The High Sierra Kim Stanley Robinson, 2022-05-10. A sublime and radically original exploration of the Sierra Nevada, the best mountains on Earth for hiking and camping from New York Times bestselling novelist Kim Stanley Robinson. Bill McKibben, Gary Snyder, Kim Stanley Robinson first ventured into the Sierra Nevada mountains during the summer of 1973. He returned from that encounter a changed man, awed by a landscape that made him feel as if he were simultaneously strolling through an art museum and scrambling on a jungle gym like an energized child. He has returned to the mountains throughout his life more than a hundred trips and has gathered a vast store of knowledge about them. *The High Sierra* is his lavish celebration of this exceptional place and an exploration of what makes this span of mountains one of the most compelling places on Earth. Over the course of a vivid and dramatic narrative, Robinson describes the geological forces that shaped the Sierras and the history of its exploration going back to the indigenous peoples who made it home and whose traces can still be found today. He celebrates the people whose ideas and actions protected the High Sierra for future generations. He describes uniquely beautiful hikes and the trails to be avoided. Robinson's own life-altering events, defining relationships, and unforgettable adventures form the narrative's spine. And he illuminates the human communion with the wild and with the sublime, including the personal growth that only seems to come from time spent outdoors. *The High Sierra* is a gorgeous, absorbing immersion in a place born out of a desire to understand and share one of the greatest rapture-inducing experiences our planet offers. Packed with maps, gear advice, more than 100 breathtaking photos, and much more, it will inspire veteran hikers, casual walkers, and travel readers to prepare for a magnificent adventure.

Sierra Club Bulletin, 1919. [The Wisdom of John Muir](#) Anne Rowthorn, 2012-03-27. Largely using the Muir's own words, the author looks at the experiences, places, and people that inspired and informed the naturalist's words and beliefs. [The Mid-Pacific Magazine](#), 1912. **Lost Ski Areas of Tahoe and Donner** Ingrid P. Wicken, 2020. At the beginning of the twentieth century, Lake Tahoe and the Donner Summit region became California's first developed winter sports areas. Plentiful snowfall and newly built highways opened up the summer playground for visitors year-round, and skiing flourished. The Sierra Ski Club formed in 1925, attracting members eager to experience everything the mountains had to offer. People flocked to the slopes, visiting places like Clair Tappaan Lodge in Soda Springs, boasting one of the summit's earliest ski tows, and the Yuba Gap Lodge, a pioneer in night skiing. Join Ingrid P. Wicken, award-winning author and ski historian, as she recounts the fascinating beginnings of this celebrated ski hub. [Northern Landscapes](#) Daniel Nelson, 2010-09-30. Alaska in the early 1950s was one of the world's last great undeveloped areas. Yet sweeping changes were underway. In 1958, Congress awarded the new state

over 100 million acres to promote economic development In 1971 it gave Native groups more than 40 million acres to settle land claims and facilitate the building of an 800 mile oil pipeline Spurred by the newly militant environmental movement it also began to consider the preservation of Alaska s magnificent scenery and wildlife Northern Landscapes is an essential guide to Alaska s recent past and to contemporary local and national debates over the future of public lands and resources It is the first comprehensive examination of the campaign to preserve wild Alaska through the creation of a vast system of parks and wildlife refuges Drawing on archival sources and interviews Daniel Nelson traces disputes over resources alongside the politics of the Alaska statehood movement He provides in depth coverage of the growth of Alaskan environmental organizations their partnerships with national groups and their participation in political campaigns into the 1970s and after Engagingly written Northern Landscapes focuses on efforts to persuade public officials to recognize the value of Alaska s mountains forests and wildlife That activity culminated in the passage of the Alaska National Interest Lands Conservation Act ANILCA of 1980 which set aside more than 100 million acres doubling the size of the national park and wildlife refuge systems and tripling the size of the wilderness preservation system Arguably the single greatest triumph of environmentalism ANILCA also set the stage for continuing battles over the Arctic National Wildlife Refuge and Alaska s national forests
