depth look at the link between national identity and the economic policies of the new states formed by the breakup of the Soviet Union All these states from the Baltic coast to central Asia were economically dependent on Russia during the 1990s However they reacted very differently to that dependence and their reactions can be traced Abdelal contends to their individual societies Some such as Belarus found dependence inevitable and sought economic reintegration with Russia Others like Lithuania interpreted dependence as a large scale security threat and reoriented their economies away from Russia A third group typified by Ukraine demonstrated no coherent economic policy at all regarding dependence Abdelal distinguishes the Nationalist tradition in international political economy from the Realist tradition and shows that economic nationalism is different than mercantilism He demonstrates the ways that national identity affects economic policy and explains why some governments seek economic autonomy while others prefer regional reintegration He then applies his approach to other cases of economic reorganization after the end of empire eastern Europe in the 1920s after the Habsburgs 1950s Indonesia and French West Africa in the 1960s

National Politics and Sexuality in Transregional Perspective Achim

Rohde, Christina von Braun, Stefanie Schüler-Springorum, 2017-11-28 National Politics and Sexuality in Transregional Perspective explores how modern identity politics around the world are gendered and sexualized in multiple ways. Constructions of the imagined collective self often contain references to a heteronormative order whereas relevant internal or external others are often felt to deviate from this order through their gendered or sexual practices. By contrast, some Western countries have witnessed the evolution of LGBTQI friendly discourses by certain political actors in recent years, often in the context of the post 9/11 culture wars. This pathbreaking book focuses on perceptions of self and other in Europe, the Middle East, and North Africa from a gendered perspective. It deals with anti LGBTQI as well as LGBTQI friendly aspects of modern culture and politics in countries within these regions, focusing on the functions such discursive markers play in nationalist and racist imageries in discourses legitimizing class differences from the nineteenth century to the present day, including globalized discourses in the context of 9/11 and its aftermath. It shows that discourses on sexuality and gendered performances in everyday life often undermine the stability of such binary constructions as they point to the multiplicity, ambivalence, and the indeterminate character of individual and collective identities under conditions of modernity. Addressing contemporary identity politics both in a wider historical context and within a transregional comparative framework, thus helps to discern differences and similarities between different world regions and serves to dislocate essentialized notions of cultural differences based on gender and sex. This book will appeal to those with an interest in Political Sociology, Gender Studies, and Globalisation.

National Poetry, Empires and War David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice, freedom, and the brotherhood of man, but also at times burning with humiliation and grievance, hatred and lust for revenge, driving human kind as the Austrian poet Grillparzer put it: From humanity via nationality to bestiality. National Poetry, Empires and War considers national poetry and its glorification of war from ancient to modern times in a series of historical, social, and political perspectives. Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires, this book has much on pre-modern national poetry but focuses chiefly on post-1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron, Whitman, D. Annunzio, Yeats, Bialik, and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism. Many national poets are the subject of countless critical and biographical studies, but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature, and general cultural studies.

Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia Uroš Čvoro, 2016-03-03 Turbo-folk music is the most controversial form of popular culture in the new states of former Yugoslavia. Theoretically ambitious and innovative, this book is a new account of popular music that has been at the centre of national, political, and cultural debates for over two decades. Beginning with 1970s Socialist Yugoslavia, Uroš Čvoro explores the cultural and political paradoxes of turbo-folk described as

backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk s iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk s popularity across national borders voro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states **Democracy and the**
