Adapting Stephen King Joseph Maddrey, 2021-07-26 Stephen King's fiction has formed the basis of more motion picture adaptations than any other living author Over half a century since his earliest publications Hollywood filmmakers continue to reinvent reimagine remake and reboot King's stories with mixed results This book volume 1 in a series examines the various screen adaptations of King's first three novels *Carrie* *Salem's Lot* and *The Shining* Reaching further than questions of fidelity to the author and adherence to directorial visions it charts the development of each individual adaptation from first option to final cut Through old and new interviews with the writers producers and directors of these films as well as in depth analyses of produced and unproduced screenplays it illuminates the adaptation process as

an intricately collaborative endeavor Rather than merely synopsise the resulting stories its goal is to compare contrast and contextualize each of these adaptations as the products of their creators **On Screen Writing** Edward

Dmytryk,2018-10-30 With On Screen Writing director Edward Dmytryk offers a clear methodical overview of the needs practices and problems of screenwriting including extensive coverage of adaptation Written In an informal anecdotal style and using script examples from Hollywood classics Dmytryk presents a practical set of principles for writing engaging filmable screenplays Originally published in 1985 this reissue of Dmytryk s classic screenwriting book includes a new critical introduction by Mick Hurbis Cherrier as well as chapter lessons discussion questions exercises and a glossary Dr. No

James Chapman,2022-11-08 When Dr No premiered at the London Pavilion on October 5 1962 no one predicted that it would launch the longest running series in cinema history It introduced the James Bond formula that has been a box office fixture ever since sensational plots colorful locations beautiful women diabolical villains thrilling action set pieces and a tongue in cheek tone An explosive cocktail of action spectacle and sex Dr No transformed popular cinema James Chapman provides a lively and comprehensive study of Dr No marshaling a wealth of archival research to place the film in its historical moment He demonstrates that contrary to many fan myths the film was the product of a carefully considered transnational production process Chapman explores the British super spy s origins in Ian Fleming s snobbery with violence thrillers examining the process of adaptation from page to screen He considers Dr No in the contexts of the UK and Hollywood film industries as well as the film s place in relation to the changing social and cultural landscape of the 1960s particularly Cold War anxieties and the decline of the British Empire The book also analyzes the film s problematic politics of gender and race and considers its cultural legacy This thorough and insightful account of Dr No will appeal to film historians and Bond fans alike

Hollywood Soundscapes Helen Hanson,2019-07-25 The technical crafts of sound in classical Hollywood cinema have until recently remained largely unsung by histories of the studio era Yet film sound voice music and sound effects is a crucial aspect of film style and has been key to engaging and holding audiences since the transition to sound by Hollywood s major studios in 1929 This innovative new text restores sound technicians to Hollywood s creative history Exploring a range of films from the early sound period 1931 through to the late studio period 1948 and drawing on a wide range of archival sources the book reveals how Hollywood s sound designers worked and why they worked in the ways that they did The book demonstrates how sound technicians developed conventions designed to tell stories through sound placing them within the production cultures of studio era filmmaking and uncovering a history of collective and collaborative creativity In doing so it traces the emergence of a body of highly skilled sound personnel able to apply expert technical knowledge in the science of sound to the creation of cinematic soundscapes that are alive with mood and sensation Screenwriters José Guilherme Correa,2016-07-13 Screen writing is a unique literary form Screenplays are like musical scores in that they are intended to be interpreted on the basis of other artists performances rather than serving as finished products for the enjoyment of their

readers They are written using technical jargon and tight spare prose to describe set directions Unlike a novella a script focuses on describing the literal visual aspects of the story rather than on its characters internal thoughts In screen writing the aim is to evoke those thoughts and emotions through subtext action and symbolism Prominent Hollywood script doctors include Steve Zaillian William Goldman Robert Towne Mort Nathan Quentin Tarantino etc while many up and coming screenwriters work as ghost writers This book is a modest catalogue of some of the most prominent screenwriters listed from A to Z The good are sometimes bad and they can be even Ugly Many comments herein included were googled in deference to the multiplicity of information available today yet they reflect exactly or almost what I thought An amazing thing today is how anonymous commentators on the Internet rival and even surpass the poor quality of professional media and specialised literature It all comes down to watching the truth 24 times per second to quote Jean Luc Godard s phrase Not to mention that such truth may include sex scenes violence pedophilia etc We know that a literary masterpiece like Henry James Portrait of a Lady became a film of very poor quality as scripted by Laura Jones We know conversely that a mediocre writer like Mickey Spillane inspired at least one film as remarkable as Kiss Me Deadly thanks to A I Bezzerides script As a former screenwriter Mr Correa must avow that he found the job most gratifying Writing that looks effortless is often hellish to write and revise It was something he did have to slog through but it proved particularly pleasing Editing discussing finishing your work is particularly gratifying Identifying your flaws and working to mitigate them is also gratifying It is a general perception that creative careers are more interesting and fun than others But the privilege of earning money through imagination and creativity is effectively hard won Please comment at will Please disagree at will Be facetious in your remarks but please be neither vicious nor mean spirited
