**The Nationalist Program for China** Chao-chu Wu,1929      **The Nationalist Program for China** Chao-chu Wu,1929

A Nation-State by Construction Suisheng Zhao,2004 This is the first historically comprehensive up to date analysis of the causes content and consequences of nationalism in China an ancient empire that has struggled to construct a nation state and find its place in the modern world It shows how Chinese political elites have competed to promote different types of nationalism linked to their political values and interests and imposed them on the nation while trying to repress other types of nationalism In particular the book reveals how leaders of the PRC have adopted a pragmatic strategy to use nationalism while struggling to prevent it from turning into a menace rather than a prop      Military Review ,1930      *Sericultural Development in China* Silk Association of America,1928      **Building in China** Jeffrey W Cody,2021-01-15 Building in China is about striking an architectural balance between the pull of monumental tradition and the push of technological novelty Centering on the dynamic period of post imperial and pre Communist China the book focuses on the building and city planning initiatives of Henry Murphy a little known American architect who initially ventured to China in 1914 to design a campus for the Yale in China programme but who then found himself captivated by a professional and cultural challenge that lasted two decades how to preserve China s rich architectural traditions while also designing new buildings using up to date Western technologies Murphy s buildings were compromises wine in old bottles as he once called them and the book uses those tles as lenses through which to understand not only Murphy s quest to find a middle ground for his architecture in China but also to gaze at a tumultuous society facing an uncertain future Murphy s buildings were more than vessels for either aesthetic visions or technical expertise inadvertently they became political emblems as Chinese rulers such as Chiang Kai shek and Sun Yat sen s son called on Murphy for city planning advice to complement their hopes for urban reconstruction There are few serious studies of Western architects in the twentieth century who practiced in non Western contexts and those scant studies that have been published concentrate largely on British French or Dutch examples in colonial settings Hence the book makes significant contributions to the fields of both American and Chinese architectural history      *The Political Doctrines of Sun Yat-sen: An Exposition of the San Min Chu I* Paul Myron Anthony Linebarger,2023-09-18 Paul Myron Anthony Linebarger s *The Political Doctrines of Sun Yat sen An Exposition of the San Min Chu I* is a seminal work that delves into the political ideologies of the prominent Chinese leader Sun Yat sen Linebarger provides a detailed analysis of Sun Yat sen s Three Principles of the People known as San Min Chu I and how they influenced China s political landscape The book is written in a scholarly and informative style making it a valuable resource for those interested in Chinese political history and ideology Linebarger s thorough examination of Sun Yat sen s doctrines sheds light on their significance and relevance in modern times Paul Myron Anthony Linebarger also known by his pseudonym Cordwainer Smith was a political scientist and East Asia expert with firsthand experience in China His deep understanding of Chinese culture and politics

informs his analysis of Sun Yat sen s political doctrines Linebarger s research and expertise make *The Political Doctrines of Sun Yat sen* a comprehensive and insightful study I highly recommend *The Political Doctrines of Sun Yat sen* to readers interested in Chinese history political theory and the influence of Sun Yat sen on modern China Linebarger s meticulous research and scholarly approach make this book a must read for anyone looking to deepen their understanding of Chinese politics

*China At The Crossroads* F. Gilbert Chan,2019-03-08 Concentrating on a transitional epoch 1927 1949 when China was at the crossroads of revolution this book analyzes the Kuomintang s inherent weaknesses as a revolutionary force and the Communists success in the quest for new formulas to guide the modernization movement

*China's Unequal Treaties* Dong Wang,2005-01-01 China s Unequal Treaties offers a study based on primary sources of the linguistic development and polemical uses of the expression Unequal Treaties to refer to the treaties written between 1842 and 1943 Although the expression has occupied a central position in both Chinese collective memory and English historiographies China s Unequal Treaties is the first study of the phrase and its interpretations

Nationalism Carlton J. H. Hayes,2016-03-16 This classic volume tells the story of nationalism the fusion of patriotism with ethnic consciousness It documents the emergence of nationalism in the modern world and the way that nationalism has become a substitute for religion over the past two centuries Nationalism for Hayes draws its power from cultural and social factors primarily language Second to language are historical forces that stem from an accumulation of a people s remembered or imagined experiences Hayes bases his observations on historic European examples He sees nationalism as a religion reacting against historic Christianity and the values of the Western tradition This combination of powerful forces stresses neither charity nor the brotherhood of man Historically it has rationalized selfishness intolerance and violence The growth of nationalism Hayes observed brings not peace but war As a testament to its timeless insight Nationalism remains an informative guide despite the failure of globalization the Internet and international communications and connectivity to move us beyond the bonds of nationalism Hayes s linking of the potent forces of nationalism and religion still rings true the insurgency in Ukraine the unrest in the Middle East and tribal conflicts in Africa are all undergirded by nationalist sentiments

*China Through The Ages* Franz Michael,2019-03-13 Past studies of China have concentrated on specific events or have related a chronological history of the dynastic periods These works have included aspects of cultural history but have underemphasized the country s great social political and intellectual movements and their ultimate expression in the art and literature of the time By focusing on such themes Professor Michael provides a new framework for understanding the Chinese cultural tradition The author describes the evolving history of ideas in China from ancient faith in powerful magic to more modern concepts of a logical moral order of the universe and mankind s place in it He also explores the intellectual ferment following the dawn of the age of reason the integration of Buddhism into the Confucian social order and the social transformations accompanying the rise and fall of the

centralized state Throughout he illustrates how the changing society's beliefs values and aesthetic sense were embodied in its art and literature This portrayal of the Chinese cultural tradition not only puts Chinese history in a new perspective it also illuminates the process through which China constructed a modern society from a non Western foundation and serves as an essential tool for understanding modern day China and its prospects for the future *The Annals of the American Academy of Political and Social Science*, 1916
