Nato And Peace Support Operations 1991 1999 Policies And Doctrines:

NATO and Peace Support Operations, 1991-1999 Henning Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment This environment is increasingly dominated by new wars more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them The book seeks to explain how this new strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence Evaluating Peacekeeping Missions Sarah-Myriam Martinand war key concepts in the field of security studies Brûlé,2016-07-15 This book offers a new perspective on peace missions in intra state wars based on comparative field research In theoretical terms this book proposes a new definition of peace operation success based on two crucial elements the re establishment of order and the accomplishment of the mandate The work presents a new typology for assessing peace operations as failures partial failures partial successes or successes This focus on blurry outcomes provides a clearer theoretical framework to understand what constitutes successful peace operations It explains the different outcomes of peace operations based on the type of success failure by outlining the effect s of the combination of the key ingredients strategy and the type of interveners Empirically this book tests the saliency of the theoretical framework by examining the peace operations which took place in Somalia Sierra Leone and Liberia This book refutes the classification of these three cases as the worst context for transitional politics and demonstrates that peace operations may succeed partially of totally in challenging contexts and that the diverse outcomes are better explained by the type of intervener and the strategy employed than by the type of context This work shows that for a peace operation in an intra state war the adoption of a deterrence strategy works best for re establishing order while the involvement of a great power facilitates the accomplishment of the mandate This book will be of much interest to students of peacekeeping conflict resolution civil wars security studies and IR **Advances in Military Sociology** Giuseppe Caforio, 2009-12-01 A selection of the papers presented at RC01 s in general international conference in Seoul July 2008 It offers an overview of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change It presents studies that move beyond the very concept of globalization

Rethinking the Liberal Peace Shahrbanou Tadjbakhsh,2011-03-08 This book presents a critical analysis of the liberal peace project and offers possible alternatives and models In the past decade the model used for reconstructing societies after conflicts has been based on liberal assumptions about the pacifiying effects of open markets and open societies Yet despite the vast resources invested in helping establish the precepts of this liberal peace outcomes have left much to be desired The book argues that failures in the liberal peace project are not only due to efficiency problems related to its adaptation in adverse local environments but mostly due to problems of legitimacy of turning an ideal into a doctrine for action The aim of the book is to scrutinize assumptions about the value of democratization and marketization and realities on the ground by

combining theoretical discussions with empirical evidence from key post conflict settings such as Iraq and Afghanistan These show the disparities that exist between the ideals and the reality of the liberal peace project as seen by external peacebuilders and domestic actors The book then proposes various alternatives and modifications to better accommodate local perspectives values and agency in attempts to forge a new consensus This book will be of great interest to students of peacebuilding peacekeeping statebuilding war and conflict studies international security and IR Clinton, Peacekeeping and Humanitarian Interventionism Leonie Murray, 2007-08-07 This volume re examines the evidence surrounding the rise and fall of peacekeeping policy during the first Clinton Administration Specifically it asks what happened to cause the Clinton Executive to abandon its previously favoured policy platform of humanitarian multilateralism Clinton Peacekeeping and Humanitarian Interventionism aims to satisfy a large gap in our understanding of events surrounding 1990s peacekeeping policy humanitarian intervention and the Rwandan genocide as well as shedding some light on US policy on Africa and the issues surrounding the current peacekeeping debate Leonie Murray takes an unorthodox stance with regard to the role of public opinion on peacekeeping policy and delves deeper into the roles that the legislature the military and in particular the executive had to play in the development of US peacekeeping policy in the 1990s The conclusions reached concerning the role of the United States and the International Community in the face of the Rwandan Genocide are of particular note in their departure from the accepted wisdom on the subject This book will be of interest to students of peacekeeping international Peace Without Politics? David Chandler, 2006 This edited relations US foreign policy and humanitarian intervention collection brings together policy specialists and academics from the UK Europe the US and Canada to assess and analyse lessons from ten years of nation building in Bosnia Peace without Politics? Ten Years of State-Building in Bosnia David Chandler, 2013-09-13 Ten years on from the signing of the Dayton Peace Agreement in November 1995 the legacy of the Bosnian war still shapes every aspect of the political social and economic environment of the tiny state This state of affairs is highlighted by the fact that Bosnia is still under international control with the Office of the International High Representative regularly using its powers to dismiss elected presidents prime ministers and MPs and to impose legislation over the resistance of elected legislatures at national regional and local level What has changed in the ten years since Dayton Is international regulation helping to establish a sustainable peace in Bosnia What lessons can be learned for nation building in Bosnia This volume was previously published as a special issue of the leading journal International Peacekeeping

Corruption and Post-Conflict Peacebuilding Dominik Zaum, Christine Cheng, 2012-02-20 This edited volume explores and evaluates the roles of corruption in post conflict peacebuilding The problem of corruption has become increasingly important in war to peace transitions eroding confidence in new democratic institutions undermining economic development diverting scarce public resources and reducing the delivery of vital social services Conflict affected countries offer an ideal environment for pervasive corruption Their weak administrative institutions and fragile legal and judicial systems mean that

they lack the capacity to effectively investigate and punish corrupt behaviour In addition the sudden inflow of donor aid into post conflict countries and the desire of peacebuilding actors including the UN the international financial institutions aid agencies and non governmental organisations to disburse these funds quickly create incentives and opportunities for corruption While corruption imposes costs and compromises on peacebuilding efforts opportunities for exploiting public office can also be used to entice armed groups into signing peace agreements thus stabilising post war environments This book explores the different functions of corruption both conceptually and through the lens of a wide range of case studies It also examines the impact of key anti corruption policies on peacebuilding environments. The dynamics that shape the relationship between corruption and the political and economic developments in post conflict countries are complex This analysis highlights that fighting corruption is only one of several important peacebuilding objectives and that due consideration must be given to the specific social and political context in considering how a sustainable peace can be achieved This book will be of great interest to students of peacekeeping and peacebuilding criminology political economy war and conflict studies international security and IR **International Sanctions** Carina Staibano, Peter Wallensteen, 2005-02-18 The main theme of the book is that the new types of sanctions constitute a challenge to the international system First there are more of the targeted sanctions including financial travel aviation special commodity and arms sanctions Furthermore there are considerable but varied practices in implementation Also there are now sanctions by new actors regional bodies international organizations. These all put new strains on international bodies in carrying out sanctions or getting member states to work together in these efforts These challenges are analyzed in this volume with some examples but mostly from a generalist perspective A completely novel aspect is that this volume also includes studies of the difficulties that are met by targeting actors their way of managing the situations and most interesting the human rights of such actors Conceptualizing Maritime & Naval Strategy Sebastian Bruns, Sarandis Papadopoulos, 2020-07-09 Gro machtkonflikte die Zukunft von sicherheitspolitischen Institutionen sowie transnationalen Generationenherausforderungen bergen eine neue globale Unsicherheit Vor diesem Hintergrund bekommen maritime Sicherheit und Seestreitkr fte sowie deren Einordnung im au enpolitischen Werkzeugkasten eine zunehmende Bedeutung Was sind die Rollen und Einsatzaufgaben von Seemacht und wie haben Staaten und ihre Institutionen maritime Ziele Mittel und Wege konzeptualisiert Dieser Sammelband bringt ausgewiesene Experten aus den USA Europa und Asien zusammen die ihre Perspektive auf maritime Strategie teilen Das Buch dient gleichzeitig die Festschrift fr Peter M Swartz Kapit n zur See a D der US Marine der seit seiner Arbeit als einer der Autoren der Maritime Strategy 1980er als Mentor Freund intellektueller Leuchtturm und vor allen Dingen als Spiritus Rektor wesentlich zur Sch rfung des Verst ndnisses von Seestrategie in den globalen Beziehungen beigetragen hat Mit Beitr gen von James Bergeron Sebastian Bruns Seth Cropsey Larissa Forster Michael Haas John Hattendorf Peter Haynes Andrzej Makowski Amund Lundesgaard Narushige Michishita Martin Murphy

International relations in general Kosovo Between War and Peace Tonny Brems Knudsen, Carsten Bagge Laustsen, 2006-08-21 A major contribution to the debate about the reconstruction of Kosovo and to the general discussion surrounding the revived trusteeship institution model in the context of the UN internationalism of the 1990s and the War on Terror following 9 11 Bringing together leading international scholars this book presents the latest empirical research alongside detailed theoretical analysis Examining the key questions local parties and the international community have encountered in Kosovo including how to develop effective and inclusive local government how to counter crime and the dysfunctional aspects of liberal economic reform how to unite the partly opposed goals of reconstructing the province while avoiding renewed ethnic and international strife and how to handle the specific challenge of Kosovo's future status. The contributors also re examine the background factors that continue to influence and hamper the attempt to administrate and reconstruct the province first of all the nationalist ideologies and the record of ethnic violence. Europeanization of National Security Identity Pernille Rieker, 2006-05-09 This new book tackles two key questions 1 How is the EU functioning as a security actor 2 How and to what extent is the EU affecting national security identities Focusing on the four largest Nordic states Denmark Finland Norway and Sweden this incisive study analyzes how and to what extent the EU affects national security identities It shows how the EU has developed into a special kind of security actor that due to its level of political integration has an important influence on national security approaches and identities This new analysis applies a fresh combination of integration theory security studies and studies of Europeanization The main argument in this book is that rather than adapting to the changing conditions created by the end of the Cold War the Nordic states changed their security approaches in response to the European integration process It shows how different phases in the post Cold War European integration process have influenced the national security approaches of Sweden Finland Denmark and Norway While all four security approaches seem to have been Europeanized the speed and the character of these changes seem to vary due to a combination of differing ties to the EU and differing security policy traditions This new book will be of great interest to all students of European Defence national security and of security studies in general South Africa and <u>United Nations Peacekeeping Offensive Operations</u> Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving

the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges
