Berlin, Paul J. Kosmin, 2021-03-31 A focused interdisciplinary examination of a tumultuous history making era The Middle Maccabees lays out the charged complicated beginnings of the independent Jewish state founded in the second century BCE Contributors offer focused analyses of the archaeological epigraphic numismatic and textual evidence framed within a wider world of conflicts between the Ptolemies of Egypt the Seleucids of Syria and the Romans The result is a holistic view of the Hasmonean rise to power that acknowledges broader political developments evolving social responses and the particularities of local history Contributors include Uzi Ad Donald T Ariel Andrea M Berlin Efrat Bocher Altay Co kun Benedikt Eckhardt Gerald Finkielsztejn Christelle Fischer Bovet Yuval Gadot Erich Gruen Sylvie Honigman Jutta Jokiranta Paul J Kosmin Uzi Leibner Catharine Lorber Duncan E MacRae Dvir Raviv Helena Roth D bora Sandhaus Yiftah Shalev Nitsan Shalom Danny Syon Yehiel Zelinger and Ayala Zilberstein Features Up to date generously illustrated essays analyzing the relevant archaeological remains A revised understanding of how local and imperial histories overlapped and intersected New analysis of the book of 1 Maccabees as a tool of Hasmonean strategic interest The Origins of Money in the Iron Age Mediterranean World Elon D. Heymans, 2021-08-26 This book reconstructs the origins and spread of precious metal money in the Iron Age eastern Mediterranean 1200 600 BCE **The Origin of Israelite Zion Theology** Antti Laato, 2018-08-23 In this examination of Zion theology and how it arises in the book of Psalms Antti Laato's starting point is that the Hebrew Bible is the product of the exilic and postexilic times which nonetheless contains older traditions that have played a significant role in the development of the text Laato seeks out these older mythical traditions related to Zion using a comparative methodology and looking at Biblical traditions alongside Ugaritic texts and other ancient Near Eastern material As such Laato provides a historical background for Zion theology which he can apply more broadly to the Psalms In addition Laato argues that Zion related theology in the Psalms is closely related to two events recounted in the Hebrew Bible First the architectural details of the Temple of Solomon 1 Kings 6 7 which can be compared with older mythical Zion related traditions Second the religious traditions related to the reigns of David and Solomon such as the Ark Narrative which ends with David's transfer of the Ark to Jerusalem 2 Sam 6 From this Laato builds an argument for a possible setting in Jerusalem at the time of David and Solomon for the Zion theology that emerges in the Psalms **Jews and Samaritans** Gary N. Knoppers, 2013-05-02 Winner of the R B Y Scott Award from the Canadian Society of Biblical Studies Even in antiquity writers were intrigued by the origins of the people called Samaritans living in the region of ancient Samaria near modern Nablus The Samaritans practiced a religion almost identical to Judaism and shared a common set of scriptures Yet the

Samaritans and Jews had little to do with each other In a famous New Testament passage about an encounter between Jesus and a Samaritan woman the author writes Jews do not share things in common with Samaritans The Samaritans claimed to be descendants of the northern tribes of Joseph Classical Jewish writers said however that they were either of foreign origin or the product of intermarriages between the few remaining northern Israelites and polytheistic foreign settlers Some modern scholars have accepted one or the other of these ancient theories Others have avidly debated the time and context in which the two groups split apart Covering over a thousand years of history this book makes an important contribution to the fields of Jewish studies biblical studies ancient Near Eastern studies Samaritan studies and early Christian history by challenging the oppositional paradigm that has traditionally characterized the historical relations between Jews and Samaritans

The Samaritans in Flavius Josephus Reinhard Pummer, 2009 The first century C E Jewish historian Flavius Josephus is our main source of information for the early history of the Samaritans a community closely related to Judaism whose development as an independent religion is commonly dated in the Hellenistic Roman period Josephus two main works Jewish War and Jewish Antiquities contain a number of passages that purport to describe the origin character and actions of the Samaritans In composing his histories Josephus drew on different sources some identifiable others unknown to us Contemporary Josephus research has shown that he did so not as a mere compiler but as a creative writer who selected and quoted his sources carefully and deliberately and employed them to express his personal views Rather than trying to isolate and identify Josephus authorities and to determine the meaning these texts had in their original setting Reinhard Pummer examines what Josephus himself intended to convey to his audience when he depicted the Samaritans in the way he did He attempts to combine composition criticism and historical research and argues that the differences in Josephus portrayal of the Samaritans in War on the one hand and in Antiquities on the other are due to the different aims the historian pursued in the two works

Biblical Narratives, Archaeology and Historicity Emanuel Pfoh, Lukasz Niesiolowski-Spanò, 2019-11-14 This volume collects essays from an international body of leading scholars in Old Testament studies focused upon the key concepts of the question of historicity of biblical stories the archaeology of Israel Palestine during the Bronze and Iron Ages and the nature of biblical narratives and related literature As a celebration of the extensive body of Thomas L Thompson's work these essays enable a threefold perspective on biblical narratives Beginning with method the contributors discuss archaeology cultural memory epistemology and sociology of knowledge before moving to history historiography and archaeology and close analysis of the Qumran Writings Josephus and biblical rewritings Finally the argument turns to the narratives themselves exploring topics including the possibility of invented myth the genre of Judges and the depiction of Moses in the Qur'an Presenting an interdisciplinary analysis of the historical issues concerning ancient Israel Palestine this volume creates an updated body of reference to fifty years worth of scholarship

The Boundaries of Jewishness in the Southern Levant 200 BCE-132 CE John Van Maaren, 2022-06-06 Recent research has considered how changing imperial

contexts influence conceptions of Jewishness among ruling elites esp Eckhardt Ethnos und Herrschaft 2013 This study integrates other often marginal conceptions with elite perspectives It uses the ethnic boundary making model an empirically based sociological model to link macro level characteristics of the social field with individual agency in ethnic construction It uses a wide range of written sources as evidence for constructions of Jewishness and relates these to a local specific understanding of demographic and institutional characteristics informed by material culture The result is a diachronic study of how institutional changes under Seleucid Hasmonean and Early Roman rule influenced the ways that members of the ruling elite retainer class and marginalized groups presented their preferred visions of Jewishness These sometimes competing visions advance different strategies to maintain rework or blur the boundaries between Jews and others The study provides the next step toward a thick description of Jewishness in antiquity by introducing needed systematization for relating written sources from different social strata with their contexts

The Bible Among Ruins Daniel

Pioske,2023-10-12 Biblical writers lived in a world that was already ancient The lands familiar to them were populated throughout by the ruins of those who had lived two thousand years earlier References to ruins abound in the Hebrew Bible attesting to widespread familiarity with the material remains by those who wrote these texts Never however do we find a single passage that expresses an interest in digging among these ruins to learn about those who lived before Why In this book Daniel Pioske offers the first study of ruination in the Hebrew Bible Drawing on scholarship in biblical studies archaeology contemporary historical theory and philosophy he demonstrates how the ancient experience of ruins differed radically from that of the modern era For biblical writers ruins were connected to temporalities of memory presence and anticipation Pioske s book recreates the encounter with ruins as it was experienced during antiquity and shows how modern archaeological research has transformed how we read the Bible

A History of the Jews and Judaism in the Second Temple Period, Volume 2 Lester L. Grabbe,2011-10-27

This is the second volume of the projected four volume history of the Second Temple period It is axiomatic that there are large gaps in the history of the Persian period but the early Greek period is possibly even less known This volume brings together all we know about the Jews during the period from Alexander s conquest to the eve of the Maccabean revolt including the Jews in Egypt as well as the situation in Judah Based directly on the primary sources which are surveyed the study addresses questions such as administration society religion economy jurisprudence Hellenism and Jewish identity These are discussed in the context of the wider Hellenistic world and its history A strength of the study is its extensive up to date secondary bibliography approximately one thousand items

A New Reading of the Animal Apocalypse of 1 Enoch ,2013

A New Reading of the Animal Apocalypse of 1 Enoch is the most comprehensive theological commentary on this important second century BCE Jewish apocalypse to date laying out the purpose and methodology of this Enochic allegory and using this as the basis for a new commentary on the whole text presented here in a fresh translation Against other interpretations that focus on Israel and its institution Daniel Olson argues

that the promise of universal blessing in the Abrahamic covenant is presented in the Animal Apocalypse as the governing dynamic in a sacred history that begins and ends with humanity in general The authentic Jacob Israel will appear in the end times and be the catalyst of universal salvation Book jacket **A New Critical Approach to the History of Palestine** Ingrid Hjelm, Hamdan Taha, Ilan Pappé, Thomas L. Thompson, 2019-06-07 A New Critical Approach to the History of Palestine discusses prospects and methods for a comprehensive evidence based history of Palestine with a critical use of recent historical archaeological and anthropological methods This history is not an exclusive history but one that is ethnically and culturally inclusive a history of and for all peoples who have lived in Palestine After an introductory essay offering a strategy for creating coherence and continuity from the earliest beginnings to the present the volume presents twenty articles from twenty two contributors fifteen of whom are of Middle Eastern origin or relation Split thematically into four parts the volume discusses ideology national identity and chronology in various historiographies of Palestine and the legacy of memory and oral history the transient character of ethnicity in Palestine and questions regarding the ethical responsibilities of archaeologists and historians to protect the multi ethnic cultural heritage of Palestine landscape and memory and the values of community archaeology and bio archaeology and an exploration of the ideology of the land and its influence on Palestine s history and heritage The first in a series of books under the auspices of the Palestine History and Heritage Project PaHH the volume offers a challenging new departure for writing the history of Palestine and Israel throughout the ages A New Critical Approach to the History of Palestine explores the diverse history of the region against the backdrop of twentieth century scholarly construction of the history of Palestine as a history of a Jewish homeland with roots in an ancient biblical Israel and examines the implications of this ancient and recent history for archaeology and cultural heritage The book offers a fascinating new perspective for students and academics in the fields of anthropological political cultural and biblical history

Samaritans Waltraud Winkler, 2010 The volume reflects the current state of research on the Samaritans It presents a wide spectrum of approaches including historical questions the political religious and social context of the Samaritans in the past and present linguistic approaches the role of the Samaritans in the Talmudic literature and questions of identity of the Samaritans up to now Book Jacket **Donkeys in the Biblical World** Kenneth C. Way, 2011-06-30 In this volume Kenneth Way explores the role of donkeys in the symbolism and ceremonies of the biblical world His study stands alone in providing a comprehensive examination of donkeys in ancient Near Eastern texts the archaeological record and the Hebrew Bible Way demonstrates that donkeys held a distinct status in the beliefs and rituals of the ancient Near East and especially Canaan Israel The focus on ceremony and symbol encompasses social and religious thoughts and practices that are reflected in ancient texts and material culture relating to the donkey Ceremonial considerations include matters of sacrifice treaty ratification consumption death burial scapegoat rituals and foundation deposits symbolic considerations include matters of characterization association function behavior and iconographic depiction However the distinction between ceremony and

symbol is not strict In many cases these two categories are symbiotic The need for this study on donkeys is very apparent in the disciplines that study the biblical world There is not a single monograph or article that treats this subject comprehensively Philologists have discussed the meaning of the Amorite phrase to kill a jackass and archaeologists have discussed the phenomenon of equid burials But until now neither philologists nor archaeologists have attempted to pull together all the ceremonial and symbolic data on donkeys from burials ancient Near Eastern texts and the Hebrew Bible Way s study fills this void

Shifting Sands Thomas W. Davis, 2004-03-04 Before the 1970s biblical archaeology was the dominant research paradigm for those excavating the history of Palestine Today this model has been weighed in the balance and found wanting Most now prefer to speak of Syro Palestinian archaeology This is not just a nominal shift but reflects a major theoretical and methodological change It has even been labeled a revolution In the popular mind however biblical archaeology is still alive and well In *Shifting Sands* Thomas W Davis charts the evolution and the demise of the discipline Biblical archaeology he writes was an attempt to ground the historical witness of the Bible in demonstrable historical reality Its theoretical base lay in the field of theology American mainstream Protestantism strongly resisted the inroads of continental biblical criticism and sought support for their conservative views in archaeological research on the ancient Near East The Bible was the source of the agenda for biblical archaeology an agenda that was ultimately apologetical Davis traces the fascinating story of the interaction of biblical studies theology and archaeology in Palestine and the remarkable individuals who pioneered the discipline He highlights the achievements of biblical archaeologists in the field who gathered an immense body of data By clarifying the theoretical and methodological framework of the original excavators he believes these data can be made more useful for current research allowing a more sober reasoned judgment of both the accomplishments and the failures of biblical archaeology
