Grace Hartigan and Helene Herzbrun ,2019-09-03 *Men Only. Abstract Expressionism with regard to issues of race and gender* Sandra Kuberski, 2014-12-15 Essay from the year 2012 in the subject Art History of Art grade 13 University of Essex Art History course Art in the USA language English abstract Abstract Expressionism is often referred to as the most powerful original movement in the history of American art which dominated American painting from the end of World War II In examining its styles and themes this essay is going to illustrate why the movement is deemed a modern and American art practice Considering paintings of Jackson Pollock 1912 1956 Willem de Kooning 1904 1997 Mark Rothko 1903 1970 and Barnett Newman 1905 1970 specific attention will be drawn to issues of race and gender Between You and Me Gavin Butt, 2005-09-20 A reconsideration of queer American art culture of the mid twentieth century *AngloModern* Janet Wolff, 2018-05-31 Early twentieth century art and art practice in Britain and the United States were Janet Wolff asserts marginalized by critics and historians in very similar ways after the rise of post Cubist modern art In a masterly book on the sociology of modernism Wolff explores work that was primarily realist and figurative and investigates the social institutional

political and aesthetic processes by which that art fell by the wayside in the postwar period Throughout she shows that questions of gender and ethnicity play an important role in critical curatorial and historical evaluations For example Wolff finds that the work of the artists central to the development of the Whitney Museum was relegated to a secondary status in the postwar period when realism was labeled feminine in contrast to the aggressive masculinity of abstract expressionism The three key periods considered in *AngloModern* are the early twentieth century when modernist art and existing and new realist traditions coexisted in a certain tension the postwar period in which modernism claimed superiority over realism and the late twentieth century when a retrieval of the realist and figurative traditions seemed to occur Wolff concludes by considering this re emergence as well as the limitations of earlier discussions of the struggles of realist and figurative art to endure the currents of modernism

Ideology and Rhetoric Bożenna Chylińska, 2009-01-14 The discovery of America and its further development into a modern state and a nation are the clear instance of how ideology and rhetoric are entwined and how they can encompass widely disparate viewpoints The essays collected in this book address the topical issues of modern American Studies cultural difference and otherness gender race and ethnicity class and power They represent new texts and contexts approached through the revision reevaluation and reconfiguration of canons thus accommodating the expectations of the heterodox audience Femininity reconsidered an ideology of passing away in contemporary world of technical development race captured within the framework of identity and gender the rhetoric of blackness approached through racial exploitation American conquest ideology revealed in a mission of Manifest Destiny the 20th century assimilation rhetoric in the relations between Native Americans and the US federal government the conservative ideology and apologetic rhetoric of the Antebellum South the critique of the 21st century American legal system the evolution of the presidential rhetoric which today addresses a large heterogeneous audience all these topics impose a transnational interpretation of American culture which developed as a result of the cross cultural transformation of European culture cultures moulded on American soil to finally become a unique reformulation of the very idea of America itself

Existential America George Cotkin, 2003 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus

Vincente Minnelli Joe McElhaney, 2009 This text offers a comprehensive scholarly examination of Vincente Minnelli one of American cinema's central filmmakers The book demonstrates the sustained rigour of Minnelli's vision
