How can a woman's testimony be worth half of a man's? How can men divorce their wives unilaterally by uttering three words? And what's with the obsession with virgins in Paradise? Find the chapter on any of the seventeen topics in this book and you will quickly learn where the myth came from and how to bust it. The methodology pursued is simple. First the Qur'an is given priority over all other literary or scriptural sources. Second the meaning of its verses in the original Arabic is highlighted in contrast to English translations and/or widespread misunderstanding or misinterpretation.

The Sacred Books of the East Friedrich Max Müller, 1900 The Sacred Books of the East: The Qur'an, pt. II, 1880 **Sacred Books of the East**, 1880 **The Qur'ân** Koran. English, 1900 *The Qur'ân*, 1900 Feminism, Law, and Religion Marie Failinger, Elizabeth Schiltz, Susan J. Stabile, 2016-04-15

With contributions from some of the most prominent voices writing on gender law and religion today, this book illuminates some of the conflicts at the intersection of feminism, theology, and law. It examines a range of themes from the viewpoint of identifiable traditions such as Judaism, Christianity, Islam, and Buddhism from a theoretical and practical perspective. Among the themes discussed are the cross-over between religious and secular values and assumptions in the search for a just jurisprudence for women; the application of theological insights from religious traditions to legal issues at the core of feminist work; feminist legal readings of scriptural texts on women's rights and the place that religious law has assigned to women in ecclesiastical life. Feminists of faith face challenges from many sides: patriarchal remnants in their own tradition; dismissal of their faith commitments by secular feminists; and balancing the conflicting loyalties of their lives. The book will be essential reading for legal and religious academics and students working in the area of gender and law or law and religion.

Women in Classical Islamic Law Susan Ann Spector, 2010. Drawing on legal and ad-hoc texts from the formative and classical periods of Islamic legal history, this book offers an overview of the development of the questions prominent jurists asked and answered about women's issues. All assumed a woman would marry, and thus the book concentrates on women's family life. The introduction establishes the historical framework within which the jurists worked. A chapter on Qur'anic verses devoted to women's lives is followed by chapters on marriage and divorce which compare the views of jurists during the formative period. The fourth chapter describes the evolution from the formative to the classical periods. The fifth uses material from both periods to describe the array of legal opinion about other aspects of women's lives in and outside their homes. Throughout, jurists' opinions are juxtaposed with relevant quotations from contemporaneous ad-hoc collections.

Roman Women's Dress Jan Radicke, 2022-11-07. The book concerns female dress in Roman life and literature. The main focus is on female Roman dress as it may have been worn in daily life in Rome and in a social environment influenced by Roman culture in the time from the beginnings of the Republic until the end of the 2nd century AD. There is, however, a certain surplus as to its contents because many Latin texts also talk about mythical Greek dress and the largely fictional early Roman dress. Altogether, large parts of the history of Roman dress are only known to us through what scholars thought about it in Classical and Late Antiquity. For this reason, this book is not only about real female

Roman dress but also about the ancient pseudo discourse on early female Roman dress which has been taken too seriously by modern scholarship This pseudo discourse has been mixed together with real facts to produce an ahistorical fabric It therefore appeared necessary to break with this old tradition and to take a completely new path The detailed analysis of many texts on female Roman dress is the basis of this new handbook meant for philologists historians and archaeologists alike

Contemporary Debates in Islam NA NA, 2016-04-30 Also available in paperback as *Modernist and Fundamentalist Debates in Islam* During the second half of the nineteenth century a group of prominent Muslim theologians began to critically examine classical conceptions and methods of jurisprudence and devised a new approach to Islamic theology This new approach was nothing short of an outright rebellion against Islamic orthodoxy displaying an astonishing compatibility with nineteenth century Enlightenment era thought In the 20th century this modernist movement declined to be replaced by another cultural episode characterized

by the growing power of Islamic fundamentalism This volume looks at these two very different approaches to Islam The editors have selected the most prominent Islamic thinkers of modernist and fundamentalist viewpoints diverse nationalities and from both the late decades of the nineteenth century and the early decades of the 20th century The writers discuss their own views with regard to such issues as philosophical and political perceptions of democracy the state the history of Islam women s rights personal lifestyle education and the West
