Nation and National Identity Hanspeter Kriesi, 1999 *Nation and National Identity* Hanspeter Kriesi, 2004 The nation state is challenged all over the world today Regional movements the reunification of separate territorial parts the differentiation of formerly homogenous ethnic identities the sequels of war and the country specific historical legacies present many different challenges for national identities and nationhood The contributions in this volume constitute an attempt to put the many facets of the contemporary European experience into perspective BOOK JACKET *Nation and Nationalism in Europe* Ireneusz Pawel Karolewski, 2011-06-13 An overview of the contending approaches to the nation and nationalism in a European context *European Identity in the Context of National Identity* Bettina Westle, Paolo Segatti, 2016-04-29 In the age of grand recession nationalism seems to have returned to Europe In every EU country many citizens are unhappy with the perceived intrusion of Europe in their way of life Any idea of a genuine pan European identity seems to be in retreat This book provides an unprecedented insight into the multiple ways through which citizens of 16 countries connect their own national identity to European identity The book s theoretical claim is that European identity as well as national identity should be empirically assessed taking into account its multi dimensionality The volume s contributors suggest that European identity was always unlikely to be a source of political integration and political legitimacy in the way national identities have been in the past and are today Europeans primary identity is national rather than supranational Mutual trust between European peoples exists but is somewhat fragile Yet European identity is intertwined with national identities in manifold ways The imagined communities at the national and European level show strong similarities criteria for being a European are strongly associated with the criteria used to define who national belonging These complex links also manifest themselves in citizen s feelings of interdependence between the nations in the European Union which the volume suggests support the EU in the face of severe crises The IntUne series is edited by Maurizio Cotta University of Siena and Pierangelo Isernia University of Siena The INTUNE Project Integrated and United A Quest for Citizenship in an Ever Closer Europe is one of the most recent and ambitious research attempts to empirically study how citizenship is changing in Europe The book series is organized around the two main axes of the project to report how the issues of identity representation and standards of good governance are constructed and reconstructed at the elite and citizen levels and how mass elite interactions affect the ability of elites to shape identity representation and the scope of governance A first set of four books examines how identity scope of governance and representation have been changing over time respectively at elites media and public level The next two books present cross level analysis of European and national identity on the one hand and problems of national and European representation and scope of governance on the other in doing so comparing data at both the mass and elite level A concluding volume summarizes the main results framing them in a wider theoretical context **Identity and Nation in 21st Century Catalonia** Steven Byrne, 2021-08-09 This volume offers an

overview of the ongoing debate regarding nationalism globalisation secessionism and languages in 21st century Catalonia At the heart of the book is a set of interlocking questions relating to socio political issues in sub state nations seeking independence in the 21st century **Citizenship and Collective Identity in Europe** Ireneusz Pawel

Karolewski,2009-12-04 This book is the first monograph to systematically explore the relationship between citizenship and collective identity in the European Union integrating two fields of research citizenship and collective identity Karolewski argues that various types of citizenship correlate with differing collective identities and demonstrates the link between citizenship and collective identity He constructs three generic models of citizenship including the republican the liberal and the caesarean citizenship to which he ascribes types of collective identity Using a multidisciplinary approach the book integrates concepts theories and empirical findings from sociology in the field of citizenship research social psychology in the field of collective identity legal studies in the chapter on the European Charter of Fundamental Rights security studies in the chapter on the politics of insecurity and philosophy in the chapter on pathologies of deliberation to examine the current trends of European citizenship and European identity politics This book will be of interest to students and scholars of European politics political theory political philosophy sociology and social psychology **The International Social Survey**

Programme 1984-2009 Max Haller,Roger Jowell,Tom W Smith,2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research *The formation of Croatian national identity* Alex Bellamy,2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this

narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society

The Construction of European Identity among Ethnic Minorities Natalia Waechter, 2019-07-17 This book is concerned with European identities among ethnic minorities who live along the eastern border of the European Union Based on findings from quantitative and qualitative empirical research conducted with minority groups in eight nation states on both sides of the new eastern border of the EU it investigates their attitudes and perceptions of the EU based on their constructions of European identity Adopting a comparative approach the author explores different processes of identity construction across several age and ethnic minority groups to develop a theory of European identities in which ethnic identities can be seen as a missing link in explaining relationships between different national regional and supranational identities With new insights regarding the political cultural and instrumental contents of European identity and its emergence this volume will appeal to scholars of sociology and politics with interests in ethnic identity European integration and identity research

Nationalism in Contemporary Europe Andrzej Marcin Suszycki, 2021 This book proposes a conceptualisation of nationalism with a multilevel operational character It offers three different perspectives on nationalism that consider both the discursive structure and the discursive agency of nationalism It also demonstrates a number of intra phenomenal and extra phenomenal constraints on nationalism This book underlines that nationalism in contemporary Europe should not be regarded in terms of methodological homogeneity and conceptual uniformity ideological rigidity or strategic consistency but rather as a contested segmented bounded and contextual phenomenon

The Identity of Nations Maria Montserrat Guibernau i Berdún, 2007 What is national identity Can we forge a new kind of national identity that responds to the challenges of globalization and other deep seated changes Montserrat Guibernau answers these and other compelling questions about the future of national identity

Religion and Politics Johann P. Arnason, 2014-04-23 Combining theoretical and empirical research these 12 essays examine the role of religion and its prospects in Europe On the one hand the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism not least in view of the high prominence given to Islamic experience in arguments against over generalised notions of secularisation On the other hand it explores the question of Christian motivated extremism and religious nationalism Against this background the contributors discuss the role of religion in other countries throughout the world including China Japan Russia and the MENA region

The Europeanization of Europe: Europe's Cultural Identity in the Context of the Integration Processes Piotr Mazurkiewicz, 2025-09-11 A Bolivian working in Warsaw for many years decided to apply for Polish citizenship He was asked only one question at the migration office whether he ate sauerkraut hunters stew and fermented dill cucumbers in brine You know he said later for many years I was not able to

swallow it but recently I forced myself and was able to honestly answer yes Cuisine no doubt is one of the elements of national culture The question however was not just about cuisine but about belonging to a national community that this man found worthy of such a sacrifice Europe is called the continent of culture In the book Piotr Mazurkiewicz engages in a reflection on what constitutes the hard core of this culture which allows us to call ourselves Europeans

Obama's America Ian Reifowitz, 2012-07-01 Our national identity is defined by what it means to be an American and whom we include and why when we talk about the American people A country's national identity is fluid and Ian Reifowitz argues that President Barack Obama by emphasizing the ideals Americans hold dear hopes to redefine ours in a fundamental way Obama's conception of America emphasizes two principles of national unity First all Americans regardless of their heritage and cultural traditions should identify with America as their country based upon shared democratic values a shared history and a shared fate Second America should embrace all its citizens as active participants in one family Reifowitz explores Obama's belief that strengthening our common bonds will encourage Americans to rectify the injustices and heal the racial divisions that still plague our country We have the opportunity to demonstrate to the world that a society of many races and cultures can truly become one people In facing terrorism violent fundamentalism and other security issues Obama's response centers on a powerful inspiring and truly inclusive American narrative By bolstering America's identity as diverse yet unified he aims both to counter the anxieties and fears that radicalism stokes and give proponents of religious and political freedom a model they can defend The stakes couldn't be any higher in determining America's future

Globalisation of Nationalism Liah Greenfeld, 2020-08-01 Organised as an experiment testing the hypothesis that behind the hottest political issues of the quarter century after the Cold War lies globalisation of national consciousness this collection of essays unites authors from the four corners of the world They focus on democratisation and its failure in Russia transformations of identity in Eastern and Western Europe Africa North and South America and South East Asia the rise of militant and political Islam and the eruption of China onto the world stage The volume makes the argument that globalisation we are witnessing is for the most part the globalisation of competitive and antagonistic nationalism which spreads to areas where it was not known earlier and into the sphere of religion ostensibly indifferent to it Collectively these essays prove that nationalism remains the organising principle of politics inside nations as well as at transnational and international levels
