Interpreting Native American History and Culture at Museums and Historic Sites Raney Bench, 2014-10-30

Interpreting Native American History and Culture at Museums and Historic Sites features ideas and suggested best practices for the staff and board of museums that care for collections of Native material culture and who work with Native American culture history and communities. This resource gives museum and history professionals benchmarks to help shape conversations and policies designed to improve relations with Native communities represented in the museum. The book includes case studies from museums that are purposefully working to incorporate Native people and perspectives into all aspects of their work. The case study authors share experiences hoping to inspire other museum staff to reach out to tribes to develop or improve their own interpretative processes. Examples from tribal and non tribal museums and partnerships between tribes and museums are explored as models for creating deep and long lasting partnerships between museums and the tribal communities they represent. The case studies represent museums of different sizes, different missions, and located in different regions of the country in an effort to address the unique history of each location. By doing so, it inspires action among museums to invite Native people to share in the interpretive process or to take existing relationships further by sharing authority with museum staff and board. The Cambridge History of Native American Literature Melanie Benson Taylor, 2020-09-17. Native American literature has always been uniquely embattled. It is marked by divergent opinions about what constitutes authenticity, sovereignty, and even literature. It announces a culture beset by paradox, simultaneously primordial and postmodern, oral and inscribed, outmoded and novel. Its texts are a site of political struggle, shifting to meet external and internal expectations. This Cambridge History endeavors to capture and question the contested character of Indigenous texts and the way they are evaluated. It delineates significant periods of literary and cultural development in four sections: Traces, Assimilation and Modernity (1879-1967), Native American Renaissance (post 1960s), and Visions/Revisions (21st century). These rubrics highlight how Native literatures have evolved alongside major transitions in federal policy toward the Indian and via contact with broader cultural phenomena such as the American Civil Rights movement. There is a balance between a history of canonical authors and traditions, introducing less studied works and themes, and foregrounding critical discussions, approaches, and controversies.
