[The Oxford Handbook of Science Fiction](#) Rob Latham,2014-09-01 The excitement of possible futures found in science fiction has long fired the human

imagination but the genre's acceptance by academe is relatively recent. No longer marginalized and fighting for respectability, science-fictional works are now studied alongside more traditional art forms. Tracing the capacious genre's birth, evolution, and impact across nations, time periods, subgenres, and media, *The Oxford Handbook of Science Fiction* offers an in-depth, comprehensive assessment of this robust area of scholarly inquiry and considers the future directions that will dictate the terms of the scholarly discourse. The Handbook begins with a focus on questions of genre, covering topics such as critical history, keywords, narrative, the fantastic, and fandom. A subsequent section on media engages with film, television, comics, architecture, music, video games, and more. The genre's role in the convergence of art and everyday life animates a third section which addresses topics such as UFOs.

Collateral Values Todd R. Lookingbill, Peter D. Smallwood, 2019-07-30 This book explores the unanticipated benefits that may arise after wars and conflicts, showing how the preservation of battlefields and the establishment of borderlands can create natural capital in the former landscapes of war. The editors call this Collateral Value, in contrast to the collateral damage that war inflicts upon infrastructure, natural capital, and human capital. The book includes case studies recounting successes and failures, opportunities and risks, and ambitious proposals. The book is organized in two sections. The first visits U.S. English and French battlefield sites dating from medieval England to World War I. The second explores borderlands located on several continents established to end or prevent conflict. Both of these can create value beyond their original purpose by preserving natural areas and restoring biodiversity. Among the topics covered are Registering English Battlefields, Old forts and new amenities in the Southern Plains of the U.S., Verdun, France, and the conservation of WWI cultural and natural heritage. Conservation lessons learned in the Cordillera del Condor Corridor of the Andes mountains, Korea's DMZ and its nature preserve, Wakhan National Park, a mountainous buffer area between Afghanistan and Pakistan. The book examines state-of-the-art applications of landscape ecology, including methods for change detection, connectivity analysis, and the quantification of ecosystem services. Also included is a chapter on a creative proposal for Guantanamo 2.0 which would transform the Gitmo detention facility into a peace park and ecological research center. A concluding chapter appraises the past, present, and future of Collateral Values. *Collateral Values: The Natural Capital Created by Landscapes of War* benefits a broad audience of advanced undergraduate and graduate students, researchers, and practicing professionals.

Lancelot 'Capability' Brown, 1716-1783 Jane Brown, 2011-03-03 Lancelot Brown changed the face of eighteenth-century England, designing country estates and mansions, moving hills, and making flowing lakes and serpentine rivers, a magical world of green. This English landscape style spread across Europe and the world. At home, it proved so pleasing that Brown's influence spread into the lowland landscape at large and into landscape painting. He stands behind our vision and fantasy of rural England. In this vivid, lively biography based on detailed research, Jane Brown paints an unforgettable picture of the man, his work, his happy domestic life, and his crowded world. She follows the life of the jovial yet elusive Mr. Brown from his childhood and apprenticeship in rural Northumberland through his formative years at Stowe, the

most famous garden of the day His innovative ideas and his affable and generous nature led to a meteoric rise to a Royal Appointment in 1764 and his clients and friends ranged from statesmen like the elder Pitt to artists and actors like David Garrick Riding constantly across England Brown never ceased working until he collapsed and died in February 1783 after visiting one of his oldest clients He was a practical man but also a visionary always willing to try something new As this beautifully illustrated biography shows Brown filled England with enchantment follies cascades lakes bridges ornaments monuments meadows and woods creating views that still delight us today

Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public Margaret Ponsonby, 2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the National Trust preserve their contents rather than restore them to a particular period The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated Although the reason for this preservation and lack of fashionable renewable can be attributed to declining economic fortunes in the twentieth century there are many examples of families practising this method of homemaking over a much longer period Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role of historic textiles Firstly it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle secondly the role of the National Trust as both guardian and interpreter of these houses and their collections and finally and most importantly the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past The importance of preserved textiles in establishing the visual character of historic houses is a neglected area and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries letters and household accounts the study takes a broad approach that will be of interest to all those with an interest in material culture heritage collecting studies and cultural history
