Saving America's Cities David H. McDonald, 2011-06-23 Many cities have a rich past No one knows if many have a future Richard C Longworth Caught in the Middle 2007 p 28 In the last six decades no stagnant or decaying city has been globally or significantly saved never David H McDonald More and more federal and state governments are growing their already out of control financial problems Cities are on their own to sink or swim now more than ever David H McDonald Only two states in the nation have over time lost population If the states are gaining population but the cities are losing then it is the cities fault David H McDonald Occasionally a city will usually by accident back into attempting growth in the right manner It always works David H McDonald Virtually no city has a workable vision of how to even achieve stability let alone a return to vibrancy This book presents such a vision and a clear path to beginning the process of stabilization and growth David H McDonald Whatever is going to save your cities it won't be government Both political parties are largely trapped in the past driven by a desire to protect old sacred cows
