Nationalist Thought and the Colonial World Partha Chatterjee, 1993 If it isn't obvious from the title of this book that this is going to be full of postmodern jargon it becomes clear quite quickly that Chatterjee prefers difficult terms like problematic thematic and discourse without always defining them he even admits his admiration for Rorty Barthes Foucault and Derrida Nonetheless underneath all of this verbiage is a strong and convincing argument about the three stages of nationalism in India the moment of departure epitomized by Bankimchandra Chattopadhyay the moment of manoeuvre Gandhi and the moment of arrival Nehru Chatterjee clearly shows how nationalism in India was akin to Gramsci's concept of the passive revolution i.e. merely a drive towards independence not towards transforming or breaking up colonial institutions He argues that instead of supporting nationalism we should instead challenge the marriage between reason and capital From the title of

this book one might expect Chatterjee to draw links to other anti colonial nationalisms but he doesn't rather he only discusses India not even other parts of South Asia While this approach doesn't really make this book too useful for examining anti colonial nationalisms in general for someone like me who has never read a book on Indian nationalism this is a good introduction from Amazon.ca

Race, Nation, History Oded Y. Steinberg, 2019-07-05 In *Race Nation History* Oded Y Steinberg examines the way a series of nineteenth century scholars in England and Germany first constructed and then questioned the periodization of history into ancient medieval and modern eras shaping the way we continue to think about the past and present of Western civilization at a fundamental level Steinberg explores this topic by tracing the deep connections between the idea of epochal periodization and concepts of race and nation that were prevalent at the time especially the role that Germanic or Teutonic tribes were assumed to play in the unfolding of Western history Steinberg shows how English scholars such as Thomas Arnold Williams Stubbs and John Richard Green and German scholars such as Christian Karl Josias von Bunsen Max Müller and Reinhold Pauli built on the notion of a shared Teutonic kinship to establish a correlation between the division of time and the ascent or descent of races or nations For example although they viewed the Germanic tribes conquest of the Roman Empire in A D 476 as a formative event that symbolized the transformation from antiquity to the Middle Ages they did so by highlighting the injection of a new and dominant ethnoracial character into the decaying empire But they also rejected the idea that the fifth century A D was the most decisive era in historical periodization advocating instead for a historical continuity that emphasized the significance of the Germanic tribes influence on the making of the nations of modern Europe Concluding with character studies of E A Freeman James Bryce and J B Bury Steinberg demonstrates the ways in which the innovative schemes devised by this community of Victorian historians for the division of historical time relied on the cornerstone of race

Citizenship David Jacobson, Manlio Cinalli, 2023 The introduction sets the historical context for the emergence of citizenship the revolutionary periods in its evolution and the underlying paradox that citizenship never fully overcomes primordialist practices Six propositions shape the book's exposition on the underlying grammar of citizenship the paradoxical character of rights which may undermine as well

reinforce civic society the role of interest and identity respectively in collective action the importance of social embeddedness for the functioning of citizenship the concept of seams as a better conceptual framing than borders in revealing the present global environment and the increasingly evident empirical basis for prescribing a 21st century guild to help repair democracy

All of This Music Belongs to the Nation Kenneth J. Bindas, 2016-08-23 Established in 1935 under the aegis of the Works Progress Administration the Federal Music Project FMP was designed to employ musicians who were hard hit by the economic devastation of the Great Depression All of This Music Belongs to the Nation is the first book length study of the FMP and the many paradoxes and conflicts that marked its four year existence As Kenneth J Bindas points out the FMP leadership was more conservative than that of the sister projects in art theater and writing Its stated aim of raising the taste of musicians and citizens alike created a particular problem Although many unemployed musicians came from the sphere of popular music such as jazz and Tin Pan Alley the FMP chose to emphasize cultured music particularly the orchestral works of composers in the European classical tradition Inevitably this created tension within the project as those musicians deemed popular received second class treatment and in the case of racial and ethnic minorities were segregated and stereotyped Despite these troubles Bindas demonstrates the FMP succeeded in bringing music to millions of listeners across the country
