Hutchison, Svend E. Hougaard Jensen, 1999-10-07. A survey of fiscal policy under the restrictions of a single monetary policy and the Stability Pact. The New Geo-governance Gilles Paquet, 2005. Over the last few decades the Westphalian nation state has lost its hegemonic position in the system of geo governance. A dispersive revolution has led to the emergence of powerful newly networked business organizations, new subsidiary focused governments and increasingly virtual, elective and malleable communities. This in turn has led to the crystallization of distributed governance regimes based on a wider variety of more fluid and always evolving groups of stakeholders. In *The New Geo Governance* Gilles Paquet develops a general conceptual framework to deal with the new evolving reality of global governance. He uses this framework to critically examine the evolving territorial governance, hemispheric governance, meso innovation systems, smart city regions and tackles the more complex governance challenges raised by sustainability and common property resources like oceans. Paquet further explores the implications of this emerging polycentric geo governance on the new forms of stewardship and its impact on citizenship, federalism and other technologies of coordination and reflects on the sort of subversive bricolage required if the missing mechanisms for effective coordination are to be put in place. *The New Geo Governance* will be of great interest to students and scholars interested in governance, organizational design, international affairs and political studies.

They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism. *The Case for Decentralized Federalism* brings together experts who believe decentralized federalism is the optimal arrangement for governing the contextual diversity and cultural pluralism in Canada. Using different approaches they argue that by dividing the work of public governance among different levels of government it is easier to address the needs and aspirations of the diverse groups that make up Canada. The Case for Centralized Federalism Gordon DiGiacomo, Maryantonett Flumian, 2010-08-21. *The Case for Centralized Federalism* and its sister volume *The Case for Decentralized Federalism* are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada.
