**China's 40 Years of Fiscal and Tax Reform** Peiyong Gao,2018 The present paper describes the trajectory of China's fiscal and tax reform in the past 40 years which can be summarized in five phases The reform commenced with decentralizing power and transferring benefits Then under great fiscal pressure institutional reform was instigated which aimed to establish a new fiscal and tax system To regulate the government revenue and expenditure beyond the fiscal and tax system reforms were put in place to build an institutional framework for public finance As the fiscal and tax reform had gradually entered the more sophisticated phases China took a

series of measures to further improve the public finance system Since 2012 based on the overall plan of comprehensively deepening reform China has embarked on establishing a modern public finance system The present paper characterizes China's fiscal and tax reform as gradually moving toward a system that aligns with the overall reform and complements the goal of marketization and modernization of state governance

China's Future : The Path to Prosperity and Peace Jin Canrong, China's Fiscal System Richard M. Bird, 2008 We argue in this paper that unless China begins to tackle more systematically the serious problems that have emerged in the finances of its various levels of sub national government the problems to which the present unsatisfactory system give rise will over time increasingly distort resource allocation increase distributional tensions and slow down the impressive recent growth of the Chinese economy The evidence available is generally consistent with this pessimistic reading China's fiscal future thus rests to some extent on reforms to key aspects of its fiscal system especially its intergovernmental finances Given the scale and scope of China's underlying public finance problems the reactive gradualism evidenced in recent ad hoc reforms to this or that piece of the fiscal system has we suggest run its course

*China* Weltbank, 2012 This report aims to assist the government in improving implementation of the New Socialist Countryside NSC program especially in raising the effectiveness of public expenditures and the harmonization of public finance While this report pays particular attention to rural aspects of public finance it addresses this topic within the overall framework of intergovernmental finance that impacts both rural and urban areas Similarly the discussions and recommendations in this report are intended to move the system towards one that is harmonized and does not differentiate between rural and urban areas The structure of this report is as follows Chapter 2 analyzes the considerable number of reform efforts that have been introduced to the rural public finance system It looks at the RFR in depth as well as other associated and related reforms and evaluates the overall outcome of these reforms Chapter 3 provides an overview of China's intergovernmental system as the framework for rural public finance It includes an analysis of the expenditure and revenue assignments and their development and the impact on rural public finance The transfer system an integral part of the intergovernmental fiscal system is treated separately in Chapter 4 because of its overwhelming importance for rural public finance The chapter analyzes how far the transfer system goes in addressing the fiscal imbalances and providing the necessary public funds for rural areas It also assesses the role of earmarked transfers Chapter 5 then looks at the public finance situation at the grassroots level i.e. the financing of villages townships and counties including how recent developments have impacted their situation and what remaining issues exist at

these levels Finally Chapter 6 summarizes the findings of this study proposes a strategy for policy reforms and suggests ideas for its implementation      **A History of Chinese Thoughts on Public Finance** Wenxue Sun,Haipeng Qi,2021-04
