Gun Rights Activists and the US Culture War Joe Anderson, 2024-02-23 Gun Rights Activists and the US Culture War is a political anthropology book which explores how firearms can become associated with processes of identity formation as well as acting as symbols of national belonging and embodied safety In the years following Donald Trump's election an increasingly polarised population is taking up arms against each other more often than ever before Based on 12 months of participant observation at gun ranges activist meetings handgun courses and political events as well as interviews with gun rights activists in San Diego County this book argues that US conservative identity is saturated with concerns about ethics gender and who can wield violence legitimately The book focuses on two gun rights organisations the first a conservative predominantly white and male political action committee the second a pro LGBTQ firearms training group run by trans women This book demonstrates how gun ownership gives Americans the perceived means to enact their political will through the threat of or actual organized violence and that this perceived capacity explains why guns remain objects that continue to inspire such devotion and debate Gun Rights Activists and the US Culture War will be of interest to scholars and students in anthropology gender studies ethnic studies sociology and politics as well as a general audience of narrative non fiction readers

perspectives including experiences of men minoritized people and women and LGBTQ persons as well as examining strategic choices by political actors ranging from dictators to elected officials and from protesters to mothers Perhaps more importantly this handbook allows chapters written about the US by mainly US based academics to be in dialogue with scholarship about other regions of the world largely written by non US and non European scholars Several chapters address regions of the world often understudied by political scientists including Africa Kenya Ethiopia Uganda Sudan Liberia Nigeria and Cameroon Asia North Korea Turkmenistan Indonesia and Pakistan and Latin America Argentina and Mexico This work goes beyond the usual analyses that cast clothing choices as trivial or constraining and shows how political actors from dictators to elected officials and from citizen activists to social movement leaders incorporate strategic choices about their clothing ranging from uniforms and business attire to hijab and traditional ethnic attire in order to advance their political agendas

Mass Shootings and Civilian Armament Alexei Anisin, 2021-11-18 *Mass Shootings and Civilian Armament* provides the first comprehensive multi methodological analysis of the relationship between mass shootings and firearm purchases as proxied by background checks in the US on national level data from 1999 2020 Since 1994 the number of civilian owned firearms in the US has doubled to around 398 million while the population only grew by 70 million On average mass shootings have occurred once every two weeks over the last decade which is a major factor behind why social scientists have started to ask whether mass shootings play a causative role in civilian decisions to purchase guns Utilizing a multi methodological approach featuring quantitative comparative configurational and qualitative methods this book puts forward a theoretical framework and argues that mass shootings do increase civilian armament but that this repetitious effect is historically contingent asymmetric and non linear Particular types of mass shootings are hypothesized to have driven and continue to bring about increased levels of civilian firearm purchases through different pathways and combinations of variables those that feature high fatality counts arise in areas of

cultural importance are ideologically motivated First inquiry into background check data 1999 2020 and data on 213 mass shootings and attempted mass shootings is carried out to find out which shootings as well as controls are significantly correlated with background check increases Second the findings are utilized in a theoretically driven comparative configurational assessment to test if the noted theoretical pathways are associated with the outcome of increased post shooting armament Third the empirical analyses are complimented by three case studies the 2011 Gabrielle Giffords shooting illustrative of the high fatality pathway the 2012 Colorado movie theater shooting illustrative of the cultural pathway and the 2015 Charleston Church shooting illustrative of the ideologically driven pathway Interdisciplinary in nature Mass Shootings and Civilian Armament will not only be of great interest to scholars of Criminology but will also speak to sociologists economists public policy scholars political scientists historians as well as cultural studies and American studies scholars

Her Best Shot Laura Browder, 2009-09-15 The gun toting woman holds enormous symbolic significance in American culture For over two centuries women who pick up guns have disrupted the popular association of guns and masculinity spurring debates about women s capabilities for violence as well as their capacity for full citizenship In *Her Best Shot* Laura Browder examines the relationship between women and guns and the ways in which the figure of the armed woman has served as a lightning rod for cultural issues Utilizing autobiographies advertising journalism novels and political tracts among other sources Browder traces appearances of the armed woman across a chronological spectrum from the American Revolution to the present and an ideological spectrum ranging from the Black Panthers to right wing militias Among the colorful characters presented here are Deborah Sampson who disguised herself as a man to fight in the American Revolution Pauline Cushman who posed as a Confederate to spy for Union forces during the Civil War Wild West sure shot Annie Oakley African explorer Osa Johnson 1930s gangsters Ma Barker and Bonnie Parker and Patty Hearst the hostage turned revolutionary turned victim With her entertaining and provocative analysis Browder demonstrates that armed women both challenge and reinforce the easy equation that links guns manhood and American identity

Democratic Education in an Armed Society Samantha Deane, 2023-11-21 *Democratic Education in an Armed Society* Learning to Live with Guns examines the points of intersection between school gun violence and democratic education Samantha Deane explores the connection between how we teach children to think of themselves as democratic actors and the unceasing plague of gun violence Juxtaposing two images of political agency Deane connects an essentialized view of humans as masters of themselves objects and history with discourses that aim to train individuals to be autonomous and rational users of objects like guns This liberal view gives us no way to think about how objects narratives and norms contour the selves we claim to be Deane suggests that we must learn to attend to the ways in which our ability to act in the world is shared and distributed In a society shot through with guns and enamored with individualism the future of associational life depends on whether we learn to do democracy with the objects we hold dear

Guns and Values Dylan S. McLean, Anthony K. Fleming, 2023-07-24 The

American gun control debate is best understood as a battle in a war over the influence of individualism on American culture politics and policy This book demonstrates that the gun debate is fundamentally about values Specifically it is about what we value most private rights or the public good This helps explain why the technical empirical or legalistic arguments we hear aren't persuasive A review of scholarly literature on both the politics of gun control and American political culture finds an American bias toward an individualism that embraces personal rights We argue that this bias stacks the deck against gun control Interviews we conducted with activists show that support for or opposition to gun control is linked to concern for the public or private good Finally we trace the federal gun control debate in Washington from the 1960s to 2010s to show the ebbs and flows of individualism's influence

Shooters Abigail A. Kohn, 2004-06-10 Frequenting gun shops and shooting ranges and devoting particular attention to those whose interest in weaponry extends beyond the casual Abigail A. Kohn captures in finegrained and often entertaining yet always humane detail how gun owners actually think and feel about their guns Through her conversations with cowboy action shooters at a regional match sport shooters hunters with shooters of all ages and races we hear of the savage beauty of a beautifully crafted long gun of the powerful historical import owners attach to their guns of the sense of empowerment that comes with shooting skill and the visceral thrill of discharging a dangerous weapon Cutting through the clichés that link gun ownership with violent criminal subcultures and portray shooters as gun nuts or potential terrorists Kohn provides us with a lively and untainted portrait of American gun enthusiasts

The ^ALives of Guns Jonathan Obert, Andrew Poe, Austin Sarat, 2018-09-03 Guns are ever present figures in the American public conversation Rather than rehash the same debates over the right to bear arms or who is at fault in mass shootings *The Lives of Guns* shifts the focus from the people who wield or defend them to the guns themselves Taking the agency and power of guns as a radical jumping off point this book explores guns as political actors in American culture ultimately offering something new and different to a complex and emotion laden debate

Up in Arms: Gun Imaginaries in Texas, 2022-08-15 Up in Arms provides an illustrative and timely window onto the ways in which guns shape people s lives and social relations in Texas With a long history of myth lore and imaginaries attached to gun carrying the Lone Star State exemplifies how various groups of people at different historical moments make sense of gun culture in light of legislation political agendas and community building Beyond gun rights restrictions or the actual functions of firearms the book demonstrates how the gun question itself becomes loaded with symbolic firepower making or breaking assumptions about identities behavior and belief systems Contributors include Benita Heiskanen Albion M Butters Pekka M Kolehmainen Laura Hernandez Ehrisman Lotta K h k nen Mila Sepp l and Juha A Vuori

Small Arms, Crime and Conflict Owen Greene, Nic Marsh, 2013-07-03 This book critically examines the nexus between arms availability and armed violence Domestic Gun Control and International Small Arms Control in Africa Niklas Hultin, 2022-08-08 This book based on field research in the West African country of The Gambia explores how domestic gun control is shaped by international efforts and how local actors interact with international organizations or opt not to do so The book also shows how the question of who can have what kind of gun under what circumstances is an intrinsic question to modern societies across the world but it is seldom one that is addressed in sub Saharan Africa except in cases of post conflict countries Small arms control and gun control are often treated as separate efforts with the former the domain of international actors such as the United Nations and the latter being of concern to the domestic politics of countries such as the United States By focusing on a country that has never seen the outbreak of a civil war the book is able to disentangle the complex roots of gun control in Africa its origins in colonial era legislation its reverberations across social life and how it shapes contemporary understandings of groups ranging for security guards to hunters **The Gun Gap** Mark R.

Joslyn, 2020-04-30 In *The Gun Gap* Mark R Joslyn advances gun owners as a new classification for understanding political behavior and attitudes He demonstrates a gun gap which captures the differences between gun owners and non gun owners and shows how this gap improves conventional behavioral and attitudinal models The gap represents an important explanation for voter choice voter turnout perceptions of personal and public safety preferences for gun control policies and support for the death penalty Moreover the 2016 presidential election witnessed the largest recorded gun gap in history The Gun Gap thus affords a new and compelling vantage point to evaluate modern mass politics
