EC Archives Shock Suspense Stories Vol 1 Various, 2016 Volume 1 collects Shock suspense stories 16 originally published between February 1952 and January 1953 by I C Publishing Co Inc foreword by Steven Spielberg *Teaching the Holocaust in School History* Lucy Russell, 2006-08-17 If we expose students to a study of human suffering we have a responsibility to guide them through it. But is this the role of school history? This issue is the rationale behind teaching the Holocaust primarily historical moral or social. Is the Holocaust to be taught as a historical event with a view to developing students' critical historical skills or as a tool to combat continuing prejudice and discrimination? These profound questions lie at the heart of Lucy Russell's fascinating analysis of teaching the Holocaust in school history. She considers how the topic of the Holocaust is currently being taught in schools in the UK and overseas. Drawing on interviews with educationalists academics and teachers she discovers that there is in fact a surprising lack of consensus regarding the purpose of and approaches to teaching the Holocaust in history. Indeed the majority view is distinctly non historical there is a tendency to teach the Holocaust from a social and moral perspective and not as history. This book attempts to explain and debate this phenomenon. Investigative Reporting David Spark, 2012-11-12 This important book defines what investigative reporting is and what qualities it requires. Drawing on the experience of many well known journalists in the field the author identifies the skills common factors and special circumstances involved in a wide variety of investigations. It examines how opportunities for investigations can be found and pursued how informants can be persuaded to yield needed information and how and where this information can be checked. It also stresses the dangers and legal constraints that have to be contended with and shows real life examples such as the Cook Report formula the Jonathan Aitken investigation and the Birmingham Six story. David Spark himself a freelance writer of wide experience examines how opportunities for investigations can be found and pursued how informants can be persuaded to yield needed information and how and where this information can be checked. He also stresses the dangers and legal constraints that have to be contended with and shows investigators at work in two classic inquiries. The mysterious weekend spent in Paris by Jonathan Aitken then Minister of Defence Procurement. The career of master spy Kim Philby. Investigative Reporting looks at such fields for inquiry as company frauds including those of Robert Maxwell consumer complaints crime police malpractice the intelligence services local government and corruption in Parliament and in overseas and international bodies. The author believes that the conclusions that emerge from this far reaching survey are of value not only in

investigative journalism but to practitioners in all branches of reporting **Shock! Horror! The Rhetoric of Manipulation

Robert Harvey,2025-03-20 A provocative and timely look at how language is used to manipulate the truth how our gullibility leaves us susceptible to manipulation and what we can do to reverse these trends The Rhetoric of Manipulation looks behind the curtain of political and social communications in the age of fake news and the post truth to show how the perversely engineered semantics at work today shapes culture and undermines reality While language has always been manipulated to direct or anesthetize thought today s semantic perversions orient opinion and subdue political action to an alarming degree Under such conditions we are particularly susceptible to demagoguery Arguing that too many of us have let our critical faculties wither Robert Harvey opens our ears and eyes to an insidious impediment to free thinking by unflinchingly examining five realms of semantic perversion the contemporary vocabulary of war the recently evolved language tool known as scare quotes the terms used to peddle white supremacy the phenomenon of so called cancel culture and the jargon deployed in the corporatization of higher education The wager of The Rhetoric of Manipulation is that a frank expos of bad faith discursive practices and our accompanying gullibility can contribute to reversing the trend remedying the current situation in view of a far more ethical immediate future and remediating some of the damage already done

Stafford, 2024-01-15 First Published in 1987 Rent Control discusses the economics of rent control citing numerous international examples of the detrimental effects of rigid rent control Various policy options to revamp rental housing markets are examined critically Rent control has proved a key issue in both politics and economics repeatedly dividing interventionists and free marketeers Consequently its history throughout the world is extremely involved and tangled Successive governments have sought to reverse the legislation of their predecessors without appearing on the one hand to remove the right to manage their own properties from landlords or on the other to condone the behavior of unscrupulous and exploitative landlords The authors argue that partial repeals of rent control have been ineffective at best and counterproductive at worst Only complete abolition of rent and eviction controls imposed by the state can bring about revitalised housing markets and the book ends with a discussion of how this can be done without causing too much hardship This is an interesting read for scholars and researchers of political economy and British economy
