over three hundred men Very quickly they organized us into military units Just like that I became a North Korean soldier and was on the way to some unknown place from the book South Korean Lee Young Ho was seventeen years old when he was forced to serve in the North Korean People s Army during the first year of the Korean War After a few months he deserted the NKPA and returned to Seoul where he joined the South Korean Marine Corps Ho s experience is only one of the many compelling accounts found in Voices from the Korean War Unique in gathering war stories from veterans from all sides of the Korean War American South Korean North Korean and Chinese this volume creates a vivid and multidimensional portrait of the three year long conflict told by those who experienced the ground war firsthand Richard Peters and Xiaobing Li include a significant introduction that provides a concise history of the Korean conflict as well as a geographical and a political backdrop for the soldiers personal stories *Isolationist States in an Interdependent World* Helga Turku, 2016-05-06 States that withdraw from the international system provide insight into an unexplored area of international relations in terms of rationality self interest power politics cooperation and alliances Indeed isolationism in an interdependent state system goes against the logic of modern society and state systems Using historical comparative and inductive analysis Helga Turku explains why states may choose to isolate themselves both domestically and internationally using comparative historical analysis to flesh out isolationism as a concept and in practice The book examines extreme forms of self imposed domestic and international isolation in an interdependent international system noting the effects on both the immediate interests of a ruling regime and the long term national interests of the state and the populace Sovereignty and Status in East Asian International Relations Seo-Hyun Park, 2017-05-11 This book shows how historical experiences have affected East Asian security debates as reflected in enduring concerns with sovereign autonomy The Armies of East Asia Dennis Van Vranken Hickey, 2001 The end of the 1980s and the beginning of the 1990s have been a time of great change for academic libraries and librarians Rapid developments in technology have revolutionized the libraries means and mission while declining budgets have adversely impacted the ability of librarians to carry out their roles The literature of academic librarianship today reflects these changes and points to the direction in which academic libraries are headed This book is a comprehensive guide to book chapters and articles written on academic librarianship between 1990 and 1993 Entries for nearly 1 700 works are grouped in six topical chapters for ease of use Each entry includes an informative annotation that summarizes the key points made by the authors the major findings of research projects and the names and locations of libraries with innovative programs Extensive author article book journal title and subject indexes conclude the work The volume is a useful tool for locating specific information on various topics and it is a forecast of the future of academic libraries Rethinking the Third World Mark T Berger, Heloise Weber, 2014-09-22 A systematic reassessment by two leading figures in the field of the paradigm of

international development in both theory and practice It offers an overview and critique of development theory and strategy and a new framework for the analysis of global inequality poverty and development in an era of globalization **The**

Korean Presidents Choong Nam Kim,2007 This volume is the only global analysis of each individual Korean President and his Presidency as well as the only current assessment of the success of the institution of the Korean Presidency as a positive role model for emerging nations Dr Choong Nam Kim has written an important and penetrating study of the Korean presidents from Syngman Rhee to Roh Moo Hyun in the context of their eras His analysis of their influence and leadership styles is required reading in the continuing reassessment of their respective roles in the remarkable changes and development of politics and economics in the Republic of Korea This will no doubt be a controversial study in some circles for it provides an alternative approach to some contemporary scholarship but it will contribute both to the rise of sophisticated scholarly concern and popular interest in understanding the various roles of Korean presidents during critical periods in modern Korean history This volume is a highly relevant and singular contribution to the literature on the peregrinations of the Republic since its founding David I Steinberg Director Asian Studies Program School of Foreign Service Georgetown University **Tradition, Treaties, and Trade** Kirk W. Larsen,2020-03-23 Relations between the Chos n and Qing states

are often cited as the prime example of the operation of the traditional Chinese tribute system In contrast this work contends that the motivations tactics and successes and failures of the late Qing Empire in Chos n Korea mirrored those of other nineteenth century imperialists Between 1850 and 1910 the Qing attempted to defend its informal empire in Korea by intervening directly not only to preserve its geopolitical position but also to promote its commercial interests And it utilized the technology of empire treaties international law the telegraph steamships and gunboats Although the transformation of Qing Chos n diplomacy was based on modern imperialism this work argues that it is more accurate to describe the dramatic shift in relations in terms of flexible adaptation by one of the world s major empires in response to new challenges Moreover the new modes of Qing imperialism were a hybrid of East Asian and Western mechanisms and institutions Through these means the Qing Empire played a fundamental role in Korea s integration into regional and global political and economic systems **Narratives of Nation Building in Korea** Sheila Miyoshi Jager,2003 This work offers insights on how historical texts and events in Korea s history have contributed to the formation of the nation s collective consciousness It explores the relationship between gender and nationalism by showing how key narrative topics have been used to make sense of national events **Sacred Mandates** Timothy Brook,Michael van Walt van Praag,Miek Boltjes,2018-05-21 Contemporary discussions

of international relations in Asia tend to be tethered in the present unmoored from the historical contexts that give them meaning Sacred Mandates edited by Timothy Brook Michael van Walt van Praag and Miek Boltjes redresses this oversight by examining the complex history of inter polity relations in Inner and East Asia from the thirteenth century to the twentieth in order to help us understand and develop policies to address challenges in the region today This book argues that

understanding the diversity of past legal orders helps explain the forms of contemporary conflict as well as the conflicting historical narratives that animate tensions. Rather than proceed sequentially by way of dynasties, the editors identify three worlds: Chingssid, Mongol, Tibetan, Buddhist, and Confucian Sinic, that represent different forms of civilization, authority, and legal order. This novel framework enables us to escape the modern tendency to view the international system solely as the interaction of independent states and instead detect the effects of the complicated history at play between and within regions. Contributors from a wide range of disciplines cover a host of topics: the development of international law, sovereignty, state formation, ruler legitimacy, and imperial expansion, as well as the role of spiritual authority on state behavior, the impact of modernization, and the challenges for peace processes. The culmination of five years of collaborative research, *Sacred Mandates* will be the definitive historical guide to international and intrastate relations in Asia of interest to policymakers and scholars alike for years to come.

The Cold War in East Asia Xiaobing Li, 2017-09-13 This textbook provides a survey of East Asia during the Cold War from 1945 to 1991. Focusing on the persistence and flexibility of its culture and tradition when confronted by the West and the US, this book investigates how they intermesh to establish the nations that have entered the modern world. Through the use of newly declassified Communist sources, the narrative helps students form a better understanding of the origins and development of post WWII East Asia. The analysis demonstrates how East Asia's position in the Cold War was not peripheral but in many key senses central. The active role that East Asia played ultimately turned this main Cold War battlefield into a buffer between the United States and the Soviet Union. Covering a range of countries, this textbook explores numerous events which took place in East Asia during the Cold War, including the occupation of Japan, Civil war in China, and the establishment of Taiwan. The Korean War, The Vietnam War, China's Reforming Movement. Moving away from Euro American centric approaches and illuminating the larger themes and patterns in the development of East Asian modernity, *The Cold War in East Asia* is an essential resource for students of Asian History, the Cold War, and World History.

Education, Curriculum and Nation-Building Daniel Tröhler, 2023-04-07 Contributing to interdisciplinary discussions on nationalism, the book explores how educational systems and practices contribute to the phenomena of nationalism and nation building. Using nine comparative case studies from four continents, the book elaborates a theoretical understanding of nationalism from the perspectives of comparative education research. It integrates the theme of nation building and nationalism and its involvement with issues of education. It explores the theoretical scope of concepts such as national identities, national literacies, or doing nation. The book revives the idea that nation should be the starting point of comparative research and contributes to the theoretically reflective integration of nationalism research into education research. This timely book will be highly relevant for researchers, academics, and postgraduate students in the fields of comparative education, international education, education policy, and curriculum studies.

Nagel,2019-09-16 Discussing how to use public policy to improve the quality of life for those at the bottom of the social hierarchy this text makes the case for policy that expands employment and facilitates jobs finances education and economic and cultural integration rewards merit and encourages voting and political participation Political scientists from around the world measure the effect of democratization religion ethnicity race and mass media on internal conflict during the initial post Cold War period in Africa Asia Europe and Latin and North America Some topics include the role of mass communication on Egyptian family planning Russian nationalism and the Guatemalan peace process **North Korea and the Geopolitics of Development** Kevin Gray,Jong-Woon Lee,2021-04-15 Gray and Lee focus on three geopolitical moments that have been crucial to the shaping of the North Korean system colonialism the Cold War and the rise of China to examine how the emergence and subsequent development of the North Korean political economy was fundamentally shaped by broader processes of geopolitical contestation The New Geopolitics of Sport in East Asia William Kelly,J.A. Mangan,2015-09-07 The global geopolitics of sport is being transformed in and by East Asia Sport in recent decades has been avidly embraced by East Asian nations with implications both for their image on the international stage and their domestic national identities The three post war East Asian Olympic Games the glittering Guangzhou Asian Games in 2010 and the march of Asia into the global sport market illustrate the fact that a new global sports order has emerged This collection uniquely discerns the tectonic shift of global power in the geopolitical economic cultural and social dynamics of sport from West to East It also reveals that the global empire of commerce is similarly shifting eastwards The chapters written by leading authorities on East Asia widens the focus advances the knowledge and sharpens the appreciation of both global sport and regional current transformation in the making and in doing so contributes to an understanding of profound changes in global sport This book was originally published as a special issue of The International Journal of the History of Sport
