Reform And Revolution In Communist Systems:

Reform and Revolution in Communist Systems Gary K. Bertsch,1991 **From Reform to Revolution** Minxin PEI,Minxin Pei,2009-06-30 This is the first comprehensive effort to compare the recent political experiences of the Union of Soviet Socialist Republics and the People s Republic of China by tracing their overlapping and diverging paths of regime change *From Reform to Revolution* Minxin Pei,1994 The author concludes with provocative statements about regime transition from communism He rejects the idealistic notion that democratization can by itself remove the structural obstacles to economic transformation and he sees high economic and political costs as unavoidable in transition from communism along either the Soviet or the Chinese path The Capitalist Transformation of State Socialism David Lane,2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism did not collapse but was consciously dismantled He brings out the West s decisive support of the reform process and Gorbachev s significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China

Marxism and Biblical Studies Christina Petterson,2020-04-20 In *Apostles of Revolution* Marxism and Biblical Studies Christina Petterson sheds light on the collaboration between Biblical studies and liberal ideology Marxist analysis of the bible

is spreading but clarity about what constitutes Marxist readings and Marxist categories of analysis is lacking a lack of clarity compounded by the different strands within Marxist politics and its subtle resonances in biblical scholarship The author examines the interplay between Biblical studies and liberal ideology in two ways First by presenting and discussing some of the central Marxist categories of analysis namely history ideology and class and how these categories have been co opted into biblical studies and in the process lost their radical edge Second by discussing the emergence of the discipline of biblical studies during the Enlightenment and to what extent the containment strategies of biblical studies overlap with those of capitalism
