## **Nation In The Village The Genesis Of Peasant National Identity In:**

*The Nation in the Village*, 2004      *The Nation in the Village* Keely Stauter-Halsted, 2015-09-25 How do peasants come to think of themselves as members of a nation The widely accepted argument is that national sentiment originates among intellectuals or urban middle classes then trickles down to the working class and peasants Keely Stauter Halsted argues that such models overlook the independent contribution of peasant societies She explores the complex case of the Polish peasants of Austrian Galicia from the 1848 emancipation of the serfs to the eve of the First World War In the years immediately after emancipation Polish speaking peasants were more apt to identify with the Austrian Emperor and the Catholic Church than with their Polish lords or the middle classes of the Galician capital Cracow Yet by the end of the century Polish speaking peasants would cheer Long live Poland and celebrate the centennial of the peasant fueled insurrection in defense of Polish independence The explanation for this shift Stauter Halsted says is the symbiosis that developed between peasant elites and upper class reformers She reconstructs this difficult halting process paying particular attention to public life and conflicts within the rural communities themselves The author s approach is at once comparative and interdisciplinary drawing from literature on national identity formation in Latin America China and Western Europe *The Nation in the Village* combines anthropology sociology and literary criticism with economic social cultural and political history      Nature and National Identity After Communism

Katrina Z. S. Schwartz, 2006-11-26 In this groundbreaking book Katrina Schwartz examines the intersection of environmental politics globalization and national identity in a small East European country modern day Latvia Based on extensive ethnographic research and lively discourse analysis it explores that country s post Soviet responses to European assistance and political pressure in nature management biodiversity conservation and rural development These responses were shaped by hotly contested notions of national identity articulated as contrasting visions of the ideal rural landscape The players in this story include Latvian farmers and other traditional rural dwellers environmental advocates and professionals with divided attitudes toward new European approaches to sustainable development An entrenched set of forestry and land management practices with roots in the Soviet and pre Soviet eras confront growing international pressures on a small country to conform to current Western notions of environmental responsibility notions often perceived by Latvians to be at odds with local interests While the case is that of Latvia the dynamics Schwartz explores have wide applicability and speak powerfully to broader theoretical discussions about sustainable development social constructions of nature the sources of nationalism and the impacts of globalization and regional integration on the traditional nation state

**Diaspora Nationalism and Jewish Identity in Habsburg Galicia** Joshua Shanes, 2012-08-06 The triumph of Zionism has clouded recollection of competing forms of Jewish nationalism vying for power a century ago This study explores alternative ways to construct the modern Jewish nation Jewish nationalism emerges from this book as a Diaspora phenomenon much broader than the Zionist movement Like its non Jewish counterparts Jewish nationalism was first and

foremost a movement to nationalize Jews to construct a modern Jewish nation while simultaneously masking its very modernity Diaspora Nationalism and Jewish Identity in Habsburg Galicia traces this process in what was the second largest Jewish community in Europe Galicia The history of this vital but very much understudied community of Jews fills a critical lacuna in existing scholarship while revisiting the broader question of how Jewish nationalism or indeed any modern nationalism was born Based on a wide variety of sources many newly uncovered this study challenges the still dominant Zionist narrative by demonstrating that Jewish nationalism was a part of the rising nationalist movements in Europe

Writing the History of Nationalism Stefan Berger, Eric Storm, 2019-09-19 What is nationalism and how can we study it from a historical perspective Writing the History of Nationalism answers this question by examining eleven historical approaches to nationalism studies in theory and practice An impressive cast of contributors cover the history of nationalism from a wide range of thematic approaches from traditional modernist and Marxist perspectives to more recent debates around gender postcolonialism and the global turn in history writing This book is essential reading for undergraduate students of history politics and sociology wanting to understand the complex yet fascinating history of nationalism

*Displays of Belonging* Sarah Ellen Zarrow, 2025-06-15 *Displays of Belonging* illuminates the lives and work of Polish Jewish collectors and museologists who sought to preserve the treasures of the Jewish past while demonstrating Jewish belonging on Polish soil As Jews comfortable in the Polish language and within Polish artistic and academic society they saw themselves as intermediaries between less integrated Jews and the Polish cultural elite At the turn of the century Jewish ethnographers and museum creators staked their claim to belonging to the civic nation though the display of Jewish folk art fine art and Judaica After the First World War the nearly three million Jews in the Second Polish Republic were suddenly challenged with finding a place for themselves in a state that increasingly defined itself as a creation of the ethnic Polish nation to which Jews by many accounts did not belong By tracing emergent documentation and display practices in partitioned Poland and in the interwar Second Polish Republic Sarah Ellen Zarrow offers a better understanding of how integrated Jews identified with Polish culture and history and with non Jewish Poles and how they conceived of negotiated and argued their collective place within Poland This is not a case of assimilation nor of acculturation but rather of displaying a parallel culture that was at once similar and yet distinctive *Displays of Belonging* offers a nuanced understanding of the multiplicity of ways in which Jews in Poland saw their present and dreamed of their future It places Jewish ethnographic practice and art collection within a Polish context and sheds light on ways in which ideas about belonging and national identity were negotiated in the space of museums

Memory and Social Movements in Modern and Contemporary History Stefan Berger, Christian Koller, 2024-04-29 Reflecting the growing interest of historians in memory studies this edited collection examines the relationship between memory and global social movements from 1848 to the present For a long time there has been little attempt by historians to consider memory and social activism in an integrated systematic and

comparative way However in recent years scholars have demonstrated that social movements rely on collective memories to assert claims mobilize supporters and legitimize their political visions while also helping to further shape collective memories This book delves into the synergies between memory studies and social movements exploring how social movements have been constructing and creating memories of their own activity how specific landscapes of memory have influenced social movements and how activists have used memory as a cultural resource to further their own goals and ambitions The case studies presented cover a range of different types of political activism including the fights for workers gay feminist and pacifist rights as well as ecological urban and far right movements across the globe portraying the diverse interrelations that exist between social movements and collective memory

**Nationalism in Modern Europe** Derek Hastings,2023-01-12

Derek Hastings s *Nationalism in Modern Europe* is the essential guide to a potent political and cultural phenomenon that featured prominently across the modern era With firm grounding in transnational and global contexts the book traces the story of nationalism in Europe from the French Revolution to the present Hastings reflects on various nationalist ideas and movements across Europe and always with a keen appreciation of other prevalent signifiers of belonging such as religion race class and gender which helps to inform and strengthen the analysis The text shines a light on key historiographical trends and debates and includes 20 images 14 maps and a range of primary source excerpts which can serve to sharpen vital analytical skills which are crucial to the subject New content and features for the second edition include A chapter examining region religion class and gender as alternative markers of identity throughout the 19th century An enhanced global dimension that covers transnational fascism and non European comparatives Additional primary source excerpts and figures Historiographical updates throughout which account for recent research in the field

**Nationalism and Yugoslavia** Pieter Troch,2015-08-18 Created after World War I Yugoslavia was a combination of ethnically religiously and linguistically diverse but connected South Slav peoples Slovenes Croats and Serbs but also Bosnian Muslims Macedonians and Montenegrins in addition to non Slav minorities The Great Powers and the country s intellectual and political elites believed that a coherent identity could be formed in which the different South Slav groups in the state could identify with a single Balkan Yugoslav identity Pieter Troch draws on previously unpublished sources from the domain of education to show how the state s nationalities policy initially allowed for a flexible and inclusive Yugoslav nationhood and how that system was slowly replaced with a more domineering and rigid top down nationalism during the dictatorship of King Alexander I who banned political parties and coded a strongly politicised Yugoslav national identity As Yugoslav society became increasingly split between the pro Yugoslav central regime and anti Yugoslav opposition the seeds were sown for the failure of the Yugoslav idea

*Nationalism and Yugoslavia* provides a valuable new insight into the complexities of pre war Yugoslavia

*Agrarian Reform and Resistance in an Age of Globalisation* Joe Regan,Cathal Smith,2018-12-07 This book investigates the causes and effects of modernisation in rural regions of Britain and Ireland continental Europe the Americas and Australasia between 1780 and

1914 In this period the transformation of the world economy associated with the Industrial Revolution fuelled dramatic changes in the international countryside as landowning elites agricultural workers and states adapted to the consequences of globalisation in a variety of ways The chapters in this volume illustrate similarities differences and connections between the resulting manifestations of agrarian reform and resistance that spread throughout the Euro American world and beyond during the long nineteenth century     Laboratory of Modernity Serhiy Bilenky,2023-10-15 When the powers of Europe were at their prime present day Ukraine was divided between the Austrian and Russian empires each imposing different political social and cultural models on its subjects This inevitably led to great diversity in the lives of its inhabitants shaping modern Ukraine into the multiethnic country it is today Making innovative use of methods of social and cultural history gender studies literary theory and sociology Laboratory of Modernity explores the history of Ukraine throughout the long nineteenth century and offers a unique study of its pluralistic society culture and political scene Despite being subjected to different and conflicting power models during the nineteenth and early twentieth centuries Ukraine was not only imagined as a distinct entity with a unique culture and history but was also realized as a set of social and political institutions The story of modern Ukraine is geopolitically complex encompassing the historical narratives of several major communities including ethnic Ukrainians Poles Jews and Russians who for centuries lived side by side The first comprehensive study of nineteenth century Ukraine in English Laboratory of Modernity traces the historical origins of some of the most pressing issues facing Ukraine and the international community today     Nation and Religion Juraj Buzalka,2008 Author Juraj Buzalka analyses the interplay between religion politics and memory in the context of postsocialist transformations in south east Poland He shows that two Catholic churches play a crucial role in commemorations of the warfare and ethnic cleansings that took place here during and after the Second World War while the Roman Catholic Church claims a privileged status for the Polish nation the Greek Catholic Church does the same for the Ukrainian minority Central to Buzalka s analysis are changing forms of tolerance and multiculturalism and the emergence of post peasant populism a political culture rooted in rural social structures ideologies and narratives and saturated with religion Buzalka s work is an innovative contribution to political anthropology and his findings will also be of interest to political scientists social historians and sociologists     **Region and State in Nineteenth-Century Europe** J. Augusteijn,H. Storm,2012-10-24 In reaction to the centralizing nation building efforts of states in nineteenth century Europe many regions began to define their own identity In thirteen stimulating essays specialists analyze why regional identities became widely celebrated towards the end of that century and why some considered themselves part of the new national self image     Creating the Other Nancy M. Wingfield,2004-09-01 The historic myths of a people nation usually play an important role in the creation and consolidation of the basic concepts from which the self image of that nation derives These concepts include not only images of the nation itself but also images of other peoples Although the construction of ethnic stereotypes during the long nineteenth century initially had other functions

than simply the homogenization of the particular culture and the exclusion of others from the public sphere the evaluation of peoples according to criteria that included level of civilization yielded rankings of ethnic groups within the Habsburg Monarchy That provided the basis for later more divisive ethnic characterizations of exclusive nationalism as addressed in this volume that examines the roots and results of ethnic nationalist and racial conflict in the region from a variety of historical and theoretical perspectives *Intellectuals and the Articulation of the Nation* Ronald Grigor Suny, Michael D. Kennedy, 2001 An interdisciplinary look at the role of intellectuals in the making of nations Neither German nor Pole James Bjork, 2009-12-21 A unique study of the importance of religious identification in a multi national region **Populism in Central and Eastern Europe** Roman Krakovsky, 2025-02-01 The rise of illiberal democracies across Central and Eastern Europe represents an ongoing challenge to the democratic and liberal principles of post Enlightenment societies However considerable debate remains about how to disentangle the complex factors that have contributed to this phenomenon and gain a clearer understanding of the issues shaping the political landscape In this incisive analysis of the populist phenomenon Populism in Central and Eastern Europe re examines the roots of the current political situation tracing the historical evolution of Central and Eastern European populism From late nineteenth century Imperial Russia to Viktor Orb n s Hungary and Jaroslaw Kaczy ski s Poland this book offers an innovative approach to addressing these enduring political issues

**Recovered Territory** Peter Polak-Springer, 2015-10-01 Upper Silesia one of Central Europe s most important industrial borderlands was at the center of heated conflict between Germany and Poland and experienced annexations and border re drawings in 1922 1939 and 1945 This transnational history examines these episodes of territorial re nationalization and their cumulative impacts on the region and nations involved as well as their use by the Nazi and postwar communist regimes to legitimate violent ethnic cleansing In their interaction with and mutual influence on one another political and cultural actors from both nations developed a transnational culture of territorial rivalry Architecture spaces of memory films museums folklore language policy mass rallies and archeological digs were some of the means they used to give the borderland a German Polish face Representative of the wider politics of twentieth century Europe the situation in Upper Silesia played a critical role in the making of history s most violent and uprooting eras 1939 1950 Civil War in Central Europe, 1918-1921 Jochen Böhrer, 2018-11-22 The First World War did not end in Central Europe in November 1918 The armistices marked the creation of the Second Polish Republic and the first shot of the Central European Civil War which raged from 1918 to 1921 The fallen German Russian and Austrian Empires left in their wake lands with peoples of mixed nationalities and ethnicities These lands soon became battle grounds and the ethno political violence that ensued forced those living within them to decide on their national identity Civil War in Central Europe seeks to challenge previous notions that such conflicts which occurred between the First and Second World Wars were isolated incidents and argues that they should be considered as part of a European war a war which transformed Poland into a nation Workers and Nationalism Jakub S. Beneš, 2017 This

book tells the story of how nationalism spread among industrial workers in central Europe in the twentieth century addressing the far reaching effects including the democratization of Austrian politics the collapse of internationalist socialist solidarity before World War I and the twentieth century triumph of Social Democracy in much of Europe
