Shen Pu Hai A Chinese Political Philosopher Of The Fourth Century Bc:

Shen Pu-hai, a Chinese political philosopher of the fourth century B.C. Herrlee Glessner Creel, 1974 Shen Pu-hai Herrlee Glessner Creel, 1974 Peace in the Ancient World Kurt A. Raaflaub, 2016-05-23 Peace in the Ancient World Concepts and Theories conducts a comparative investigation of why certain ancient societies produced explicit concepts and theories of peace and others did not Explores the idea that concepts of peace in antiquity occurred only in periods that experienced exceptional rates of warfare Utilizes case studies of civilizations in China India Egypt and Greece Complements the 2007 volume War and Peace in the Ancient World drawing on ideas from that work and providing a more comprehensive examination Collected Writings on Chinese Culture Tsuen-hsuei Tsien, 2011 Focuses on such topics as Chinese documents Chinese paper ink making printing cultural exchange libraries and biographies *Transformations Of The Confucian Way* John Berthrong, 2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world John Berthrong's comprehensive new work tells the story of the grand intellectual development of the Confucian tradition revealing all the historical phases of Confucianism and opening the reader's eyes to the often neglected gifts of scholars of the Han T'ang and the modern periods as well as to the vast contributions of Korea and Japan The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West **The Mythistorical Chinese Scholar-Rebel-Advisor Li Yan** Roger V. Des Forges, 2020-03-09 Roger Des Forges here examines the puzzle of Li Yan a Chinese scholar who advised the rebel Li Zicheng 1605-1645 and helped him to overthrow the Ming only to die at his hands For more than three centuries Li Yan's identity and even existence were seriously questioned Then in 2004 there was discovered a genealogical manuscript which includes a Li Yan 1606-1644 He now appears to be the principal historical reality behind the Li Yan story which became a powerful metaphor for the rise and fall of Li Zicheng's rebellion Offering a fresh theory of Chinese and world history the author elucidates Li Yan's historical significance by comparing and contrasting him with similar figures in other times and places around the globe *A Madman of Chu* Laurence A. Schneider, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980 **K'ung-tz'ung-tzu** Yoav Ariel, 2014-07-14 In analyzing evidence indicating that K'ung-tz'ung-tzu was a forgery Yoav Ariel questions current views of the Confucian school in the time between the Sage's death in the fifth century B.C. and the emergence in the eleventh century of Neo Confucianism The text traditionally ascribed to a descendant of Confucius K'ung Fu 264-208 B.C. provides a setting for a series of philosophical debates between K'ung family members and representatives of such non Confucian schools as Legalism Mohism and the School of Names However finding that this

text was probably fabricated by the controversial Confucian master Wang Su A D 195 256 Ariel explains how it sheds light on the third century philosophical milieu Confucianism then is seen to have been not only Taoistically metaphysical individualistic and escapist but also aggressive in advocating early Confucian values The first part of Ariel s book deals with the general characteristics history dating authenticity and authorship of the text The second part is a fully annotated and analyzed translation of the first of the two traditional volumes that constitute the K ung ts ung tzu Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Adapting Mercedes Valmisa,2021-08-06 If you are from the West it is likely that you normally assume that you are a subject who relates to objects and other subjects through actions that spring purely from your own intentions and will Chinese philosophers however show how mistaken this conception of action is Philosophy of action in Classical China is radically different from its counterpart in the Western philosophical narrative While the latter usually assumes we are discrete individual subjects with the ability to act or to effect change Classical Chinese philosophers theorize that human life is embedded in endless networks of relationships with other entities phenomena and socio material contexts These relations are primary to the constitution of the person and hence acting within an early Chinese context is interacting and co acting along with others human or nonhuman This book is the first monograph dedicated to the exploration and rigorous reconstruction of an extraordinary strategy for efficacious relational action devised by Classical Chinese philosophers one which attempts to account for the interdependent and embedded character of human agency what Mercedes Valmisa calls adapting or adaptive agency yin As opposed to more unilateral approaches to action conceptualized in the Classical Chinese corpus such as forceful and prescriptive agency adapting requires heightened self and other awareness equanimity flexibility creativity and response These capacities allow the agent to co raise courses of action ad hoc unique and temporary solutions to specific non permanent and non generalizable life problems Adapting is one of the world s oldest philosophies of action and yet it is shockingly new for contemporary audiences who will find in it an unlikely source of inspiration to cope with our current global problems This book explores the core conception of adapting both on autochthonous terms and by cross cultural comparison drawing on the European and Analytic philosophical traditions as well as on scholarship from other disciplines Valmisa exemplifies how to build meaningful philosophical theories without treating individual books or putative authors as locations of stable intellectual positions opening brand new topics in Chinese and comparative philosophy

Writing Chinese Laws Ernest Caldwell,2018-05-23 The legal institutions of the short lived Qin dynasty 221 207 BCE have been vilified by history as harsh and draconian Yet ironically many Qin institutional features such

as written statutory law were readily adopted by subsequent dynasties as the primary means for maintaining administrative and social control This book utilizes both traditional texts and archeologically excavated materials to explore how these influential Qin legal institutions developed First it investigates the socio political conditions which led to the production of law in written form It then goes on to consider how the intended function of written law influenced the linguistic composition of legal statutes as well as their physical construction Using a function and form approach it specifically analyses the Shuihudi legal corpus However unlike many previous studies of Chinese legal manuscripts which have focused on codicological issues of transcription and translation this book considers the linguistic aspects of these manuscripts and thus their importance for understanding the development of early Chinese legal thought Writing Chinese Laws will be useful to students and scholars of Chinese Studies as well as Asian law and history more generally
