Everyday Belonging in the Post-Soviet Borderlands Alina Jašina-Schäfer, 2021-04-28 *Everyday Belonging in the Post Soviet Borderlands* examines the Russophone communities in peripheral cities adjacent to the Russian borders in Estonia and Kazakhstan The research adopts a cross disciplinary space sensitive approach that focuses comparatively on individual memories narratives and performances Based on ethnographic examples this book reconstructs belonging as a complex dialectical relationship between inclusion and exclusion This relationship it is argued manifests itself through a continuous spiral of boundary construction appropriation and transgression among different versions of Estonianness and Kazakhness Europeanness and Cosmopolitanness as well as Russianness **Culture and Power at the Edges of the State** Thomas M. Wilson, Hastings Donnan, 2005 State borders are somewhere the state is keen to stress its presence and yet are simultaneously places where that presence is challenged They are sites of resistance to the state and at the same time places where the national interest is vigorously maintained This constant ambiguity generates questions about the dynamics of borderland state relations and about how what happens along the border can undermine state policies Using case studies of nation and state relations in borderlands in Europe this book seeks to understand how structures of power are created experienced changed and reproduced New Nation-States and National Minorities Julien Danero Iglesias, Nenad Stojanović, Sharon Weinblum, 2013-03-01 The twentieth century saw the emergence of new states shaped on the classic nation state model How has this model been moulded and implemented What have been the implications for minorities in these new nation states And how have minorities responded to nationalising processes Following a discussion by Rogers Brubaker of his concept of nationalising state contributions to this volume examine the dynamic relations between national minorities and nation states established in the course of the last century including Ukraine Moldova Turkey Malaysia and Israel This book's original theoretical framework and comparative approach offer a new understanding of the complex interactions between the formulation of a state identity and the aspirations of those who do not fit in the proclaimed core nation In light of recent developments in notably Ukraine and Israel this book is essential reading for all those interested in the rights and protection of national minorities and more broadly in the debates over the definition of the polity in a tense environment **Border Encounters** Jutta Lauth Bacas, William Kavanagh, 2013-10-01 Among the tremendous changes affecting Europe in recent decades those concerning political frontiers have been some of the most significant International borders are being opened in some regions while being redefined or reinforced in others The social relationships of those

living in these borderland regions are also changing fundamentally This volume investigates from a local ground up perspective what is happening at some of these border encounters face to face interactions and relations of compliance and confrontation where people are bargaining exchanging goods and information and maneuvering beyond state boundaries Anthropological case studies from a number of European borderlands shed light on the questions of how and to what extent the border context influences the changing interactions and social relationships between people at a political frontier

Defining the Nation? Katharina Nötzold,2009-09-10 Katharina N tzold explores whether and how mass media can contribute to nation building after civil war Drawing on the example of Lebanon s audiovisual media organisations which are mostly privately owned by politicians she demonstrates how political elites use television to transmit their visions of post war society Lebanon s nation building process from 1990 to 2005 was characterized by Syrian dominance over political life From an extensive content analysis of Lebanese news and interviews with analysts journalists and managers from all Lebanese TV stations it emerges that political information on television focused more on divisive

experiences than cohesive ones This has underpinned continued sectarianism in Lebanon in the media as in society at large and has impeded nationbuilding

Ukraine's Many Faces Olena Palko, Manuel Férez Gil, 2023-08-22 Russia's large scale invasion on the 24th of February 2022 once again made Ukraine the focus of world media Behind those headlines remain the complex developments in Ukraine's history national identity culture and society Addressing readers from diverse backgrounds this volume approaches the history of Ukraine and its people through primary sources from the early modern period to the present Each document is followed by an essay written by an expert on the period and a conversational piece touching on the ongoing Russian aggression against Ukraine In this ground breaking collection Ukraine's history is sensitively accounted for by scholars inviting the readers to revisit the country's history and culture With a foreword by Olesya Khromeychuk

Stateness and Democratic Consolidation Filip Milačić, 2022-07-18 This book argues that the unresolved stateness in the republics of the former Yugoslavia played a key role in determining the course and dynamics of their turbulent democratic transition To support this claim the authors develop a series of causal mechanisms Subsequently they analyze to what extent these causal mechanisms could be applied to other cases like the one of Ukraine's democratization The book presents a theoretical framework as well as conclusions and arguments that are instrumental for the better understanding of the democratization process in general which could be useful for other countries to avoid the mistakes that were made in the cases of former Yugoslav republics It therefore is a must read for researchers and scholars of political science as well as practitioners and policy makers interested in a better understanding of democratization transformation processes nation building and stateness

The SAGE Handbook of Nations and Nationalism Gerard Delanty, Krishan Kumar, 2006-06-14 With its list of distinguished contributors and its wide range of topics the handbook is surely destined to become an invaluable resource for all serious students of nationalism Michael Billig Professor of Social Sciences at Loughborough University and author of *Banal Nationalism* SAGE 1995 The persistence some would say revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise In response interest in the analysis of nationalism has increased and given rise to a great variety of new angles under which to study the phenomenon What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topics included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of

Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology

Ethnic Diversity and the Nation State David Smith, John Hiden, 2012-05-23 This book explores a largely forgotten legacy of multicultural political thought and practice from within Eastern Europe and examines its relevance to post Cold War debates on state and nationhood Featuring a Preface by former UK Home Secretary Charles Clarke it weaves theory and practice to challenge established understandings of the nation state Eastern Europe is still too often viewed through the prism of ethnic conflict which overlooks the region's positive contribution to modern debates on the political management of ethno cultural diversity and towards the construction of a united Europe beyond the nation state Based on extensive archival research in Estonia Latvia Germany Russia as well as the League of Nations Archive in Geneva this book explores this neglected multicultural legacy and assesses its significance in the post Cold War era which has seen the reappearance of national cultural autonomy laws in several states of Eastern Europe Ethnic Diversity and the Nation State is invaluable reading for students and scholars of political science history sociology and European studies and also for policy makers and others interested in minority rights and ethnic conflict regulation

Remote Homeland, Recovered Borderland Shao Dan, 2011-08-31 Remote Homeland Recovered Borderland addresses a long ignored issue in the existing studies of community construction How does the past failure of an ethnic people to maintain sovereignty over their homeland influence their contemporary reconfigurations of ethnic and national identities To answer this question Shao Dan focuses on the Manzhous the second largest non Han group in contemporary China whose cultural and historical ancestors the Manchus ruled China from 1644 to 1912 Based on deep and rigorous empirical research Shao analyzes the major forces responsible for the transformation of Manchu identity from the ruling group of the Qing empire to the minority of minorities in China today the de territorialization and provincialization of Manchuria in the late Qing the remaking of national borders and ethnic boundaries during the Sino Japanese contestation over Manchuria and the power of the state to re categorize borderland populations and ascribe ethnic identity in post Qing republican states Within the first half of the twentieth century four regimes the Qing empire under the Manchu royal clan the Republic of

China under the Nationalist Party Manchukuo under the Japanese Kanto Army and the People's Republic of China under the Communist Party each grouped the Manchus into different ethnic and national categories while repositioning Manchuria itself on their political maps in accordance with their differing definitions of statehood. During periods of state succession, Manchuria was transformed from the Manchu homeland in the Qing dynasty to an East Asian borderland in the early twentieth century before becoming China's territory recovered from the Japanese empire. As the transformation of territoriality took place, the hard boundaries of the Manchu community were reconfigured, its ways of self-identification reformed, and the space for its identity representations redefined. Taking the borderland approach, *Remote Homeland* goes beyond the single country focus and looks instead at regional and cross-border perspectives. It is a study of China but one that transcends traditional historiographies. As such, it will be of interest to scholars of modern China, Japanese empire, and Northeast Asian history, as well as to those engaged in the study of borderlands, ethnic identity, nationalism, and imperialism.

Diasporas and Transportation of Homeland Conflicts Élise Féron, Bahar Baser, 2024-05-07. This book explores the transformation and reinvention of conflict generated by diaspora groups in countries of residence. Numerous narratives link diasporas and conflicts; diasporas are seen alternatively as peace wreckers or peace makers, as products of forced migration related to conflicts, or as targets of securitization policies. Transported conflicts occurring within and between diasporas in their countries of residence, however, remain relatively underexplored, tend to be misunderstood, and are often associated with criminal or terrorist activities. The chapters in this volume draw our attention to various interconnected temporalities explaining patterns of conflict transportation, such as the temporalities of diasporic mobilisation, the here and now of what is happening in both host and home countries, and micro temporalities and diasporans' life trajectories. Finally, the contributions demonstrate that patterns, shapes, and even occurrence of conflict transportation vary according to scale and space. Highly politicized forms of confrontation are not necessarily representative of everyday interactions between diaspora groups, which can entail discrete but tangible forms of cooperation and even solidarity. This edited volume calls for nuancing our approach to the links between diasporas and conflicts to avoid falling into the essentialisation trap. The chapters in this book were originally published in *Ethnopolitics*.

Politics And Society In Ukraine Paul D'anieri, 2018-02-23. With NATO expanding into central Europe, Ukraine has become a pivotal state for the future of European stability, yet it is a country about which little is known in the West. *Politics and Society in Ukraine* fills that gap, providing the first comprehensive and detailed study of the contemporary Ukrainian political system. Beginning with a discussion of the legacy of the Soviet Union, the authors illuminate Ukraine's regional and ethnic tensions, governmental system, efforts at reform, and foreign policy. They consider all of those issues from a comparative perspective that readers unfamiliar with Ukraine will find illuminating. The authors are three of the leading authorities on Ukrainian politics, and each has extensive experience in the country. This book provides much needed analysis of a crucial country. With the expansion of NATO, Ukraine is frequently described as the

linchpin of security in Central Europe And after Russia it is the largest and most important of the post Soviet states Yet it is a country about which most westerners know very little subsumed as it was for decades beneath the Russian Empire and the Soviet Union Ukrainian Politics and Society is the first comprehensive study of politics in post Soviet Ukraine and is therefore vital reading for anyone concerned with European security or with politics in the former Soviet Union The authors extensive experience in Ukraine allows them to explain the paradoxes of Ukrainian politics that have led to so many false predictions concerning the future of the Ukrainian state Their examination of nationality politics shows why ethnic and regional differences have tended to recede rather than to spin out of control as they have elsewhere in the region At the same time these differences hamstringing the countrys political system and the authors show how difficult a task it is for democratic institutions to provide effective government in a country with little consensus By viewing economic reform in its profoundly political context the authors expose the chasm between the theory and practice of economic reform Understanding of how to make profits has not been lacking but government regulation to ensure that profit seeking behavior leads to functioning markets has been conspicuously absent By examining in detail how Ukrainian politics has followed theoretical expectations and where it has contradicted them the authors arrive at conclusions with implications well beyond Ukraine Ukraine must first build a state and a nation before it can successfully reform its economy or build a genuine democracy For Ukraine and its people the task is daunting For the west whose security increasingly relies on stability in Ukraine this book provides the knowledge necessary to approach the problem as well as good reason not to ignore it

Ethnicity, Nationalism and Conflict in the South Caucasus Ohannes Geukjian, 2016-05-13 This book examines the underlying factors of the Nagorno Karabakh conflict in the South Caucasus from 1905 to 1994 and explores the ways in which issues of ethnicity and nationalism contributed to that conflict The author examines the historiography and politics of the conflict and the historical territorial and ethnic dimensions which contributed to the dynamics of the war The impact of Soviet policies and structures are also included pinpointing how they contributed to the development of nationalism and the maintenance of national identities The book firstly explores the historical development of the Armenian and Azerbaijani national identities and the overlapping claims to the territory of Nagorno Karabakh The author goes on to assess the historical link between ethnicity and territorial location as sources of ethnic identification and conflict He examines how identity differences shaped the relationsa between Armenians and Azerbaijanis during the different phases of conflict and presents a detailed historical account of Soviet nationalities policy and ethno territorial federalism the basis of which ethnic relations were conducted between governing and minority nations in the south Caucasus This invaluable book offers students and scholars of post Soviet politics and society a unique insight into the causes and consequences of this long standing conflict

The Soviet Union Tania Raffass, 2012 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book

questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

Religious Identity and Social Change David Radford, 2015-06-19 Religious Identity and Social Change offers a macro and micro analysis of the dynamics of rapid social and religious change occurring within the Muslim world Drawing on rich ethnographic and quantitative research in Kyrgyzstan Central Asia David Radford provides theoretical insight into the nature of religious and social change and ethnic identity transformation exploring significant questions concerning why people convert and what happens when they do so A crisis of identity occurs when religious conversion takes place especially from one major religious tradition Islam to another Christianity and where religious identity is intimately connected to ethnic and national identity Radford argues for the importance of recognising the socially constructed nature of identity involving the dynamic interplay between human agency culture and social networks Kyrgyz Christians have been active agents in bringing religious and identity transformation building upon the contextual parameters in which they are situated
