

# THE NATION THIEF

"In Nicaragua  
even the schoolchildren  
know the story of William Walker,  
the gringo who came to save  
Central America from itself.  
Some politicians steal  
elections, but Walker stole  
an entire nation.  
It happened more than a century  
ago, but this documentary  
novel makes it seem almost as  
fresh as the latest headline  
from Central America."

**National Jeweler**, 1928 **The Nervous System** Michael Taussig, 2012-09-10 In a series of intriguing essays ranging over terror State fetishism shamanic healing in Latin America homesickness and the place of the tactile eye in both magic and modernity anthropologist Michael Taussig puts into representational practice a curious type of engaged writing Based on a paranoid vision of social control and its understanding as in a permanent state of emergency leaving no room for contemplation between signs and things these essays hover between story telling and high theory and thus create strange new modes of critical discourse The Nervous System will appeal to writers scholars artists film makers and readers interested in critical theory aesthetics and politics *The Despot's Guide to Wealth Management* J. C. Sharman, 2017-03-07 An unprecedented new international moral and legal rule forbids one state from hosting money stolen by the leaders of another state The aim is to counter grand corruption or kleptocracy rule by thieves when leaders of poorer countries such as Marcos in the Philippines Mobutu in the Congo and more recently those overthrown in revolutions in the Arab world and Ukraine loot billions of dollars at the expense of their own citizens This money tends to end up hosted in rich countries These host states now have a duty to block trace freeze and seize these illicit funds and hand them back to the countries from which they were stolen In *The Despot's Guide to Wealth Management* J C Sharman asks how this anti kleptocracy regime came about how well it is working and how it could work better Although there have been some real achievements the international campaign against grand corruption has run into major obstacles The vested interests of banks lawyers and even law enforcement often favor turning a blind eye to foreign corruption proceeds Recovering and returning looted assets is a long complicated and expensive process Sharman used a private investigator participated in and observed anti corruption policy and conducted more than a hundred interviews with key players He also draws on various journalistic exposés whistleblower accounts and government investigations to inform his comparison of the anti kleptocracy records of the United States Britain Switzerland and Australia Sharman calls for better policing preventative measures and use of gatekeepers like bankers lawyers and real estate agents He also recommends giving nongovernmental organizations and for profit firms more scope to independently investigate corruption and seize stolen assets THE THIEF'S DOGS Metin Yazar, Protecting people's lives safety and mental health is one of the basic requirements of the rule of law This requirement covers protecting both the physical safety and psychological health of individuals Personal security can be ensured by eliminating external and internal threats and eliminating all kinds of attempts and uncertainties that disturb the person's peace in the legal sense If a person has committed a crime the punishment for this person is determined only within the framework of the law and

through the courts Under the rule of law a person cannot be sentenced to any punishment other than due process and cannot be constantly threatened by the same crime This means there should not be a constant threat like a sword of Damocles hanging over the head One of the basic principles of law is that a person should not be tried for the same act a second time and should not be sentenced to punishments other than the sentence imposed This principle is also known as ne bis in idem not twice the same and forms an important part of the rule of law Thanks to this principle the legal security of individuals is ensured and arbitrary trials are prevented Hyenas of July 15 When hundreds of thousands of people were caught and imprisoned in the Erdo an Coup on July 16 2016 not a single one of them was guilty according to existing laws Such a massacre was enforced under the conditions of a state of emergency Erdo an decelerated that and ignoring the laws As a result the militant prosecutors prepared indictments for a crime that did not exist militant judges held a perfunctory trial and the execution of harsh sentences was ever not within the framework of the law Prisons were turned into dungeons which meant the figurative meaning of the prison A dungeon means a room or cell where prisoners are kept especially underground and is generally associated with Medieval Castles It means places that are tyrannized In the period of Erdo an in the dungeons of Turkey we have seen all kinds of lawlessness and ill treatment in conformity with the spirit of the dungeon concept He unleashed his hyenas on us and tore our flesh to shreds The one who is the head of state and his officials who were his dogs were extremely cruel to us While they recklessly presented all kinds of ill treatment even the DHKP C PKK and ISIS prisoners held in the next wards took pity on us Does ever an atheist militant pray like that May God not put anyone in your situation I witnessed him doing so myself In addition to physical torture and torture psychological torture methods were also used One of these methods was to show propaganda films that insulted us and our thinking Even if a person s brain were the size of a fig seed and his her mind the size of a strand of hair a conscientious person would never believe the so called July 15 Coup in Turkey Through a finely tuned so called military uprising on 15 July 2016 Erdo an committed a massacre by making a real his coup on 16 July 2016 Feature films and documentaries on the so called July 15 coup were made The guards took us into groups of ten to watch these films and documentaries The Thief s Dogs Some time a guard was taking our friends to the tank in a single file We encountered them in one of the long corridors of the dungeon I was at the front of our group and I knew the guy at the front of the line coming from the other side As I approached him I slowed my steps and asked an ironical question in a low voice What s up From where My friend said They took us to watch The Thief s Dogs that s where we came from I was pretty down until then But this message with the syntax The Thief s Dogs given by my friend lifted my spirit a little That is even if they took to other propagandized films every day these people who are travelers of the Way of Truth would never attend outlaw gangs and they would go on walking their beliefs So even if they took them to see a different propaganda film every day these people who are on the path of truth would never join this gang of lawless people with oppression and propaganda and would continue to walk on the path they believe in even at the cost of enduring a great

many hardships This syntax of my friend revolved in my mind for days Eventually it turned into a book idea This idea emerged in novel form during the prison days But it was not possible to write this novel The captivity ended for me and while I was living a difficult life semi free under the sword of Damocles again I penned some articles I collected these articles the content of which is per the phrase Thieves Dogs under the same name Indeed defining the actions of this mob in question who has ruined the lives of hundreds of thousands of people as theft and their description as dog would be insufficient However out of respect for the reader I have contented myself with this for now
