Ging, 2012-12-03 Spanning a broad trajectory from the New Gaelic Man of post independence Ireland to the slick urban gangsters of contemporary productions this study traces a significant shift from idealistic images of Irish manhood to a much more diverse and gender politically ambiguous range of male identities on the Irish screen **Masculinities and Manhood in Contemporary Irish Drama** Cormac O'Brien, 2021-12-10 This book charts the journey in terms of both stasis and change that masculinities and manhood have made in Irish drama and by extension in the broader culture and society from the 1960s to the present Examining a diverse corpus of drama and theatre events both mainstream and on the fringe this study critically elaborates a seismic shift in Irish masculinities This book argues then that Irish manhood has shifted from embodying and enacting post colonial concerns of nationalism and national identity to performing models of masculinity that are driven and moulded by the political and

cultural practices of neoliberal capitalism Masculinities and Manhood in Contemporary Irish Drama charts this shift through chapters on performing masculinity in plays set in both the Irish Republic and Northern Ireland and through several chapters that focus on Women's and Queer drama It thus takes its readers on a journey a journey that begins with an overtly patriarchal nationalist manhood that often made direct comment on the state of the nation and ultimately arrives at several arguably regressive forms of globalised masculinity which are couched in misaligned notions of individualism and free choice and that frequently perceive themselves as being in crisis

Wordplay and Metalinguistic / Metadiscursive Reflection Angelika Zirker,Esme Winter-Froemel,2015-10-16

Wordplay can be seen as a genuine interface phenomenon. It can be found both in everyday communication and in literary texts and it can fulfil a range of functions: it may be entertaining and comical; it may be used to conceal taboo and it may influence the way in which the speaker's character is perceived. Moreover, wordplay also reflects on language and communication: it reveals surprising alternative readings and emphasizes the phonetic similarity of linguistic signs that also points towards relations on the level of content. Wordplay unravels characteristics of literary language in everyday communication and opens up the possibility to analyze literary texts from a linguistic perspective. The first two volumes of the series *The Dynamics of Wordplay* therefore aim at bringing together contributions from linguistics and literary studies focusing on theoretical issues such as basic techniques of wordplay and its relationship to genres and discourse traditions. These issues are complemented by a series of case studies on the use of wordplay in individual authors and specific historical contexts. The contributions offer a fresh look on the multifaceted dynamics of wordplay in different communicative settings.

The King's Irishmen Mark Williams, 2014. A novel study of the political, religious and cultural worlds of the principal Irish figures at the exiled court of Charles II. **A History of Ireland in the Lives of Irishmen** James Wills, 1847.

Austerity and Irish Women's Writing and Culture, 1980-2020 Deirdre Flynn, Ciara L. Murphy, 2022-07-18. *Austerity and Irish Women's Writing and Culture 1980-2020* focuses on the under-represented relationship between austerity and Irish women's writing across the last four decades. Taking a wide focus across cultural mediums, this collection of essays from leading scholars in Irish studies considers how economic policies impacted on and are represented in Irish women's writing during critical junctures in recent Irish history. Through an investigation of cultural production north and south of the border, this collection analyses women's writing using a multimedia approach through four distinct lenses: austerity, feminism and conflict, arts and austerity, race and austerity, and spaces of austerity. This collection asks two questions: what sort of cultural output does austerity produce? And if the effects of austerity are gendered, then what are the gender-specific responses to financial insecurity, both national and domestic? By investigating how austerity is treated in women's writing and culture from 1980 to 2020, this collection provides a much-needed analysis of the gendered experience of economic crisis and specifically of Ireland's consistent relationship with cycles of boom and bust. Thirteen chapters which focus on fiction, drama, poetry, women's life writing, and women's cultural contributions examine these questions. This volume takes the reader on a journey across decades and forms as a means of interrogating the growth of the economic divide between the rich and the poor since the 1980s through the voices of Irish women.
