Silence On Tue:

Silence, on tue ! Richard Sapir, Warren Murphy, 1991 Silence, on tue ! Marcel Kalil, 1970 **Necessary Noise** Chérie Rivers Ndaliko, 2016-09-16 Since 1997 the war in the east of the Democratic Republic of the Congo has taken more than 6 million lives and shapes the daily existence of the nation's residents. While the DRC is often portrayed in international media as an unproductive failed state, the Congolese have turned increasingly to art making to express their experience to external eyes. Author Chérie Rivers Ndaliko argues that cultural activism and the enthusiasm to produce art exists in Congo as a remedy for the social ills of war and as a way to communicate a positive vision of the country. Ndaliko introduces a memorable cast of artists, activists, and ordinary people from the North Kivu province whose artistic and cultural interventions are routinely excluded from global debates that prioritize economics, politics, and development as the basis of policy decision. Congo Rivers also shows how art has been mobilized by external humanitarian and charitable organizations becoming the vehicle through which to inflict new kinds of imperial domination. Written by a scholar and activist in the center of the current public policy debate, *Necessary Noise* examines the uneasy balance of accomplishing change through art against the unsteady background of war. At the heart of this book is the Yole Africa cultural center, which is the oldest independent cultural center in the east of Congo. Established in the aftermath of volcano Nyiragongo's 2002 eruption and sustained through a series of armed conflicts, the cultural activities organized by Yole Africa have shaped a generation of Congolese youth into socially and politically engaged citizens. By juxtaposing intimate ethnographic, aesthetic, and theoretical analyses of this thriving local initiative with case studies that expose the often destructive underbelly of charitable action, *Necessary Noise* introduces into heated international debates on aid and sustainable development a compelling case for the necessity of arts and culture in negotiating sustained peace. Through vivid descriptions of a community of young people transforming their lives through art, Ndaliko humanizes a dire humanitarian disaster. In so doing, she invites readers to reflect on the urgent choices we must navigate as globally responsible citizens. The only study of music or film culture in the east of Congo, *Necessary Noise* raises an impassioned and vibrantly interdisciplinary voice that speaks to the theory and practice of socially engaged scholarship. The Work of Mourning
 Jacques Derrida, 2001-07 Jacques Derrida is in the words of the New York Times perhaps the world's most famous philosopher if not the only famous philosopher He often provokes controversy as soon as his name is mentioned But he also inspires the respect that comes from an illustrious career and among many who were his colleagues and peers he inspired friendship The Work of Mourning is a collection that honors those friendships in the wake of passing Gathered here are texts letters of condolence memorial essays eulogies funeral orations written after the deaths of well known figures Roland

Barthes Paul de Man Michel Foucault Louis Althusser Edmond Jabès Louis Marin Sarah Kofman Gilles Deleuze Emmanuel Levinas Jean-François Lyotard Max Loreau Jean-Marie Benoist Joseph Riddel and Michel Servi re With his words Derrida bears witness to the singularity of a friendship and to the absolute uniqueness of each relationship In each case he is acutely aware of the questions of tact taste and ethical responsibility involved in speaking of the dead the risks of using the occasion for one's own purposes political calculation personal vendetta and the expiation of guilt More than a collection of memorial addresses this volume sheds light not only on Derrida's relation to some of the most prominent French thinkers of the past quarter century but also on some of the most important themes of Derrida's entire oeuvre mourning the gift of death time memory and friendship itself In his rapt attention to his subjects work and their influence upon him the book also offers a hesitant and tangential retelling of Derrida's own life in French philosophical history There are illuminating and playful anecdotes how Lyotard led Derrida to begin using a word processor how Paul de Man talked knowledgeably of jazz with Derrida's son Anyone who still thinks that Derrida is a facetious punster will find such resentful prejudice unable to survive a reading of this beautiful work Steven Poole Guardian Strikingly simple meditations on friendship on shared vocations and avocations and on philosophy and history Publishers Weekly
