The African National Congress and the Regeneration of Political Power Susan Booysen, 2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come

Observing Elections

the Commonwealth's Way Carl W. Dundas, 2007 The Commonwealth of Nations comprises 54 nations bound by a common thread of inherited democratic principles that have been deepened and expanded over time In this work author Carl Dundas a key player in election observation reviews the work of Commonwealth election observers and identifies some of the lessons to be learnt from the experiences of several observation missions The period 1990 2000 covering 32 missions is examined and the collective experience of flawed election processes valued and weighed against the impact of local conditions to allow citizens the opportunity to exercise their franchise freely Of particular interest is the commentary on the one party military or apartheid regimes that were transformed into multiparty democracies The trials faced by the management bodies of transitional elections in creating a level playing field for the contesting political parties and keeping the election process transparent were significant and particularly challenging Observing Elections is a special edition of the Integrationist and a useful text for anyone interested in development politics and Commonwealth studies
