

The Roots of Japanese Nationalism

- Japanese leaders also realised that the key to Western power stemmed from a **well educated population** that embraced a strong sense of **nationalism**. Japanese culture was therefore modernised and Westernised in **imitation** of the West.
- Between 1868 and 1930, Japan achieved its aims: fighting and winning the **Sino-Japanese War** (1894-95), the **Russo-Japanese War** (1904-05), forming an **alliance with Britain** in 1902, and joining the **Allies in WW1**.

Nation And Nationalism In Japan

Robert Hoppens

Nation And Nationalism In Japan:

Nation and Nationalism in Japan Sandra Wilson, 2013-04-15 Nationalism was one of the most important forces in 20th century Japan. It pervaded almost all aspects of Japanese life but was a complex phenomenon frequently changing and often meaning different things to different people. This book brings together interesting original new work by a range of international leading scholars who consider Japanese nationalism in a wide variety of its aspects. Overall the book provides many new insights and much new thinking on what continues to be a crucially important factor shaping current developments in Japan.

A History of Nationalism in Modern Japan Kevin Doak, 2007 This magisterial history of Japanese nationalism reveals nationalism to be a contested and pluralistic practice that seeks to center the people in political life. It presents a wealth of primary source material on how Japanese themselves have understood their national identity.

Nationalisms in Japan Naoko Shimazu, 2006-09-27 Nationalisms in Japan brings together leading specialists in the field to discuss how notions of nationalism in modern Japan impinge on all aspects of social, political and cultural understanding of the Japanese nation or the Japanese state. This book is clearly presented and jargon free and encompasses a chronological period of roughly two hundred years beginning with a discussion of some of the early Japanese national thinkers of the Meiji School and ending with a contemporary discussion of the official visits made by Prime Minister Koizumi Junichiro to the highly controversial Yasukuni Shrine. This wide chronological period allows for important observations about the evolution of nationalism, suggesting that Japan actually houses multiple nationalisms. Presenting new insights and understanding, this is a valuable addition to those working on modern Japan and nationalism.

Nationalism and Internationalism in Imperial Japan Dick Stegawerns, 2005-07-27 Throughout the history of modern Japan there has been a continuous struggle to create an integrated conception of how a politically and/or culturally autonomous Japan might relate to a pluralistic and interactive world. The aim of this study is to scrutinise nationalist and internationalist rhetoric by means of comparatively constant factors such as personal views of humanity, civilisation, progress, the nation and the outside world and thus to develop new approaches towards the question of the relationship between Japanese nationalism and internationalism. This project brings together a group of comparatively young scholars who analyse how different generations of opinion leaders in the Japanese pre-war modern era tried to solve what they perceived as the dilemma of nationalism and internationalism.

Japan's National Identity and Foreign Policy Alexander Bukh, 2010-10-18 This book is the first attempt to examine Japan's relations with Russia from the perspective of national identity, providing a new interpretation of Japan's perceptions of Russia and foreign policy. Alexander Bukh focuses on the construction of the Japanese self using Russia as the other, examining the history of bilateral relations and comparisons between the Russian and Japanese national character. The first part of the book examines the formation of modern Japan's perceptions of Russia, focusing mainly on the Cold War years. The second part of the book examines how this identity construction has been reflected in Japan's economic security and territorial dispute.

related policy towards post Soviet Russia Providing not only a case study of the Japan Russia relationship but also engaging in a critical examination of existing International Relations frameworks for conceptualizing the relationship between national identity and foreign policy the appeal of the book will not be limited to those interested in Japanese Russian politics but will also be of interest to the broader body of students of International Relations

The SAGE Handbook of Nations and Nationalism Gerard Delanty, Krishan Kumar, 2006-06-29 The SAGE Handbook of Nations and Nationalism gives readers a critical survey of the latest theories and debates Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe

Cultural Nationalism in Contemporary Japan Kosaku Yoshino, 2005-10-18 Japanese author's view of Japanese view of own society Controversial thesis that businessmen use myths of Japanese uniqueness commercially Sold over 900 in hb

Nationalisms of Japan Brian J. McVeigh, 2004-10-26 In this fresh and original analysis Brian J McVeigh confronts both the demonizers and apologists of Japan He argues persuasively that far from being unique Japanese nationalism becomes demystified once management and mysticism the same processes and practices that operate in other national states are taken into account Stripping away Orientalist inspired misconceptions the author stresses the variety and relative intensity of nationalisms ranging from economic ethnic and educational to cultural gendered and religious He moves beyond state centered ideologies to explore the linkages between official and popular nationalisms and the complex interplay of ethnocultural ethnopolitical and ethnoracial forms of identity The ambiguity and everydayness of nationalism McVeigh contends explain its enduring power He concludes that modern Japan is imbued with a deeply rooted legacy of renovationism or reform nationalism that accounts for its streamlined state structures guarded economic nationalism and highly scrutinized relationship with the rest of the world Highlighting the pluralism of identity among Japanese this book will be an invaluable corrective to recent works that glibly proclaim the emergence of globalization internationalization and convergence

Nations and Nationalism Guntram H. Herb, David H. Kaplan, 2008-05-22 Nations and Nationalism helps students researchers and other interested readers explore national identities and nationalistic movements in historical context Organized chronologically its four volumes combine thematic essays on different characteristics of nationalism with case studies of key historical developments involving specific nations at specific times The encyclopedia focuses on Europe Latin America Africa and Asia with featured coverage of nationalist cultural creations including literature music symbols and mythologies

Rethinking Identity in Modern Japan Yumiko Iida, 2013-03-07 This volume is a major reconsideration of Japanese late modernity and national hegemony which examines the creative and academic works of a number of influential Japanese thinkers The author situates the process of Japanese knowledge production in the interface between the immediate historical and the wider socio economic and politico cultural contexts accompanying the Japanese post war experience of modernity This book will be of great value to anyone interested in the history of contemporary Japanese culture and society

Farm and Nation in Modern Japan Thomas R.H. Havens, 2015-03-08 A study of agrarian thought in prewar Japan this book concentrates on the developing fissure between official and rural conceptions of nationalism in the late nineteenth and early twentieth centuries Professor Havens analyzes the response of Japanese farmers and their spokesmen to the pursuit of modernization during the Meiji and Taisho periods Through a critical examination of writings and speeches of major farm ideologues including Gond Seiky Tachibana K zabur and Kat Kanji the author examines the ways in which agrarianist theories shaped modern Japanese nationalism and the extent to which rural ideologies triggered political violence in the turbulent 1930s He then focuses on the romantic rural communalism of the 1920s and 1930s as an example of antigovernment nationalism designed to rescue the Japanese people at large from bureaucracy capitalism and urbanization Based on extensive research in modern Japanese ideological political and economic materials the study offers new insight into the early twentieth century revolution in nationality sentiments and provides fresh grounds for doubting the state's monopoly on public loyalties during the years immediately preceding Pearl Harbor Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Nationalism and Power Politics in Japan's Relations with China Yew Meng Lai, 2013-08-22 Despite flourishing economic interactions and deepening interdependence the current political and diplomatic relationship between Japan and China remains lukewarm at best Indeed bilateral relations reached an unprecedented nadir during the spring of 2005 and again more recently in autumn 2012 as massive anti Japanese demonstrations across Chinese cities elicited corresponding incidents of popular anti Chinese reprisal in Japan This book systematically explores the complex dynamics that shape contemporary Japanese Chinese relations In particular it analyses the so called revival of nationalism in post Cold War Japan its causality in redefining Japan's external policy orientations and its impact on the atmosphere of the bilateral relationship Further by adopting a neoclassical realist model of state behaviour and preferences Lai Yew Meng examines two highly visible bilateral case studies the Japanese Chinese debacle over prime ministerial visits to Yasukuni Shrine and the multi dimensional dispute in the East China Sea which comprises the Senkaku Diaoyudao territorial row alleged Chinese maritime incursions and bilateral competition for energy resources Through these examples this book explores whether nationalism really matters when and under what circumstances nationalism becomes most salient and the extent to which the emotional dimensions of nationalism manifest most profoundly in Japanese state elites policy decision making This timely book will be of great interest to students and scholars of both Japanese and Chinese politics as well as those interested in international relations nationalism foreign policy and security studies more broadly

Nationalism in Japan Delmer Myers Brown,1955

Religion and National Identity in the Japanese Context

Hiroshi Kubota,Klaus J. Antoni,Johann Nawrocki,Michael Wachutka,2002 This book focuses upon the relationship between religion and socio cultural or socio political aspects in the history of religions in Japan Religious and ideological justifications in the course of forming a political and national identity and the mutual relation between political national and cultural issues can be noticed in every region of the world before the onset of secularization processes but also in modern nation states today In Japan as well just like in most modern societies political cultural and religious elements are closely interrelated In a comparative approach the sixteen papers in this volume elucidate the intellectual undercurrent in Japanese history of putting positive perspectives on national achievements and cultural religious uniqueness into service of establishing and refurbishing a national identity

Gender, Nation and State in Modern Japan Andrea Germer,Vera Mackie,Ulrike Wöhr,2014-07-25

Gender Nation and State in Modern Japan makes a unique contribution to the international literature on the formation of modern nation states in its focus on the gendering of the modern Japanese nation state from the late nineteenth century to the present References to gender relations are deeply embedded in the historical concepts of nation and nationalism and in the related symbols metaphors and arguments Moreover the development of the binary opposition between masculinity and femininity and the development of the modern nation state are processes which occurred simultaneously They were the product of a shift from a stratified hereditary class society to a functionally differentiated social body This volume includes the work of an international group of scholars from Japan the United States Australia and Germany which in many cases appears in English for the first time It provides an interdisciplinary perspective on the formation of the modern Japanese nation state including comparative perspectives from research on the formation of the modern nation state in Europe thus bringing research on Japan into a transnational dialogue This volume will be of interest in the fields of modern Japanese history gender studies political science and comparative studies of nationalism

The China Problem in Postwar Japan

Robert Hoppens,2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People s Republic of China PRC The two countries established diplomatic relations for the first time forged close economic ties and reached political agreements that still guide and constrain relations today This book delivers a history of this foundational period in Sino Japanese relations It presents an up to date diplomatic history of the relationship but also goes beyond this to argue that Japan s relations with China must be understood in the context of a larger China problem that was inseparable from a domestic contest to define Japanese national identity The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino Japanese relations showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity not its weakness

Shōwa Japan: 1926-1941 Stephen S. Large,1998

Academic Nations in China and Japan Margaret

Sleeboom,2004-08-02 The descriptions Chinese and Japanese people attribute to themselves and to each other differ vastly

and stand in stark contrast to Western perceptions that usually identify a similar disposition between the two nations Academic Nationals in China and Japan explores human categories how academics classify themselves and how they divide the world into groups of people Margaret Sleeboom carefully analyses the role the nation state plays in Chinese and Japanese academic theory demonstrating how nation centric blinkers often force academics to define social cultural and economic issues as unique to a certain regional grouping The book shows how this in turn contributes to the consolidating of national identity while identifying the complex and unintended effects of historical processes and the role played by other local personal and universal identities which are usually discarded While this book primarily reveals how academic nations are conceptualized through views of nature culture and science the author simultaneously identifies comparable problems concerning the relation between social science research and the development of the nation state This book will appeal not only to Asianists but also to those with research interests in Cultural Studies and Sinology

Race, Ethnicity and Migration in Modern Japan: Race, ethnicity and culture in modern Japan Michael Weiner, 2004

Japanese Hermeneutics Michael F. Marra, 2002-02-28 Japanese Hermeneutics provides a forum for the most current international debates on the role played by interpretative models in the articulation of cultural discourses on Japan It presents the thinking of esteemed Western philosophers aestheticians and art and literary historians and introduces to English reading audiences some of Japan's most distinguished scholars whose work has received limited or no exposure in the United States In the first part Hermeneutics and Japan contributors examine the difficulties inherent in articulating otherness without falling into the trap of essentialization and while relying on Western epistemology for explanation and interpretation In the second part Japan's Aesthetic Hermeneutics they explore the role of aesthetics in shaping discourses on art and nature in Japan The essays in the final section of the book Japan's Literary Hermeneutics rethink the notion of Japanese literature in light of recent findings on the ideological implications of canon formations and transformations within Japan's prominent literary circles Contributors Amagasaki Akira Haga Toru Hamashita Masahiro Inaga Shigemi Kambayashi Tsunemichi Thomas LaMarre John C Maraldo Michael F Marra Mark Meli Ohashi Ryosuke Otabe Tanehisa Graham Parkes J Thomas Rimer Sasaki Ken ichi Haruo Shirane Suzuki Sadami Stefan Tanaka Gianni Vattimo

As recognized, adventure as capably as experience roughly lesson, amusement, as with ease as bargain can be gotten by just checking out a books **Nation And Nationalism In Japan** then it is not directly done, you could tolerate even more almost this life, nearly the world.

We meet the expense of you this proper as competently as easy habit to acquire those all.
