Who Count as Persons? John F. Kavanaugh, 2001-05-23 Just what is a human being Who counts The answers to these questions are crucial when one is faced with the ethical issue of taking human life In this affirmation of the intrinsic personal dignity and inviolability of every human individual John Kavanaugh S J denies that it can ever be moral to intentionally kill another Today in every corner of the world men and women are willing to kill others in the name of realism and under the guise of race class quality of life sex property nationalism security or religion We justify these killings by either excluding certain humans from our definition of personhood or by invoking a greater good or more pressing value Kavanaugh contends that neither alternative is acceptable He formulates an ethics that opposes the intentional killing not only of medically marginal humans but also of depersonalized or criminalized enemies Offering a philosophy of the person that embraces the undeveloped the wounded and the dying he proposes ways to recover a personal ethical stance in a global society that increasingly devalues the individual Kavanaugh discusses the work of a range of philosophers artists and activists from Richard Rorty and S ren Kierkegaard to Albert Camus and Woody Allen from Mother Teresa to Jack Keavorkian His approach is in stark contrast to that of writer Peter Singer and others who believe that not all human life has intrinsic moral worth It will challenge philosophers students of ethics and anyone concerned about the depersonalization of contemporary life

Exposing Mississippi Annette Trefzer, 2022-03-25 WINNER OF THE 2022 EUDORA WELTY PRIZE Internationally known as a writer Eudora Welty has as well been spotlighted as a talented photographer The prevalent idea remains that Welty simply took snapshots before she found her true calling as a renowned fiction writer But who was Welty as a photographer What did she see How and why did she photograph And what did Welty know about modern photography In Exposing Mississippi Eudora Welty's Photographic Reflections Annette Trefzer elucidates Welty's photographic vision and answers these questions by exploring her photographic archive and writings on photography The photographs Welty took in the 1930s and 40s frame her visual response to the cultural landscapes of the segregated South during the Depression The

photobook *One Time One Place* which was selected, curated and shaped into a visual narrative by Welty herself serves as a starting point and guide for the chapters on her spatial hermeneutic. The book is divided into sections by locations and offers how the framing of these areas reveals Welty's radical commentary of the spaces her camera captured. There are over eighty images in *Exposing Mississippi* including some never before seen archival photographs and sections of the book draw on over three hundred more. The chapters on institutional leisure and memorial landscapes address how Welty's photographs contribute to reflect on and intervene in customary visual constructions of the Depression era South.

Canonical Authors in Consumption Theory Søren Askegaard, Benoit Heilbrunn, 2017-12-14 *Canonical Authors in Consumption Theory* is the first work to compile the contributions of the greatest social thinkers in the global conversation about consumption and consumer culture. A prestigious reference work, it offers original chapters by the world's most prominent thought leaders and surveys how the work of historical theorists has influenced and shaped consumption theory both through history and at the cutting edge of research. Consumption is at the core of contemporary lifestyles, of political successes and failures and of discussions around sustainability and environmental change. Contemporary consumer culture shapes modern identities and is the engine of the globalizing capitalist economy. Still, most social theorizations over the last century and a half have addressed production processes rather than consumption processes. This is about to change. Studies of consumption play an increasing role as a topic and a domain of study in marketing, anthropology, sociology and cultural studies. Currently, there is no single compilation that systematically links scholarly work published by the greatest social thinkers of the last 150 years to the understanding of contemporary consumer society. This book provides a solid framework for understanding the relevance of these canonical authors in social theory to facilitate analysis of consumer culture and to act as a comprehensive reference point for consumer researchers, doctoral students and practitioners.

Explores debates about labor under capitalism and considers the relationship between divine and human work. Through a thorough reading of Weber's Protestant Work Ethic argues that the triumph of the spirit of utility is crucial to understanding modern notions of work. Draws on the work of various twentieth century Catholic thinkers including Josef Pieper, Jacques Maritain, Eric Gill and David Jones. Published in the new and prestigious Illuminations series.
