The Role of Ecosystems in Disaster Risk Reduction Fabrice G. Renaud, Karen Sudmeier-Rieux, Marisol Estrella, 2013 The uptake of ecosystem based approaches for disaster risk reduction DRR is slow however despite some success stories There are multiple reasons for this reluctance ecosystem management is rarely considered as part of the portfolio of DRR solutions because the environmental and disaster management communities typically work independently from each other its contribution to DRR is highly undervalued compared to engineered solutions and therefore not given appropriate budget allocations and there are poor interactions between policymakers and researchers leading to unclear and sometimes contradictory scientific information on the role of ecosystems for DRR The aim of this book is to provide an overview of knowledge and practice in this multidisciplinary field of ecosystems management and DRR The contributors professionals from the science and disaster management communities around the world represent state of the art knowledge practices and perspectives on the topic
