Claimed by the Sea - Long Island Shipwrecks Adam M.

Grohman,2008-06-02 *Claimed by the Sea Long Island Shipwrecks* provides an intimate look at eleven shipwrecks and maritime disasters that occurred in the waters of New York and Long Island Diver researcher and author Adam Grohman dives into the archives to explore the histories of various wrecks including the Savannah Lexington U S S Ohio Circassian Seawanhaka Oregon Louis V Place General Slocum U S S San Diego Andrea Doria and the Gwendoline Steers The chapters provide an in depth history of the vessel the circumstances surrounding their eventual demise and subsequent exploration by divers and explorers *Claimed by the Sea* is heavily illustrated and contains extensive footnotes source listings and several appendices including a glossary of nautical and diving terminology *Claimed by the Sea* is an excellent opportunity for armchair historians and seasoned underwater explorers to dip beneath the waves of history to explore the tragedy and triumph of man versus the sea

Maritime Science and Technology: Changing Our World Nigel Watson,2015-01-01

This book addresses some key questions Did the marine sector drive the developing technologies Or did it just adopt them It would appear that the former is the case as the industry has moved from sail to steam from steam to internal combustion engines from wood to steel and to increasing sizes and types of specialist vessels the pioneers of naval architects and marine engineers have applied the latest technologies and our global society has benefited

The Navies of Rome Michael Pitassi,2010 fleet of warships numerically far larger than anything in existence today And yet this fascinating aspect of Roman rule has remained largely unstudied Structured around a detailed chronology of the establishment development and eventual decline of Rome s sea going forces this work examines the role of naval warfare in the construction of Europe s first great empire Bringing together archaeological pictorial and documentary evidence it suggests many new avenues for research and highlights a long overlooked arena of naval scholarship Book Jacket

The Tentacles of Progress Daniel R.

Headrick,1988-03-10 This penetrating examination of a paradox of colonial rule shows how the massive transfers of technology including equipment techniques and experts from the European imperial powers to their colonies in Asia and Africa resulted not in industrialization but in underdevelopment Examining the most important technologies shipping and railways telegraphs and wireless urban water supply and sewage disposal economic botany and plantation agriculture irrigation and mining and metallurgy Headrick provides a new perspective on colonial economic history and reopens the debate on the roots of Asian and African underdevelopment

These Are The Voyages Arnold van Beverhoudt,2011-02-03

Compiled from documents in naval and aerospace museums around the world this is a unique look at the ships of sea air and space that have carried the name Enterprise a name with a heritage spanning more than 800 years For the first time it s all here in one concise volume o A detailed 130 page narrative history of the ships and their heroic crews o More than 80

illustrations including official photographs and ship profile drawings o An appendix listing more than 190 vessels named Enterprise o Extensive notes and a bibliography listing more than 110 sources for further reference This isn't just a book of facts and figures but a stirring tale of adventure discovery and courage often told in the words of those who were there This revised 2nd edition updates the stories of the naval vessels through the deactivation of the aircraft carrier USS Enterprise CVN 65 and the latest adventures of the starships Enterprise Come and relive the epic voyages *Selected Library Acquisitions* United States. Department of Transportation, All Things Medieval Ruth A. Johnston, 2011-08-15 This insightful survey of the things of medieval Europe allows modern readers to understand what they looked like what they were made of how they were created and how they were used All Things Medieval An Encyclopedia of the Medieval World covers the widest definition of medieval Europe possible not by covering history in the traditional textbook manner of listing wars leaders and significant historic events but by presenting detailed alphabetical entries that describe the artifacts of medieval Europe By examining the hidden material culture and by presenting information about topics that few books cover pottery locks and keys shoes weaving looms barrels toys pets ink kitchen utensils and much more readers get invaluable insights into the nature of life during that time period and area The heartland European regions such as England France Italy and Germany are covered extensively and information regarding the objects of regions such as Byzantium Muslim Spain and Scandinavia are also included For each topic of material culture the entry considers the full scope of the medieval period roughly 500 1450 to give the reader a historical perspective of related traditions or inventions and describes the craftsmen and tools that produced it **Air University Library Index to Military Periodicals**, 1976 The American-built Clipper Ship, 1850-1856 William L. Crothers, 1997 The American Built Clipper Ship presents in detail 152 clippers that comprise the culmination of the shipbuilder's art Every facet of clipper ship design and construction is covered from felling timber to details on interior finish work Detailed drawings illustrate this work Human Factors for Naval Marine Vehicle Design and Operation Jonathan M. Ross, 2017-03-02 There is a driving need for naval professionals to focus on human factors issues The number of maritime accidents is increasing and the chief cause is human error both by the designer and the operator Decreasing crew size lack of experienced operators operations in higher sea states and fatigue worsen the situation Automation can be a partial solution but flawed automated systems actually contribute to accidents at sea Up to now there has been no overarching resource available to naval marine vehicle designers and human factors professionals which bridges the gap between the human and the machine in this context Designers understand the marine vehicle human factors professionals understand how a particular environment affects people Yet neither has a practical understanding of the other's field and thus communicating requirements and solutions is difficult This book integrates knowledge from numerous sources as well as the advice of a panel of eight recognized experts in the fields of related research development and operation The result is a reference that bridges the communications gap and stands to help enhance the design and

operation of all naval marine vehicles *Storyboards: Motion In Art* Mark A. Simon, 2012-12-12 Among the most useful tools in the production of any TV show or film is the storyboard which is the visual blueprint of a project before it is shot The director's vision is illustrated in the manner of a comic strip and handed on to the crew for purposes of budgeting design and communication Storyboards Motion in Art 3 e is an in depth look at the production and business of storyboards Using exercises real life examples of working in the entertainment industry interviews with people in the industry and sample storyboard drawing this book will teach you how to Develop and Improve your boards Work with directors Develop your resume and your portfolio Market your talent Create and improve a storyboard using computers Packed full of practical industry information and examples this book will help the reader improve their skills to either land their first assignment or advance their career **Straits of Malacca** Donald B. Freeman, 2003-04-17 Casting a broad net across several disciplines particularly geography and political economy Donald Freeman examines the significance of the Straits as both a trade gateway and a choke point that has forced generations of sailors to run the gauntlet Rather than the more conventional historical narrative approach he offers an innovative adoption of an interdisciplinary analytical perspective through his use of detailed case studies of trading systems and shipping hazards United States Admiralty Law Gerard J. Mangone, 2023-09-14 Knowledge about the application of law to maritime commerce not only may prove financially profitable but also provides an exciting intellectual trip through the historical and legal developments behind commercial activities that depend upon the sea This work analyzes the growth and formation of maritime law across the centuries including its origin as England's admiralty law and its adoption into the United States Constitution It sets out information on the jurisdiction and law appropriate for the carriage of goods by sea personal injuries and death collisions salvage and wrecks marine insurance and marine pollution Lawyers professors and students of law and anyone involved in marine transportation carriers shippers port managers freight forwarders and others will appreciate this book's succinct and readable style It includes references to statutes conventions and cases including some historical and social background to enliven and clarify the development of admiralty and maritime law in the United States **Library Journal** ,1976 *Invasive Species and Biodiversity Management* Odd Terje Sandlund, Peter Johan Schei, Åslaug Viken, 2001-06-30 Based on a selection of papers presented at the Norway UN Conference on Alien Species Trondheim Norway **The Review of Reviews** William Thomas Stead, 1927
