Reflections In The Mirror Of Religion:

Reflections in the Mirror of Religion Ninian Smart, 1997 The essays selected for this volume represent Professor Ninian Smart's most contemporary reflections on major issues in the field of religious studies. Beginning with investigations into the possibility of a science of religion, Professor Smart then goes on to consider how a sociology of religious knowledge can be developed, focusing in particular on Asian cultures and traditions. Finally, he analyses the growth of religious studies as an academic field, a field his own work has helped to shape in a definitive way. **Ninian Smart on World Religions** John J.

Shepherd, 2017-11-30 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s. His pioneering views on education in religion proved hugely influential at all levels, from primary schools to academic teaching and research. An unending string of publications, many of them accessible to the general public, sustained a reputation that became worldwide. Here for the first time a selection of Ninian Smart's wide-ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century. The editor, John Shepherd, was Principal Lecturer in Religion and Philosophy at the University of Cumbria. He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster. *Ninian Smart on World Religions: Traditions and the challenges of modernity. Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches *Muslims as Actors* Jacques Waardenburg,2012-02-13 This book deals with Islamic studies and with the question how the scholarly study of religion can contribute to the study of Islam The author advocates studying Islamic phenomena as signs and symbols interpreted and applied in diverse ways in existing traditions He stresses the role of Muslims as actors in the ongoing debate about the articulation of Islamic ways of life and construction of Islam as a religion A careful study of this debate should steer clear of political religious and ideological interests Research in this area by Muslims and non Muslim scholars alike should address the question of what Muslims have made of their Islam in specific circumstances Current political contexts have created an unhealthy climate for pursuing an open approach to Islam based on reading observing listening and reflecting Yet precisely nowadays we need to look anew at ways of Muslim thinking and acting that refer to Islam and to avoid certain schemes of interpreting Muslim realities that are no longer adequate for present day Muslim life situations Muslim recourses to Islam can be studied as human constructions of value and meaning and relations between Muslims and others can be seen in terms of human interaction without blame

always falling on Islam as such *Maya Christians and Their Churches in Sixteenth-Century Belize* Elizabeth Graham, 2020-03-17 It is widely held that Christianity came to Belize as an extension of the conquest of Yucatan and that adherence to Christian belief and practice was abandoned in the absence of enduring Spanish authority An alternative view comes from the excavations of Maya churches at Tipu and Lamanai which show that the dead were buried in Christian churchyards long after the churches themselves fell into disuse and pre Columbian ritual objects were cached in Christian sacred spaces both during and after Spanish occupation Excavations also reveal that the architectural style of these early churches is Franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair A conclusion difficult to ignore is that the Maya of Tipu and Lamanai considered themselves Christians with or without Spanish presence Viewing historical and archaeological data through the lens of her personal experience of Roman Catholicism and informed by feminist approaches Elizabeth Graham assesses the concept of religion the significance of doctrine the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas objects and images by the Maya by Iberian Christians and by archaeologists Graham s provocative study also makes the case that the impact of Christianity in Belize was a phenomenon that uniquely shaped the development of the modern nation A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase *Early Religious Writings, 1903-1909* Pavel Florensky, 2017 Eight important early writings by twentieth century Russian Orthodox theologian Pavel Florensky Most of them presented in English translation for the first time Splendidly interweaving religious scientific and literary themes these essays showcase the diversity of Florensky s broad learning and interests and include his reflections on the sacraments Russian monastic culture and other topics The volume concludes with *The Salt of the Earth* arguably Florensky s most spiritually moving work Book jacket *Gender, Genre and Religion* Morny Joy, Eva K. Neumaier-Dargay, 2006-01-01 Many feminists today are challenging the outmoded aspects of both the conventions and the study of religion in radical ways Canadian feminists are no exception *Gender Genre and Religion* is the outcome of a research network of leading women scholars organized to survey the contribution of Canadian women working in the field of religious studies and further to plot the path forward This collection of their essays covers most of the major religious traditions and offers exciting suggestions as to how religious traditions will change as women take on more central roles Feminist theories have been used by all contributors as a springboard to show that the assumptions of unified monolithic religions and their respective canons is a fabrication created by a scholarship based on male privilege Using gender and genre as analytical tools the essays reflect a diversity of approaches and open up new ways of reading sacred texts Superb essays by Pamela Dickey Young Winnie Tamm Morny Joy and Marsha Hewitt among others honour the first generation of feminist theologians and situate the current generation showing how they have learned from and gone beyond their predecessors The sensitive and original essays in *Gender Genre and Religion* will be of interest to feminist scholars and to anyone teaching women and religion courses
