Stevens, Howard Trivers, 2012-10-01 Additional Contributor Is Joseph M Roland *Their Application By The Nazi Party s Foreign Organization And The Use Of Germans Abroad For Nazi Aims* Department of State Publication , 1943 **Order and Insecurity in Germany and Turkey** Emre Sencer, 2016-11-25 This book examines processes of military political and cultural transformation from the perspective of officers in two countries Germany and Turkey in the 1930s The national fates of both countries interlocked during the Great War years and their close alliance dictated their joint defeat in 1918 While the two countries were manifestly different in their politics and culture both had lost the war and both went through powerful changes in its immediate aftermath They painted themselves as the victims of a new imperialist order whose chief representatives were Britain and France The result was a radical militarism that unleashed violent currents in these

countries developments that were to be more transformative than the impact of the war experience itself *Sweden after Nazism* Johan Östling, 2016-06-01 As a nominally neutral power during the Second World War Sweden in the early postwar era has received comparatively little attention from historians Nonetheless as this definitive study shows the war and particularly the specter of Nazism changed Swedish society profoundly Prior to 1939 many Swedes shared an unmistakable affinity for German culture and even after the outbreak of hostilities there remained prominent apologists for the Third Reich After the Allied victory however Swedish intellectuals reframed Nazism as a discredited distinctively German phenomenon rooted in militarism and Romanticism Accordingly Swedes self conception underwent a dramatic reformulation From this interplay of suppressed traditions and bright dreams for the future postwar Sweden emerged **Transnational Forms of Contemporary Neo-Nazi Activity in Europe from the Perspective of Czech Neo-Nazis** Petra Vejvodová, 2014-01-01 Evropsk neonacistick hnut se ze sv ideologick podstaty stav negativn v i globalizaci a mezin rodn migraci P esto samo t chto fenom n vyu v k sjednocov n se na evropsk a celosv tov rovni ve snaze vytvo it jednotn hnut kter bude schopn prosadit vlastn ideologii V Evrop pozorujeme v razn posilov n mezin rodn ch vazeb mezi neonacisty z jednotliv ch zem posilov n vz jemn ch kontakt a nar staj c po et aktivit s mezin rodn ast Vediteln je rychl en se jednotliv ch koncept a strategi a upev ov n spole n ideologie nacin ln ho socialismu s velmi jasnou viz b l Evropy C lem t to publikace je analyzovat transnacionalizaci neonacistick ho hnut a to z perspektivy esk ch neonacist Publikace nab z vhl ed do p edstavy neonacistick ho hnut o Evrop p edstavuje ideologii sjednocuj c jednotliv n rodn neonacistick hnut Tak p edstavuje neonacistick koncepty a strategie jako p klady transnacionalizace D le identifikuje formy konkr tn ch aktivit mezin rodn spolupr ce *The Dual State* Ernst Fraenkel, Jens Meierhenrich, 2018-12-20 The Dual State first published in 1941 remains one of the most erudite books on the logic of dictatorship It was the first comprehensive analysis of the rise and nature of National Socialism and the only such analysis written from within Hitler s Germany Ernst Fraenkel s courageous ethnography of law was widely acclaimed upon publication and it has influenced considerably postwar debates about the nature of the Third Reich But The Dual State also has relevance for the study of dictatorship in the twenty first century Fraenkel s innovative concept of the dual state with its two halvesthe normative state which generally respects its own laws and regulations and the prerogative state which violates them wantonly illuminates powerfully the complicated relationship between law and order in many countries around the world It speaks directly to the idea of an authoritarian rule of law This republication of Fraenkel s classic makes it once again available to scholars and students in law the social sciences and the humanities It includes Fraenkel s 1974 preface to and two appendices from the first German editionnever before published in English An extensive introduction by Jens Meierhenrich places Fraenkel s ethnography of law in historical and theoretical context **Publications of the Department of State; a Quarterly List** United States. Department of State, 1942 **Elites Against Democracy** Walter Struve, 2015-03-08 Since the beginning of the current era of imperialism in the late nineteenth century there has been a

striking contrast between bourgeois political thought in Germany and the West Walter Struve demonstrates how German political culture went through a phase in which great emphasis was placed on the establishment of a new political elite recruited on the basis of merit and skill but ruling in an authoritarian way and not controlled by the populace He suggests that this type of elitism many aspects of which were vital to the political culture of Nazi Germany seems today to be widespread in the West The development of this concept of an open yet authoritarian elite is approached through the analysis of the political ideas and activities of nine elitists among them Max Weber Walther Rathenau and Oswald Spengler The author relates biography to intellectual political social and economic history so that his work becomes a study in the political and social context of intellectual history Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Statesman's Year-Book M. Epstein, 2016-12-23 The classic reference work that provides annually updated information on the countries of the world **Technology, War and Fascism** Herbert Marcuse, 2004-01-14 PUBLICITY TITLE Marcuse's most famous book *One Dimensional Man* has sold over 100 000 copies worldwide Kellner and Marcuse both big names in their own rights First in a series of six a must for libraries to have whole sets Revival of HERBERT MARCUSE LEGACY Marcuse's philosophy was so ahead of its time that it's almost more appropriate now than it was in the 1960s **Hearings, Reports and Prints of the Senate Committee on Banking and Currency** United States. Cochrane, 1976-01-01 THEOLOGICAL PUBLISHERS 2 PICKWICK PRESS 1974 1980 PICKWICK PUBLICATIONS 1982 by Dikran Y Hadidian Upon my return in September of 1973 from my sabbatical year in Beirut where I had time to think through the initial plan of publishing dissertations I approached the president of a local commercial printing company who also happened to be a friend He after several days of consideration gave me the green light to go ahead and plan publications of theological monographs at the company's expense I served as general editor fully responsible in all decisions to negotiate with authors translators and editors of collected essays on the possible publication of their works Thus BULLETIN ABTAPL VOL 2 NO 7 13 MARCH 1990 in 1974 the Pickwick Morcroft Company began to publish monographs under the name of Pickwick Press The first series was called the Pittsburgh Theological Monograph Series together with two other series namely Pittsburgh Reprint Series and Pittsburgh Original Texts and Translations Series These continued until 1980 when the president of Pickwick Morcroft suffered a stroke and his successor was not interested in continuing the previous arrangement Dikran Y Hadidian Editor and Publisher Pickwick Publications Contemporary Germany and the Fourth Wave of Far-Right Politics Manès

Weisskircher,2023-09-28 This volume provides a state of the art analysis on the fourth wave of far right politics in Germany by leading scholars in the field Innovatively the book focuses not only on the role of the electoral breakthrough of AfD the Federal Republic's first ever nationally established far right party but also on the many crucial instances of non party activism such as the New Right intellectual circles PEGIDA street protest and political violence For a long time Germany was regarded as an exceptional case because of the lack of an established far right party on the national level Times have changed but Germany still remains unique The book highlights four features that continue to make the case exceptional within Western Europe I The strong diversity of vibrant far right political players in Germany and their many interconnections II the electoral success of AfD i e the delayed electoral breakthrough of a far right party on the national level III the importance of militant democracy specifically how established players have responded to AfD and IV the relevance of the east west divide for understanding far right politics in Germany Contributions on these topics highlight the broader theoretical relevance of the analysis of the German far right connecting to many research questions that have occupied scholars also in other contexts The book is essential reading for all those with an interest in the far right German and European politics as well as in the interconnections between political parties social movements and subcultural milieus

From a "Race of Masters" to a "Master Race": 1948 to 1848 A.E. Samaan,2020-11-09 Nazism remains an enigma Historians do not know whether to slot Nazism as a phenomenon of the political right or left largely because of a misunderstanding of how central eugenics was to the regime Eugenics or racial hygiene was at the core of National Socialism's domestic policy foreign policy culture wars and even Hitler's obsession with cars highways and city planning Thus no coherent understanding of the regime is possible without first grasping the nature of eugenics Eugenics did not originate with Nazi Germany It was the culmination of a worldwide movement that was widely accepted by the global scientific and academic community This book traces the origins of the Nazi eugenics state working backward down the timeline tracing from leaf down to the root We investigate this 100 year trajectory from its beginnings in British and American Academia delving into the conveniently forgotten inner workings of a scientific era uncovering previously unpublished manuscripts professional correspondence and conveniently forgotten publications With the centenary of The Holocaust looming uprooting the web of professional connections that engendered this movement is in order The seeds of Holocaust denial take root and prosper with misinformation Clarity and transparency are imperative as they leave no room for denial theories that would deprive the victims of justice or rob the living of a future FOR MORE INFORMATION ON THE EUGENICS ANTHOLOGY BOOK SERIES PLEASE VISIT <https://EugenicsAnthology.com> FOR MORE INFORMATION ON THIS SPECIFIC VOLUME PLEASE VISIT <https://RaceOfMasters.com> NOTE A preliminary version of this book was circulated amongst academic circles and other interested parties as an Advanced Readers Copy A R C in 2015 This version is a part the Eugenics Anthology seven book series that is currently being completed by A E Samaan Hardbound versions of the books will

not be released until the series is complete and all the puzzle pieces in place The End of Law William E. Scheuerman, 2019-10-18 Scholarly and political interest in the work of the controversial twentieth century German thinker Carl Schmitt has exploded in the 20 years since William E Scheuerman's important book was first published However Scheuerman's work remains distinctive Firstly it focuses directly on Schmitt's complex ideas about law situating his views within broader debates about the rule of law and its fate The volume shows how every facet of his political thinking was decisively shaped by his legal reflections Secondly the volume takes Schmitt's Nazi era political and legal writings no less seriously Finally the volume offers a series of studies on figures in postwar US political thought Friedrich Hayek and Joseph Schumpeter demonstrating how Schmitt shaped their own influential theories This timely second edition underscores how and why the recent growth of interest in Schmitt has been prompted by political developments for example debates about counterterrorism and emergency government and the rise of authoritarian populism **The Nazi Machtergreifung (RLE Nazi Germany & Holocaust)** Peter D. Stachura, 2014-09-19 This book analyses some of the fundamental reasons for the triumph of National Socialism in 1933 Written in 1983 by historians at Canadian American and British universities it provides a clear and balanced historiographical perspective of the dynamics of socio political mobilization which helped make the Machtergreifung possible The relationship during the Weimar republic between the Nazi Party and various social groups constitutes a major element in the book as do the attitudes towards Hitler displayed by a number of influential institutions The Nazis successful mobilization of popular support before 1933 is illustrated through the impact of foreign policy and ideology propaganda on the Germans
