Reform And Development In Deng's China:

Political Economy Of Deng's Nanxun, The: Breakthrough In China's Reform And Development John Wong, 2014-03-12 This volume is about the political economy of Deng Xiaoping's Nanxun tour of South China which was the most critical phase in China's reform and development since 1978. The first round of Deng's reform resulted in high growth through the 1980s. However, it created a messy half-reformed economy with many problems, including the Tiananmen incident. The immediate aftermath of the Tiananmen was a collapse of economic growth and a reform deadlock. To break out from this low-level reform growth trap, Deng decided to launch the Nanxun, not just to reignite the reform but also to complete China's march towards a market economy. Looking back, the Nanxun led to the most crucial reform breakthrough, which in turn sparked off a dynamic reform growth nexus for China's eventual economic take-off. The chapters in this volume were originally policy reports on China meant for the Singapore government. These reports were written based on the information available at that time and reflected the prevailing political mood. Each chapter is accompanied by a detailed introduction that is aimed at providing a broad background for readers to better understand the Nanxun period. The introduction also serves as a post-evaluation of the events based on new information and shows how those events have evolved over the years. In combination, these chapters should piece together a reasonably realistic picture of the basic politics and economics of the crucial Nanxun period.

Reform and Development in Deng's China (Miller Center Series on Asian Political Leadership) Shao Chuan Leng, 1994-05-24 Looks back on the economic reforms and political liberalization that Deng Xiaoping instituted after his rise to power in 1978 and analyzes the effects these reforms will have on China's future. Contributors address subjects such as China's military reforms, changes in the legal system, China's role in world affairs, and Chinese society under Deng. Annotation copyright by Book News Inc, Portland, OR. *Ideology and Economic Reform Under Deng Xiaoping 1978-1993* Wei-Wei Zhang, 2013-02-01 First published in 1996. Is ideology still relevant in post-Mao China? Deng Xiaoping's wide-ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead, but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978. This study is an attempt to explore the interactions between major ideological currents and economic reforms. *The Nanxun Legacy And China's Development In The Post-deng Era* John Wong, Yongnian Zheng, 2001-06-14 In the spring of 1992, Deng Xiaoping made a historical tour of south China, popularly known as the Nanxun southern tour. During the tour, he boldly called for more radical economic reform and further opening up of China. The Nanxun has become a political landmark in the history of the People's Republic of China, much like great events such as the Great Leap Forward, the Cultural Revolution, and the 1989 Tiananmen crackdown. Deng Xiaoping has left his own legacy for the country. The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat-sen and the communist revolution to Mao Zedong. In this collection of articles, leading China scholars and experts analyze how the Nanxun has sparked off

dynamic economic growth in China and drastically changed the political and social landscape of the country
