### **National Civic Review No 3 Fall 2003:**

*National Civic Review, No. 3, Fall 2003* Michael R. McGrath, 2003-11-05      **Civic Education in the Twenty-First Century** Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters      Engaging Strangers Daniel J. Monti Jr., 2013 Partisans on both the left and right wings of America s theory class and political spectrum believe we re in trouble big trouble The economy is limping along Inequality has reached unprecedented levels And we seem to be on the verge of being overwhelmed by immigrants who don t look and act anything like our grandparents did much less the men and women who founded our country Angry scared disengaged and distrustful when we aren t openly antagonistic toward each other Americans can t figure out who we are as a people and openly fret about our best days being behind us To make matters worse our political system the one place we re supposed to be able to work on behalf of a broader public good with people who aren t like us appears even more broken than these other parts of our culture There s some unexpected good news however and it s coming from one of the last places in America you d expect different people to be getting along Boston Bostonians well known for their unwelcoming and sometimes violent

treatment of newcomers and unwillingness to find common ground with people deemed outsiders aren't acting broken or taking their resentments out on each other these days They've turned instead to calmer ways of talking about each other and treating each other in public Far from being disconnected and afraid people in Boston are better connected and more respectful of each other and their city is better organized and more orderly than at any time in its long and storied history Bostonians have learned to get along with the strangers among them in ways their ancestors never knew or expected the rest of us would be willing to entertain much less master They have their civic act together *Engaging Strangers* explores how the people of Boston have learned to practice a more congenial and respectful set of civic virtues In this book the author provides a model for civic conduct for the rest of America to study and follow **Speak Softly and Carry a Big Stick** J. H.

Snider, 2005 Broadcasters have always been coddled by politicians and *Speak Softly* explains how and why J. H. Snider tells the story with the rigor of a scholar the doggedness of an investigative reporter and the zeal of a reformer Paul Taylor Executive Vice President Pew Research Center J. H. Snider offers an extremely comprehensive and well documented look behind the curtain at how the National Association of Broadcasters drives its national legislative agenda This is must reading for not only political scientists but for all who are interested in media policy and how it gets made in Washington Chellie Pingree President and CEO Common Cause This astute book is a first rate work of original scholarship It also provides an unsettling description of broadcasters policy influence When their own interests are involved broadcasters cannot be trusted to act in the way they demand of all others in society Readers will no doubt question whether J. H. Snider's recommended solution is a practical one But no reader will question his call for new measures Thomas E. Patterson Bradlee Professor of Government and the Press Harvard University Having played a role in the mad cap drama of telecommunications legislation Snider documents I can tell you he has captured the essence of the machinations strange bedfellows and almost single minded righteous self interest that drives the telecommunications debate Like it or not this is how the power game is really played Stephen R. Effros Former President 1976-1999 Cable Telecommunications Association *Speak Softly* documents the broadcast industry's striking influence on public policy including the landmark Telecommunications Act of 1996 As Congress gears up to re-write the Act J. H. Snider's analysis is particularly timely Kevin Werbach Professor The Wharton School University of Pennsylvania **National Civic Review, Volume 92, No. 3, Fall 2003** NCR., 2003 *Contemporary American Federalism* Joseph F. Zimmerman, 2009-07-01 Traces the development of the American federal system of government focusing principally on the shifting balance of powers between the national government and the states

**Uniting America** Norton Garfinkle, Daniel Yankelovich, 2008-10-01 In *Uniting America* some of the country's most prominent social thinkers among them Francis Fukuyama Daniel Yankelovich Amitai Etzioni Alan Wolfe Uwe Reinhardt and Thomas E. Mann reject the myth of polarization On topics ranging from the war on terrorism health care economic policy and Social Security to religion diversity and immigration the authors argue that there are sensible centrist solutions that are

more in keeping with prevailing public sentiment and that would better serve the national interest On issue after issue the authors show how the conventional framing of the debate in Washington has misled Americans creating a series of false dilemmas and forcing choices between two extremes at the expense of more balanced and pragmatic policy solutions based on enduring American values *Uniting America* provides a blueprint for a fresh approach to American politics grounded in moderation pragmatism and the shared values that unite Americans
