**Ships and Shipwrecks of the Early Stuart Dynasty** James D. Taylor Jr.,2023-10-01 This unique book encompasses in a single volume data including lists of ships and ship types in the service of King James I and Charles I as well as the East India Company The bare facts are enlivened by logs and narratives from shipwreck survivors relating the perils of seeking the Northwest Passage or sailing to India The author has found that many facts have been distorted on informative websites as a result of incomplete and embellished information This book attempts to correct those errors For each of the wrecks contained in this book Mr Taylor has attempted if the wording of the documents is ambiguous to determine the fate of these ships based on only the facts as they were recorded at the time If in doubt he would explain his reasoning In his efforts to collect and share all sailing and wreck related data in this volume Mr Taylor has reviewed hundreds of electronic and hard copy manuscript archival collections and travelled to view rare and wonderful sometimes hand illuminated manuscripts that have not been digitized However as much as he would like to believe he has uncovered everything it is easy to imagine that more details could come to light at some time Treasure has different meanings to different people Some of these wrecks contain Spanish reales pieces of 8 jewels gold and silver bars that could not be recovered at the time and have since been forgotten Written records of such events were reviewed by fewer people over the centuries and ended up buried in dark archives until now But some of us define treasure as knowledge ensuring that facts are presented correctly to future generations This is the goal Mr Taylor strives for in these volumes

Shipwrecks and the Bounty of the Sea David Cressy, 2022-08-11 Shipwrecks and the Bounty of the Sea is a work of social history examining community relationships law and seafaring over the long early modern period It explores the politics of the coastline the economy of scavenging and the law of wreck of the sea from the beginning of the reign of Elizabeth I to the end of the reign of George II England's coastlines were heavily trafficked by naval and commercial shipping but an unfortunate percentage was cast away or lost Shipwrecks were disasters for merchants and mariners but opportunities for shore dwellers As the proverb said it was an ill wind that blew nobody any good Lords of manors local officials officers of the Admiralty and coastal commoners competed for maritime cargoes and the windfall of wreckage which they regarded as providential godsend or entitlements by right A varied haul of commodities wines furnishings and bullion came ashore much of it claimed by the crown The people engaged in salvaging these wrecks came to be called wreckers and gained a reputation as violent and barbarous plunderers Close attention to statements of witnesses and reports of survivors shows this image to be largely undeserved Dramatic evidence from previously unexplored manuscript sources reveals coastal communities in action collaborating as well as competing as they harvested the bounty of the sea

*Shipwrecks of the Isle of Wight* Ken Phillips, 1988

The Wrecks of HM Frigates Assurance (1753) and Pomone (1811) John Bingeman, Paul Simpson, David Tomalin, 2021-03-23 With the thought of treasure Isle of Wight islander Derek Williams researched ancient local wreck records Top of his extensive wreck list was the 40 gun frigate Assurance lost in 1753 while returning from Jamaica with Governor Trelawny on board whose story possibly inspired Robert Louis Stevenson to write Treasure Island Derek's first dive at the western point of the Isle of Wight called The Needles put him on top of cannons various wreckage and Spanish American Pieces of Eight all scattered at the foot of the rock face He reported this

astonishing discovery to the authorities which resulted in the site being designated the 6th British historic protected wreck site. When the authorities decided that further professional help was needed, author and diver John Bingeman supplied his Portsmouth Royal Naval diving team and together with David Tomalin, County Archaeologist, developed the full potential of this important site. Over the next nine years, John Bingeman's team conducted annual visits to excavate the site; they successfully recovered 3 471 artifacts, including cannon weighing 1 tons. Some of these cannon post-dated the Assurance, leading to the identification of a second 38 gun frigate, the Pomone, lost in 1811. Her Captain Robert Barrie's extensive correspondence was discovered by Paul Simpson to have been archived by Duke University, North Carolina. It features Pomone's continuous actions during the French Napoleonic wars, followed by his appointment to the 74 gun Dragon, when he saw action in Chesapeake Bay during the 1812-15 war with the USA. Returning to North America as Senior Naval Officer, Canada, Commodore Barrie made quite a name for himself, improving the political relationship between the USA and Canada; he is remembered by the Canadian City named Barrie. Previously unresearched archaeological finds are featured, including the development of rigging blocks, gunlocks, military buttons, and ship's chain pumps, all superbly illustrated, as well as the results of research into numerous other artifacts of the period. Appendices contain the transcripts of the two ship's court martials and make fascinating reading. Captains seem to be blameless, while their navigating officers are held responsible, even going to prison. Perhaps not surprising when tried by fellow Captains.

*Shipwrecks and Provenance: in-situ timber sampling protocols with a focus on wrecks of the Iberian shipbuilding tradition* Sara A. Rich, Nigel Nayling, Garry Mombler, Ana Crespo Solana, 2018-02-28. This book presents a set of protocols to establish the need for wood samples from shipwrecks and to guide archaeologists in the removal of samples for a suite of archaeometric techniques currently available to provenance the timbers used to construct wooden ships and boats. Case studies presented use Iberian ships of the 16th to 18th centuries.

*Heritage and the Sea* Ana Crespo Solana, Filipe Castro, Nigel Nayling, 2022-03-15. This two volume set highlights the importance of Iberian shipbuilding in the centuries of the so-called first globalization, 15th to 18th, in confluence with an unprecedented extension of ocean navigation and seafaring and a greater demand for natural resources, especially timber, mostly oak (*Quercus* spp) and pine (*Pinus* spp). The chapters are framed in a multidisciplinary and interdisciplinary line of research that integrates history, Geographic Information Sciences, underwater archaeology, dendrochronology, and wood provenance techniques. This line of research was developed during the ForSEADiscovery project, which had a great impact in the academic and scientific world and brought together experts from Europe and America. The volumes deliver a state-of-the-art review of the latest lines of research related to Iberian maritime history and archaeology and their developing interdisciplinary interaction with dendroarchaeology. This synthesis combines an analysis of historical sources, the systematic study of wreck remains and material culture related to Iberian seafaring from the 15th to the 18th centuries, and the application of earth sciences, including dendrochronology. The set can be used as a manual or work guide.

**Crusoe, Castaways and Shipwrecks in the Perilous Age of Sail** Mike Rendell, 2019-01-31 Fascinating stories of real life people and events that inspired the author of the classic adventure novel Robinson Crusoe Historical Novel Society This book looks at some of the stories that inspired Daniel Defoe author of Robinson Crusoe stories of bravery determination and good fortune as well as human negligence sheer stupidity and bad luck In addition to an overview of Defoe's life and his monumentally successful novel it also considers some of the reasons why people found themselves cast away as a result of being wrecked abandoned as a punishment or marooned by pirates or even out of deliberate choice Major hurricanes in the eighteenth century causing huge damage to shipping and loss of life are also covered along with catastrophes when ships were lost and astonishing tales of survival in the face of adversity down in the Falklands in the Caribbean and off the coast of Australia It looks at how being cast away brings out the best in some and in others the very worst And it examines perhaps the most astonishing story of them all sixty slaves abandoned on a desolate treeless island in the Indian Ocean and left there for fifteen years some of whom survived against all odds
