Short, Shorter & Shorter Stories Chuck McCann,2015-08-15 Once again I bring the reader my favorite character Benjamin doing the usual and getting himself into trouble Not only does he create his own problems but with other folks help he manages to involve them in tithe situations In his unique way he lets us see some of our own problems There are stories from the past and stories of

the future There are stories of a devious nature and those that happen because of the opportunity of the moment Some stories can only have the ending created by the perpetrator Yet can't an unexpected outcome occur to save the victim or stymie the rascal during or after the incident Think about this haven't you thought about doing something that is illegal or shady like getting even or outfoxing your spouse or your boss or even God Hasn't each of us experienced the bone chilling fear of the unknown deliberately such as a bungee jump or accidentally skidding on an icy road into oncoming traffic You may find such stories in this edition of Short Shorter and Shorter Stories I believe you'll enjoy finding out for yourself

The Early H.G. Wells Bernard Bergonzi, 1961-12-15 This is a sensitive study of Wells' imaginative development during his formative years It comes at a time when interest in H.G. Wells' early writing is beginning to revive owing no doubt to the current translation into reality of some aspects of science fiction Mr Bergonzi examines Wells' early fiction from surviving student writings of the late eighties to 1901 when he published *The First Men in the Moon* his last significant scientific romance and *Anticipations* his first systematic non-fictional treatise The main emphasis of his study falls on the scientific romances of the nineties which are examined in detail In addition to literary analysis relevant source material and reviews which show how contemporaries received Wells' work are noted Wells' early attitude to science is shown to have been deeply ambivalent as is apparent in his successive uses of the Frankenstein archetype His intellectual attitudes tended towards scepticism and pessimism rather than to the utopian optimism associated with his later career These romances reflect in imaginative and non-discursive form some of the major preoccupations of late Victorian England the impact of Darwinism of Socialism and an increasing lack of national self-confidence Mr Bergonzi sees Wells as essentially a *fin de siècle* myth maker and he argues that it is this aspect of Wells' work which most requires attention if he is to be remembered in the future Two early pieces by Wells now unobtainable elsewhere are given in an Appendix One *The Chronic Argonauts* a fragment of a fantastic novel written at the age of 21 is the earliest draft of *The Time Machine*
