archaeology and the accounts of classical authors True Myth James W Menzies, 2015-02-26 True Myth examines the meaning and significance of myth as understood by C S Lewis and Joseph Campbell and its place in the Christian faith in a technological society C S Lewis defined Christianity and being truly human as a relationship between the personal Creator and his creation mediated through faith in his son Jesus The influential writer and mythologist Joseph Campbell had a different perspective understanding Christianity as composed of mythical themes similar to those in other religious and secular myths While accepting certain portions of the biblical record as historical Campbell taught the theological and miraculous aspects as symbolic as stories in which the reader discovers what it means to be human today In contrast Lewis presented the theological and the miraculous in a literal way Although Lewis understood how one could see symbolism and lessons for life in miraculous events he believed they were more than symbolic and indeed took place in human history In True Myth James W Menzies skilfully balances the two writers differing approaches to guide the reader through a complex interaction of myth with philosophy media ethics history literature art music and religion in a contemporary world **An Athiest Defends Religion** Bruce Sheiman, 2009-08-04 A new perspective Defending religion as a cultural institution in the face of resurgent atheistic thought For centuries the theism atheism debate has been dominated by two positions stringent believers committed to the yes there is a God argument and atheists vehemently driven to repudiate not only God but also religion as a cultural institution To date this is the first and only mainstream book in which a nonbeliever criticizes atheism and affirms religion An Atheist Defends Religion persuasively argues that religion is overwhelmingly beneficial for humanity regardless of whether God exists based on a new paradigm of 10 affirmative dimensions that make up religious experience It also puts to rest the theory that religion is behind most of the world s sectarian violence by showing that religion becomes evil when it is politicized Readers will learn they do not have to be fundamentalists to be believers and about the value and benefits of religion itself *Storytelling and Ecology* Anthony Nanson, 2021-06-17 Finalist in the PROSE Award 2022 for Language Linguistics Awarded Honors at the Storytelling World Awards 2022 Linking the ongoing ecological crisis with contemporary conditions of alienation and disenchantment in modern society this book investigates the capacity of oral storytelling to reconnect people to the natural world and enchant and renew their experience of nature place and their own existence in the world Anthony Nanson offers an in depth examination of how a diverse ecosystem of oral stories and the dynamics of storytelling as an activity can catalyse different kinds of conversation and motivation helping us resist the discourse of powerful vested interests Detailed analysis of traditional true life and fictional stories shows how spoken narrative language can imbue landscapes creatures and experiences with enchantment and mediate between the inner world of consciousness and outer world of ecology and community A pioneering ecolinguistic and ecocritical study of oral storytelling in the modern world Storytelling and Ecology offers insight into the ways that sharing stories in each other s embodied presence can open up spaces for transformation in our relationships with the ecological world around us **A**

Out of the Shadow Rinda West, 2007 In western culture the separation of humans from nature has contributed to a schism between the conscious reason and the unconscious dreaming psyche or internal human nature Our increasing lack of intimacy with the land has led to a decreased capacity to access parts of the psyche not normally valued in a capitalist culture In *Out of the Shadow* Ecopsychology Story and Encounters with the Land Rinda West uses Jung s idea of the shadow to explore how this divorce results in alienation projection and often breakdown Bringing together ideas from analytical psychology environmental

thought and literary studies West explores a variety of literary texts including several by contemporary American Indian writers to show through a sort of geography of the psyche how alienation from nature reflects a parallel separation from the nature that constitutes the unconscious Through her analysis of narratives that offer images of people confronting shadow reconnecting with nature and growing psychologically and ethically West reveals that when characters enter into relationship with the natural world they are better able to confront and reclaim shadow By writing from the shadows West argues that contemporary writers are exploring ways of being human that have the potential for creating more just and honorable relationships with nature and more sustainable communities For ecocritics conservation activists scholars and students of environmental studies and American Indian studies and ecopsychologists *Out of the Shadow* offers hope for humans wishing to reconcile with themselves with nature and with community Ragnarok A.S. Byatt, 2011-08-06 As the bombs rain down in the Second World War one young girl is evacuated to the English countryside Struggling to make sense of her new wartime life she is given a copy of a book of ancient Norse myths and her inner and outer worlds are transformed Linguistically stunning and imaginatively abundant Byatt's mesmerising tale inspired by the myth of Ragnarok is a landmark piece of storytelling from one of the world's truly great writers **Reading The Old Testament For The First Time And A Sketch Of The Jesus Myths** Donald J. Young, 2012-08 Donald Young's poems are tight and loose at the same time the reader can move within them and the reader will feel strongly the concern the emotion the flow that carries the words along There is color music and a wonderful reliance on imagery that makes the poems a joy to read and reread But what gives the poems their energy and depth is the feeling of necessity that underlies each poem there is an idea or passion or both which strongly compels its utterance The poems are journeys toward some discovery as the very best poems always are toward revelation or satori sudden illumination In many cases the poems push us beyond what we could ever anticipate Herein lies the pleasure We leave Donald Young's poems enlightened deepened and thankful for the keen eye and compassionate heart Tom McKeown author of *The Luminous Revolver* and *Three Hundred Tigers* *Transformative Sustainability Education* Elizabeth A. Lange, 2023-03-28 This book lays out the principles and practices of transformative sustainability education using a relational way of thinking and being Elizabeth A Lange advocates for a new approach to environmental and sustainability education that of rethinking the Western way of knowing and being and engendering a frank discussion about the societal elements that are generating climate environmental economic and social issues Highlighting the importance of Indigenous and life giving cultures the book covers educational theory transformation stories of adult learners social and economic critique and visions of changemakers Each chapter also has a strong pedagogical element with entry points for learners and embodied practices and examples of taking action at micro meso macro levels woven throughout Overall this book enacts a relational approach to transformative sustainability education that draws from post humanist theory process thought relational ontology decolonization theory Indigenous philosophy and a spirituality that builds a sense of sacred

towards the living world Written in an imaginative storytelling manner this book will be a great resource for formal and nonformal environmental and sustainability educators **A Bell Curve** Andrew Friend,2011-06-07 From earliest times humanity has sought to understand its place and role in the world has sought for meaning Wherever human beings are to be found myth and extra historical record of who we are has always played a vital role in this regard Traditional religion by comparison has only emerged in the last 2 500 years This book summarizes the history of mans religious endeavors and shows how much of religion over time has anything but aided its followers in their journey through life Because traditional religion is failing to meet our spiritual needs people are moving from heteronomy to autonomy as they assume responsibility for their own journeys A continuing survey begun at the turn of the century reveals that 36 percent of the participants believe that the American dream is achieved through spiritual fulfillment A never ending stream of articles in a variety of journals bear witness to the this trend as well as to the many new means now exercised in order to nourish ones spirituality The relevance of myth has been renewed while that of religion is in decline in the West Martin Luthers pronouncement Every man is a priest is becoming a fact **Rationalising the Bible — Volume 1** Ivy Bedworth,2016-02-28 Rationalising the Bible is a collection of volumes that cover the books of the Old and New Testaments of the Holy Bible Written by mostly unidentified authors the Bible is generally attributed with being the moral compass of the world of Judeo Christian religious adherents In fact the Bible is mostly mythological history inaccurate science exaggerated reports of violence and discrimination against the people who settled the Fertile Crescent and a set of laws plagiarised from those already in existence in the area Even the writing of it claimed to be that of the patriarchs can clearly be identified in the reading of it as belonging rather to a period when all people in the civilised world were writing their stories It was not written as atheists often charge by illiterate nomadic tribespeople in pre history Instead it was written by politicians and priests at a time when the western civilisations were making their mark on the world s politics **The Constant Fire** Adam Frank,2009-01-06 Eloquent urgent and inspiring The Constant Fire tackles the acrimonious debate between science and religion taking us beyond its stagnant parameters into the wider domain of human spiritual experience From a Neolithic archaeological site in Ireland to modern theories of star formation Adam Frank traverses a wide terrain broadening our sights and allowing us to imagine an alternative perspective Drawing from his experience as a practicing astrophysicist and from the writings of the great scholars of religion philosophy and mythology Frank locates the connective tissue linking science and religion their commonality as sacred pursuits and finds their shared aspiration in pursuit of the True and the Real Taking us from the burning of Giordano Bruno in 1600 to Einstein and on to today s pressing issues of global warming and resource depletion The Constant Fire shows us how to move beyond this stale debate into a more profound experience of the world as sacred a world that embraces science without renouncing human spirituality **The Lessons of Nature in Mythology** Rachel S. McCoppin,2015-10-29 This examination of myths from around the world focuses on the role nature plays within mythology

Creation myths from myriad cultures recognized that life arose from natural elements inextricably connecting human life to the natural world Nature as portrayed in myth is unpredictable and destructive but also redemptive providing solace and wisdom Mythology relates the human life cycle to the seasons with spring summer fall and winter as metaphors for birth adulthood old age and death The author identifies divinities who were direct representations of natural phenomena The transition of mythic representations from the Paleolithic to Neolithic period is discussed *Beyond Belief* Hugh

Mackay,2016-04-26 What do people actually mean when they say God Around two thirds of us say we believe in God or some higher power but fewer than one in ten Australians attend church weekly In *Beyond Belief* Hugh Mackay presents this discrepancy as one of the great unexamined topics of our time He argues that while our attachment to a traditional idea of God may be waning our desire for a life of meaning remains as strong as ever Mackay interviews dozens of Australians representing many different points on the spectrum of faith including some who are part of the emerging spiritual but not religious movement He exposes the deep vein of ambivalence about religion that runs through our society we may not actively worship but we still like to see local churches operating in our midst and we use our church to marry christen our babies educate our children and commemorate our dead He points out some uncomfortable truths such as our tendency to call on God only in a crisis and unpacks our human need for answers even when science can't find them He endorses the Christian ideal of the good life a life lived for others but acknowledges that there are many pathways to that same goal not all of them religious Written with all the insight and compassion we have come to expect of our leading chronicler of Australian life *Beyond Belief* is an engrossing exploration of the ways we find spiritual fulfilment in an avowedly secular age **Poetry**

and Islands Rajeev S. Patke,2018-03-01 In all cultures and times the poetic imagination has fed on the natural attributes of islands An island is either a destination or a home or a place of exile and imprisonment or simply a place to sojourn It is an ideal vehicle for journeys treated as allegories or for acts of finding that turn into acts of losing or the reverse transformation An island is not a continent yet it can be an archipelago An island is both a place in itself and a pretext for imaginings that need a local habitation and a name It can give relief and pleasure or it can frustrate isolate and negate Above all it both invites and resists or contains or constrains the imagination *Poetry and Islands* explores how islands become repositories of human longings and desires a locus for some of our deepest fears and fantasies It balances historical and geographical reference with a selective approach to poems and poets in English and in translations into English The study of particular poems in which islands figure in exemplary ways is balanced by a more detailed discussion of the poets who have played a major role in shaping human responses to islands on a global scale *The Forest and the EcoGothic* Elizabeth

Parker,2020-02-13 This book offers the first full length study on the pervasive archetype of The Gothic Forest in Western culture The idea of the forest as deep dark and dangerous has an extensive history and continues to resonate throughout contemporary popular culture *The Forest and the EcoGothic* examines both why we fear the forest and how exactly these

fears manifest in our stories It draws on and furthers the nascent field of the ecoGothic which seeks to explore the intersections between ecocriticism and Gothic studies In the age of the Anthropocene this work importantly interrogates our relationship to and understandings of the more than human world This work introduces the trope of the Gothic forest as well as important critical contexts for its discussion and examines the three main ways in which this trope manifests as a living animated threat as a traditional habitat for monsters and as a dangerous site for human settlement This book will appeal to students and scholars with interests in horror and the Gothic ecohorror and the ecoGothic environmentalism ecocriticism and popular culture more broadly The accessibility of the subject of *The Deep Dark Woods* coupled with increasingly mainstream interests in interactions between humanity and nature means this work will also be of keen interest to the general public
