Sadownik, Ingrid Engdahl, 2021-04-20 This book provides different perspectives on the concept of children's rights including policy educational and children's perspectives It examines how the crucial ideas of the Convention on the Rights of the Child are respected and implemented in 14 countries in five regions of the world It looks at early childhood education children's participatory rights and at how these rights are promoted and guaranteed in different countries It explores the professional practice of education and its complexities challenges and dilemmas as well as the role of play and of listening and participation The book advocates children's rights today arguing for its vital importance in the best interests of the children In doing so it furthers the understanding of children's rights and spreads knowledge about the Convention as a means of celebrating its 30th anniversary The UN Convention on the Rights of the Child UNCRC comprises the potential to change the lives of children to the very best It may exalt children from the position of marginalized citizens to the centre of policies all over the world Even though the concept of children's rights is omnipresent the respect for children's rights must be discussed While the Convention brings the new perspective of children as citizens to the world there are still challenges in its application The book interrogates challenges in understanding and

applying children rights and offers possible answers to these challenges The ratification process itself does not guarantee that children s rights are respected While all adults should take responsibility for implementing the UNCRC in everyday life Early Childhood Education should give opportunities for children to learn and live their rights *Early Childhood Learning Guidelines in Latin America and the Caribbean* Christine Harris- Van Keuren,Diana Rodríguez Gómez,2013-01-15 This report details a comparative analysis of early learning guidelines ELGs for infants and toddlers less than 3 years of age in Latin America and the Caribbean The 19 ELGs evaluated are utilized by 12 national and 7 regional programs located in 13 countries in the region Three types of programs are included in this report parenting programs n 3 community centers n 4 and child development centers n 12 Two of the twelve child development center programs fall beyond the age range of this research 0 3 years and are included as case studies While parenting programs are included in this analysis caution should be given to directly comparing their results to the results from community center or child development center programs As described in the paper parenting programs represent a distinct type of intervention Diversidad(eS) Asun Pié Balaguer (coord.),Ramon Duch Almo,Mercedes Martínez Torres,Rosa Maria Miró Rovira,Israel Rodríguez Giralt,2015-09-18
