## Reflections And Comments 1865 To 1895:

Reflections and Comments, 1865-1895 Edwin Lawrence Godkin, 1895 Mr Froude's attempt to secure from the American public a favorable judgment on the dealings of England with Ireland has had one good result though we fear only one in leading to a little closer examination of the real state of American opinion about Irish grievances than it has yet received He will go back to England with the knowledge which he evidently did not possess when he came here that the great body of intelligent Americans care very little about the history of the six hundred years of wrong and know even less than they care and could not be induced except by a land grant or a bounty or a drawback to acquaint themselves with it that those of them who have ever tried to form an opinion on the Anglo Irish controversy have hardly ever got farther than a loose notion that England had most likely behaved like a bully all through but that her victim was beyond all question an obstreperous and irreclaimable ruffian whose ill treatment must be severely condemned by the moralist but over whom no sensible man can be expected to weep or sympathize *Reflections and Comments, 1865-1895* Edwin Lawrence Godkin, 2005 ,

*Annual Report of the Librarian of the Maine State Library for the Years...* Maine State Library, 1897      **Patricians, Professors, and Public Schools** Allan S. Horlick, 1994-04-01 Patricians Professors and Public Schools argues that the thinking behind efforts to reform American schools in the late nineteenth and early twentieth centuries emphasized two new ideas that economic growth and the opportunity it created were more limited than had earlier been thought and that popular aspirations should be revised downward accordingly After discussing the thinking that reformers reacted against in the first chapter of the book later chapters examine those most responsible for these new ideas especially Felix Adler and John Dewey These chapters argue that reformers' fears about the social dislocation stemming from economic growth makes the most sense of the educational redirection they promoted This is a new interpretation of developments that have long been debated by American historians and should be of interest to a wide variety of readers      Annual Report Helena (Mont.)
