Great Confusion in Indian Affairs Tom Holm,2009-08-17 The United States government thought it could make Indians vanish After the Indian Wars ended in the 1880s the government gave allotments of land to individual Native Americans in order to turn them into farmers and sent their children to boarding schools for indoctrination into the English language Christianity and the ways of white people Federal officials believed that these policies would assimilate Native Americans into white society within a generation or two But even after decades of governmental efforts to obliterate Indian culture Native Americans refused to vanish into the mainstream and tribal identities remained intact This revisionist history reveals how Native Americans sense of identity and peoplehood helped them resist and eventually defeat the U S government s attempts to assimilate them into white society during the Progressive Era 1890s 1920s Tom Holm discusses how Native Americans though effectively colonial subjects without political power nonetheless maintained their group identity through their native languages religious practices works of art and sense of homeland and sacred history He also describes how Euro Americans became increasingly fascinated by and supportive of Native American culture spirituality and environmental consciousness In the face of such Native resiliency and non Native advocacy the government s assimilation policy became irrelevant and inevitably collapsed The great confusion in Indian affairs during the Progressive Era Holm concludes

Indian Mounds of Wisconsin Robert A. Birmingham, Leslie E. Eisenberg, 2000-10-16 Annotation More mounds were built by ancient Native American societies in Wisconsin than in any other region of North America between 15 000 and 20 000 mounds at least 4 000 of which remain today Most impressive are the effigy mounds huge earthworks sculpted into the shapes of birds animals and other forms not found anywhere else in the world in such concentrations This book written for general readers but incorporating the most recent research offers a comprehensive overview of these intriguing earthworks

and answers the questions Who built the mounds When and why were they built Using evidence drawn from archaeology ethnography ethnohistory linguistics and the traditions and beliefs of present day Native Americans in the Midwest archaeologists Birmingham and Eisenberg offer an important new interpretation of the effigy mound groups as cosmological maps that model ancient belief systems and social relations Although the archaeological record indicates that most ancient Native American societies in the upper Midwest built mounds between about 800 B C and A D 1200 the effigy mounds bear such similarity to the beliefs and clan structures of the Ho Chunk Ioway and closely related nations that it is extremely likely that these people are descendants of the effigy mound builders Indian Mounds of Wisconsin includes a travel guide to sites in Wisconsin that can be visited by the public including many in state county and local parks **Native American Resilience**
