**National Service 1950s** John Kelly, 2003      **National Service** Richard Vinen, 2014-08-28 SUNDAY TIMES BOOKS OF THE YEAR and FINANCIAL TIMES BOOKS OF THE YEAR 2014 WINNER OF THE TEMPLER MEDAL AND THE WOLFSON HISTORY PRIZE Sunday Times Top 10 Bestseller Richard Vinen's new book is a serious if often very entertaining attempt to get to grips with the reality of National Service an extraordinary institution which now seems as remote as the British Empire itself With great sympathy and curiosity Vinen unpicks the myths of the two gap years which all British men who came of age between 1945 and the early 1960s had to fill with National Service Millions of teenagers were thrown together and under often brutal conditions taught to obey orders and to fight The luck of the draw might result in two years of boredom in some dilapidated British barracks but it could also mean being thrown into a dangerous combat mission in a remote part of the world By any measure National Service had a huge impact on the nature of British society and yet it has been remarkably little written about As the military's needs wound down and Britain ceased to be a great power National Service came to be seen as just an embarrassment and its culture of rank and discipline something which many British people were by the 1960s running away from But without a proper understanding of National Service the story of post war Britain barely makes sense Richard Vinen provides that missing book It will be fascinating to those who endured or even enjoyed their time in uniform but also to anyone wishing to understand the unique nature of post war Britain      *National Service Life Stories* Peter Gurney, Matthew Grant, Joel Morley, 2025-01-25 National service was a defining feature for a generation of young men in post war Britain Around 2.3 million of them were called up between the end of World War Two and 1963 when conscription ended However national service was forgotten almost before it had ended a process aided subsequently by professional historians who have been reluctant to assess its longer term influence on British social and political history Based on original oral interviews with well over one hundred men this book explores the ways in which compulsory military participation reverberated in the memories of interviewees long beyond the end of conscription and how these early military experiences shaped their later life stories Unlike existing accounts that tend to rely on memoirs written by officers or else oral interviews that concentrate narrowly on the details of military service this study focusses instead on men from working class backgrounds and it situates national service in the context of the life course and the wider transformations that have occurred in British society since conscription ended In so doing the work shines new light on important areas of current scholarly interest and historiographical concern including the changing meaning and experience of class masculinity and citizenship as well as the complexities of popular memory      **The British National Bibliography** Arthur James Wells, 2003
