Theology of the New Testament Frank S. Thielman, 2011-03-22 Studying the theology of the New Testament can be a daunting task even to the knowledgeable Bible student or pastor Each of the twenty seven books written by various authors has its own theological emphasis and nuances How do we elicit a coherent message from such theological diversity especially given that some of the theological statements in the New Testament seem to be at odds with one another Is such an endeavor achievable or even valid Theology of the New Testament takes a balanced approach in response to these challenges Frank Thielman presents a theology of the New Testament that is careful to take into account the cultural and historical circumstances surrounding each book and the New Testament as a whole He not only examines each book's theological content individually but also in relation to the rest of the New Testament particularly within each of the three theological units that comprise the New Testament the gospels and Acts the Pauline epistles and the general epistles and Revelation This canonical and synthetic approach honors both the

theological diversity of the various books and the theological connections between the books In the end Thielman finds a unified theological vision of the New Testament anchored in the centrality of Jesus Christ Frank Thielman's *Theology of the New Testament* is an outstanding achievement The book is marked by scholarly depth exegetical rigor and theological profundity Both students and professors will profit immensely from this lucid treatment of the theology contained in the New Testament documents Thomas R Schreiner Professor of New Testament The Southern Baptist Theological Seminary An accessible presentation of the key theological points of the New Testament books by an accomplished New Testament scholar and teacher Its clear style lucid organization and sound theological insight make it a prime resource for serious students in both the academy and the church Karen H Jobes PhD Associate Professor of New Testament Westmont College

What Is Scripture? L. Timothy Swinson, 2014-10-15 Analysis of the literary scheme of the letters to Timothy suggests that *graphe* as it is employed in each letter may legitimately be understood to include some of the apostolic writings that now appear in the New Testament In affirming the Pauline authorship of the Pastoral Epistles Swinson argues that a form of the Gospel of Luke stands as the source of the second referent of *graphe* in 1 Tim 5:18 Second Swinson contends that *pasa graphe* in 2 Tim 3:16 includes the apostolic writings extant in Paul's day specifically Luke's Gospel and some of Paul's own writings These parallel lines of analysis demonstrate that Paul ascribes to his own writings and to those of his coworkers an authoritative standing equal to that of the sacred writings *ta hiera grammata* found in the Old Testament While many questions surrounding biblical authority and the biblical canon remain Paul's use of *graphe* in 1 and 2 Timothy nevertheless advances a high view of both Old Testament and New Testament Scripture

Remythologizing Theology Kevin J. Vanhoozer, 2010-01-14 The rise of modern science and the proclaimed death of God in the nineteenth century led to a radical questioning of divine action and authorship Bultmann's celebrated demythologizing *Remythologizing Theology* moves in another direction that begins by taking seriously the biblical accounts of God's speaking It establishes divine communicative action as the formal and material principle of theology and suggests that interpersonal dialogue rather than impersonal causality is the keystone of God's relationship with the world This original contribution to the theology of divine action and authorship develops a fresh vision of Christian theism It also revisits several long standing controversies such as the relations of God's sovereignty to human freedom time to eternity and suffering to love Groundbreaking and thought provoking it brings theology into fruitful dialogue with philosophy literary theory and biblical studies
