Family-Oriented Informed Consent Ruiping Fan,2015-03-05 This volume addresses the proper character of patient informed consent to medical treatment and clinical research The goal is critically to explore the current individually oriented approach to informed consent which grew out of the dominant bioethics movement that arose in the United States in the 1970s In contrast to that individually oriented approach this volume explores the importance of family oriented approaches to informed consent for medical treatment and clinical research It draws on both East Asian moral resources as well as a critical response to the ways in which the practice of informed consent has developed in the United States

Bridging The Gap: Integrative Oncology And The Practice Of Traditional Chinese Medicine Bianca Di Giulio,James Munson,2020-08-24 The book s inherent value currently is in its uniqueness There are few books on Integrative Oncology IO There are few books on the entirety of traditional Chinese medicine in the treatment of cancer There are even fewer if any books that deal with the topics of Integrative Oncology and the use of traditional Chinese medicine as a whole in the treatment of people with cancer While very broad and deep topics this makes for a varied audience of interest that includes not just the TCM practitioner or student but Western health practitioners and patients as well as laypeople interested in the topic of oncology For those interested in the topic of IO it gives one of the few non biased honest and critical views of the state of IO in contrast to what is promoted by various institutions and societies For the Western health practitioner and or patient many of whom are

completely unfamiliar with TCM and how it works or can be used it provides information on the breadth of TCM and how it can be applied in various ways to help improve outcomes For the TCM practitioner or student it provides much needed information on how to go about caring for a patient with cancer to include clinical pearls and important Western medical information and terminology
